(57) **CLAIM**

The ornamental design for a dust catcher, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a first embodiment of a dust catcher;

FIG. 2 is a front elevation of the dust catcher of FIG. 1, the rear elevation being a mirror image thereof;

FIG. 3 is a side elevation of the dust catcher of FIG. 1, the other side elevation being a mirror image thereof;

FIG. 4 is a top plan view of the dust catcher of FIG. 1;

FIG. 5 is a bottom plan view of the dust catcher of FIG. 1;

FIG. 6 is a variant of the dust catcher of FIG. 1 having mesh arranged at an oblique angle;

FIG. 7 is a front elevation of a second embodiment of the dust catcher, the rear elevation being a mirror image thereof;

FIG. 8 is a top plan view of the dust catcher of FIG. 7;

FIG. 9 is a bottom plan view of the dust catcher of FIG. 7;

FIG. 10 is a side elevation of the dust catcher of FIG. 7, the other side elevation being a mirror image thereof;

FIG. 11 is a front elevation of a third embodiment of the dust catcher, the rear plan view being a mirror image thereof;

FIG. 12 is a top plan view of the dust catcher of FIG. 11;

FIG. 13 is a bottom plan view of the dust catcher of FIG. 11; and,

FIG. 14, is a side elevation of the dust catcher of FIG. 11, the other side elevation being a mirror image thereof.

The handle is shown broken away in some of the figures to show that no specific length of the handle is claimed.
