(57) **CLAIM**

An ornamental design for an electronic article surveillance  
device for use with articles, as shown and described.

**DESCRIPTION**

FIG. 1 is a frontal perspective view of the electronic article  
surveillance tag for use with articles in an unengaged state  
showing the design;

FIG. 2 is a bottom side perspective view thereof in an unen-  
gaged state;

FIG. 3 is a right side elevational view thereof in an unengaged  
state;

FIG. 4 is a left side elevational view thereof in an unengaged  
state;

FIG. 5 is a right side elevational view thereof in an engaged  
state;

FIG. 6 is a left side elevational view thereof in an engaged  
state;

FIG. 7 is a frontal elevational view thereof in an engaged  
state;

FIG. 8 is a bottom side perspective view thereof in an engaged  
state;

FIG. 9 is a rearward perspective view thereof in an engaged  
state; and,

FIG. 10 is a top side perspective view thereof in an engaged  
state.
