(57) **CLAIM**

The ornamental design for a hub to form collapsible spider-type lug wrench, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view from the front of a first embodiment of the hub to form collapsible spider-type lug wrench of my new design;

FIG. 2 is a top plan view thereof, the bottom plan view being identical;

FIG. 3 is a front elevational view thereof;

FIG. 4 is a rear elevational view thereof;

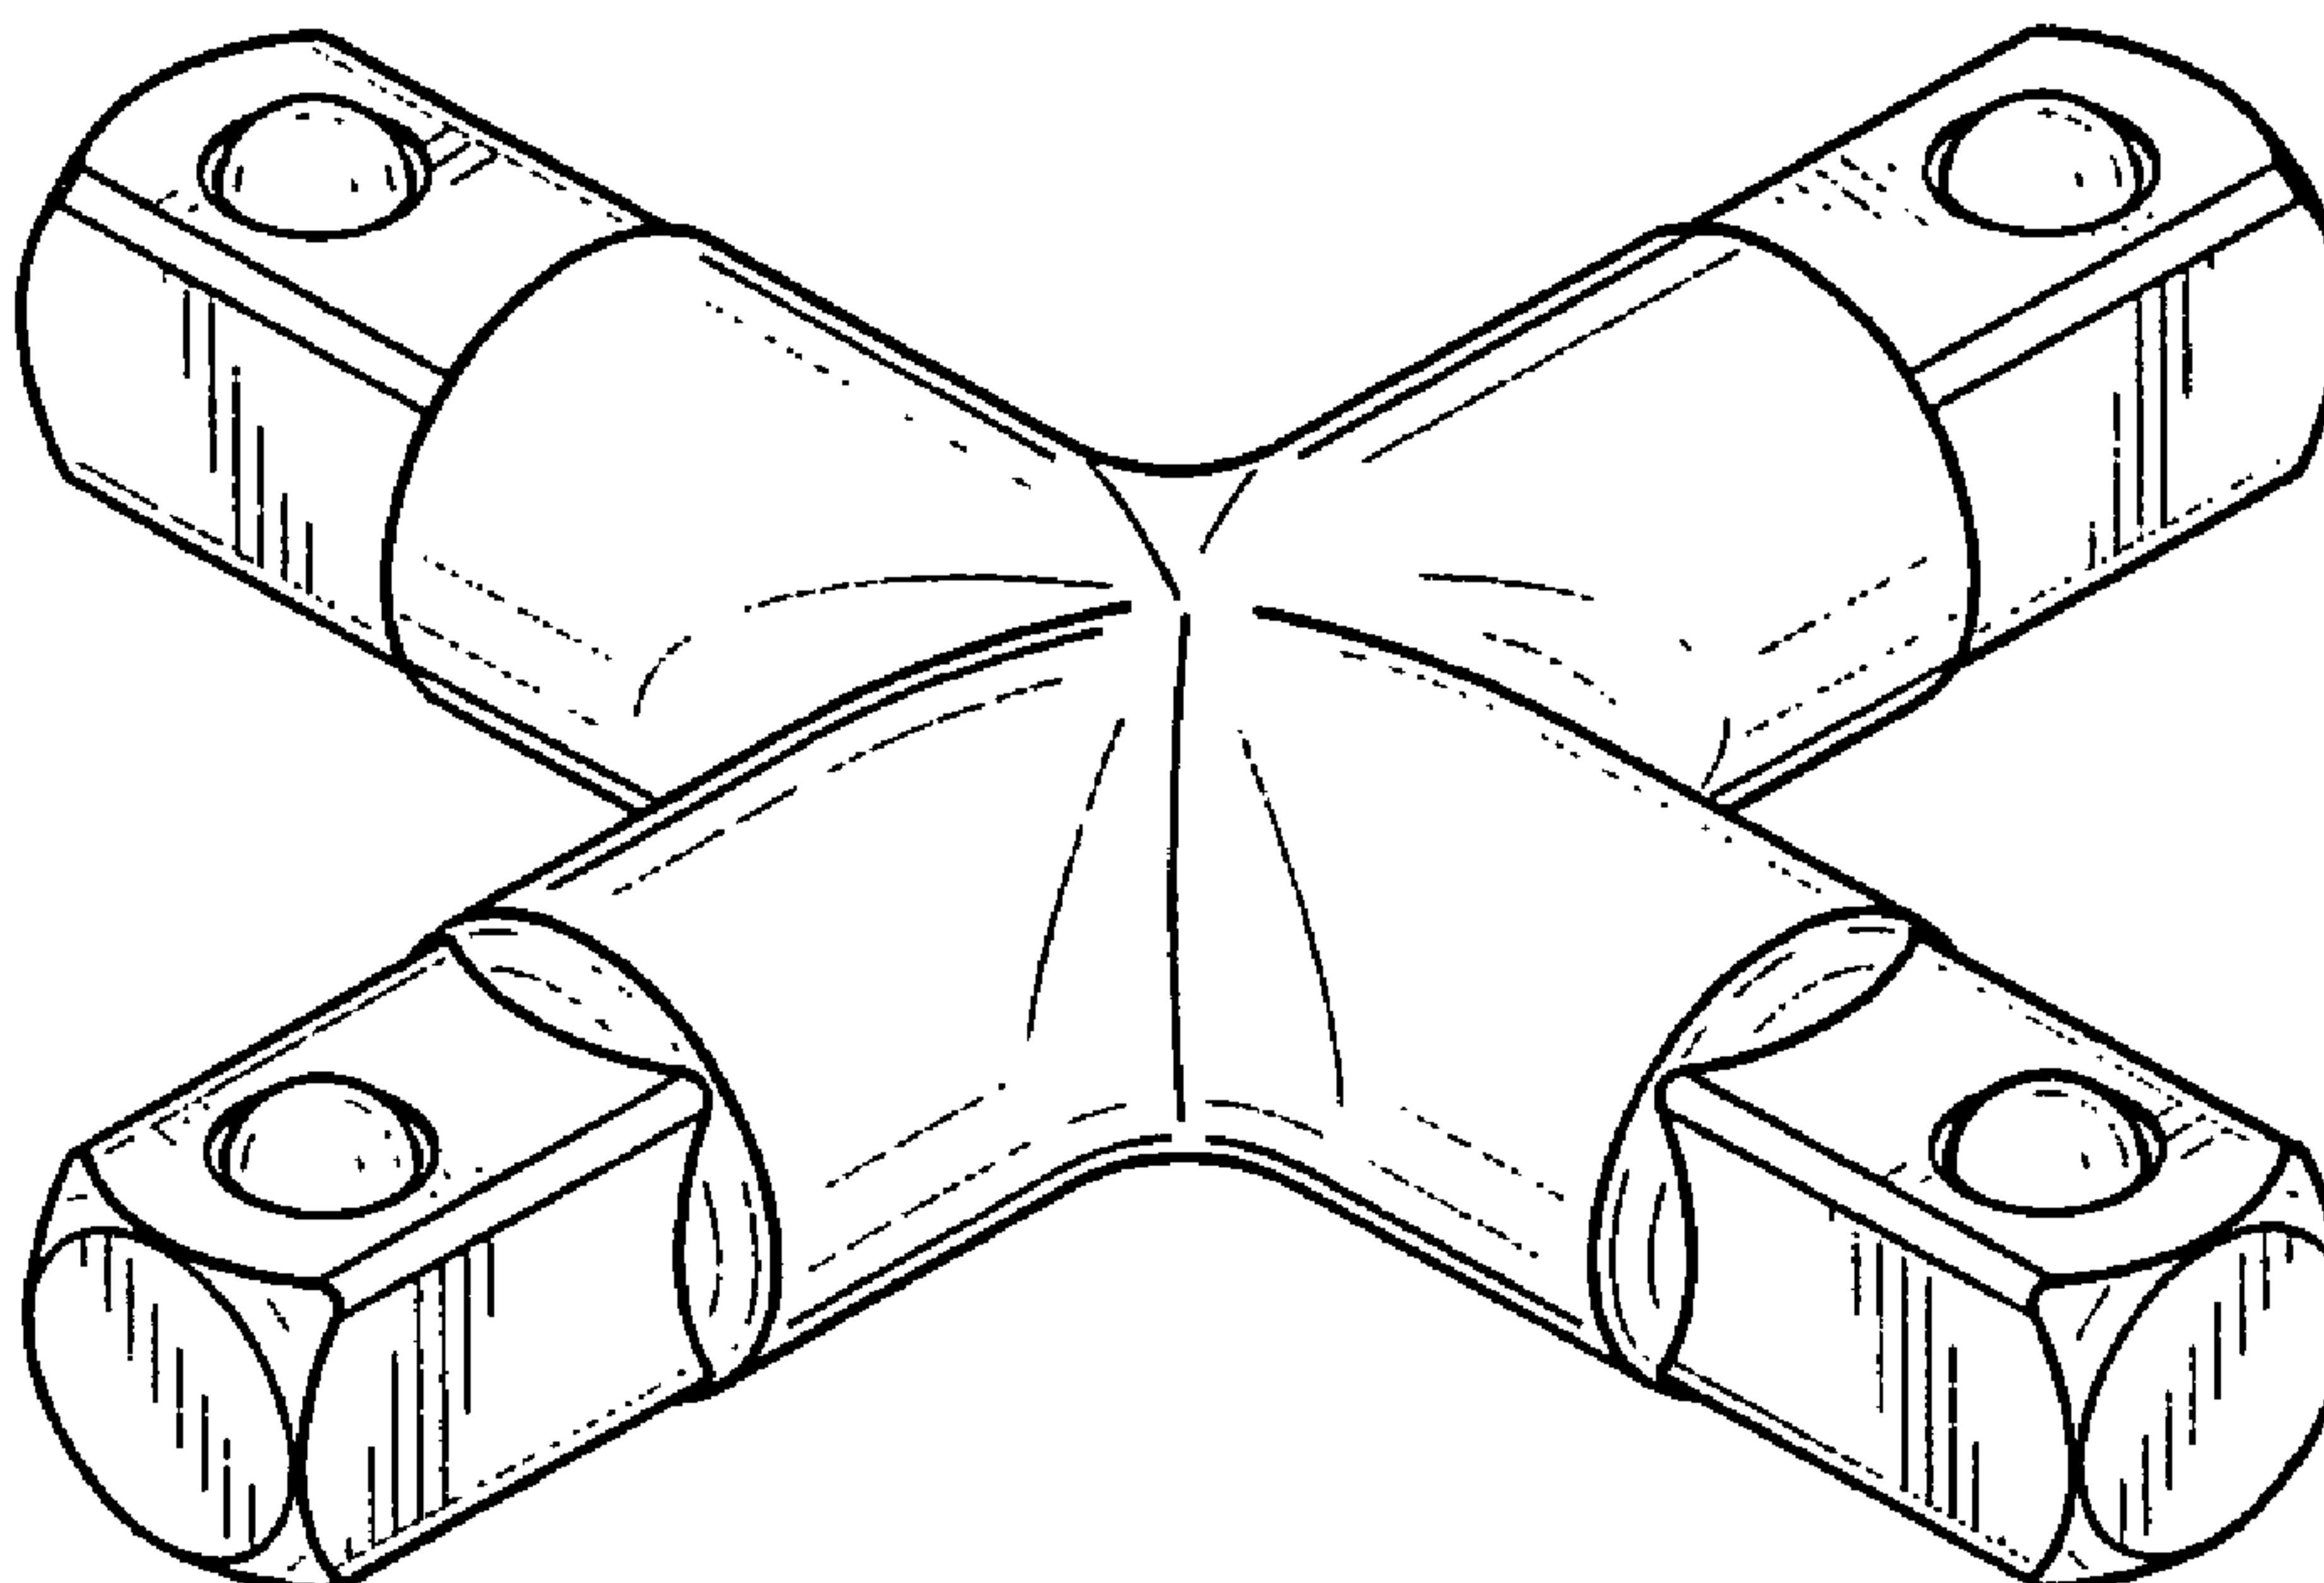

FIG. 5 is a perspective view from the front of a second embodiment thereof;

FIG. 6 is a top plan view of the second embodiment thereof, the bottom plan view being identical; and,

FIG. 7 is a rear elevational view thereof.

The broken lines in FIG. 3 are for illustrative purposes only, and show environmental structure of a portion of wrench extenders engageable with the arms of the hub to form collapsible spider-type lug wrench, and form no part of the claimed design thereof.
