(57) **CLAIM**

What is claimed is the ornamental design for a base for control panel for a construction machine, as shown and described.

DESCRIPTION

FIG. 1 is a top front perspective view of the base for control panel for a construction machine. The broken lines in the center of the Figure are shown to define a boundary around a portion of the article which is not part of the claimed design. The area within the broken line boundary is not part of the claimed design.

FIG. 2 is a top plan view of the base for control panel for a construction machine of FIG. 1. The broken lines in the center of the Figure are shown to define a boundary around a portion of the article which is not part of the claimed design. The area within the broken line boundary is not part of the claimed design.

FIG. 3 is a bottom view of the base for control panel for a construction machine of FIG. 1. The broken lines in the center of the Figure are shown to define a boundary around a portion of the article which is not part of the claimed design. The area within the broken line boundary is not part of the claimed design.

FIG. 4 is a rear side elevation view of the base for control panel for a construction machine of FIG. 1.

FIG. 5 is a front side elevation view of the base for control panel for a construction machine of FIG. 1.

FIG. 6 is a left end elevation view of the base for control panel for a construction machine of FIG. 1; and,

FIG. 7 is a right end elevation view of the base for control panel for a construction machine of FIG. 1.
