(57) **CLAIM**

The ornamental design for a graphic user interface of page turning elements for a display screen of a communications terminal, as shown and described.

**DESCRIPTION**

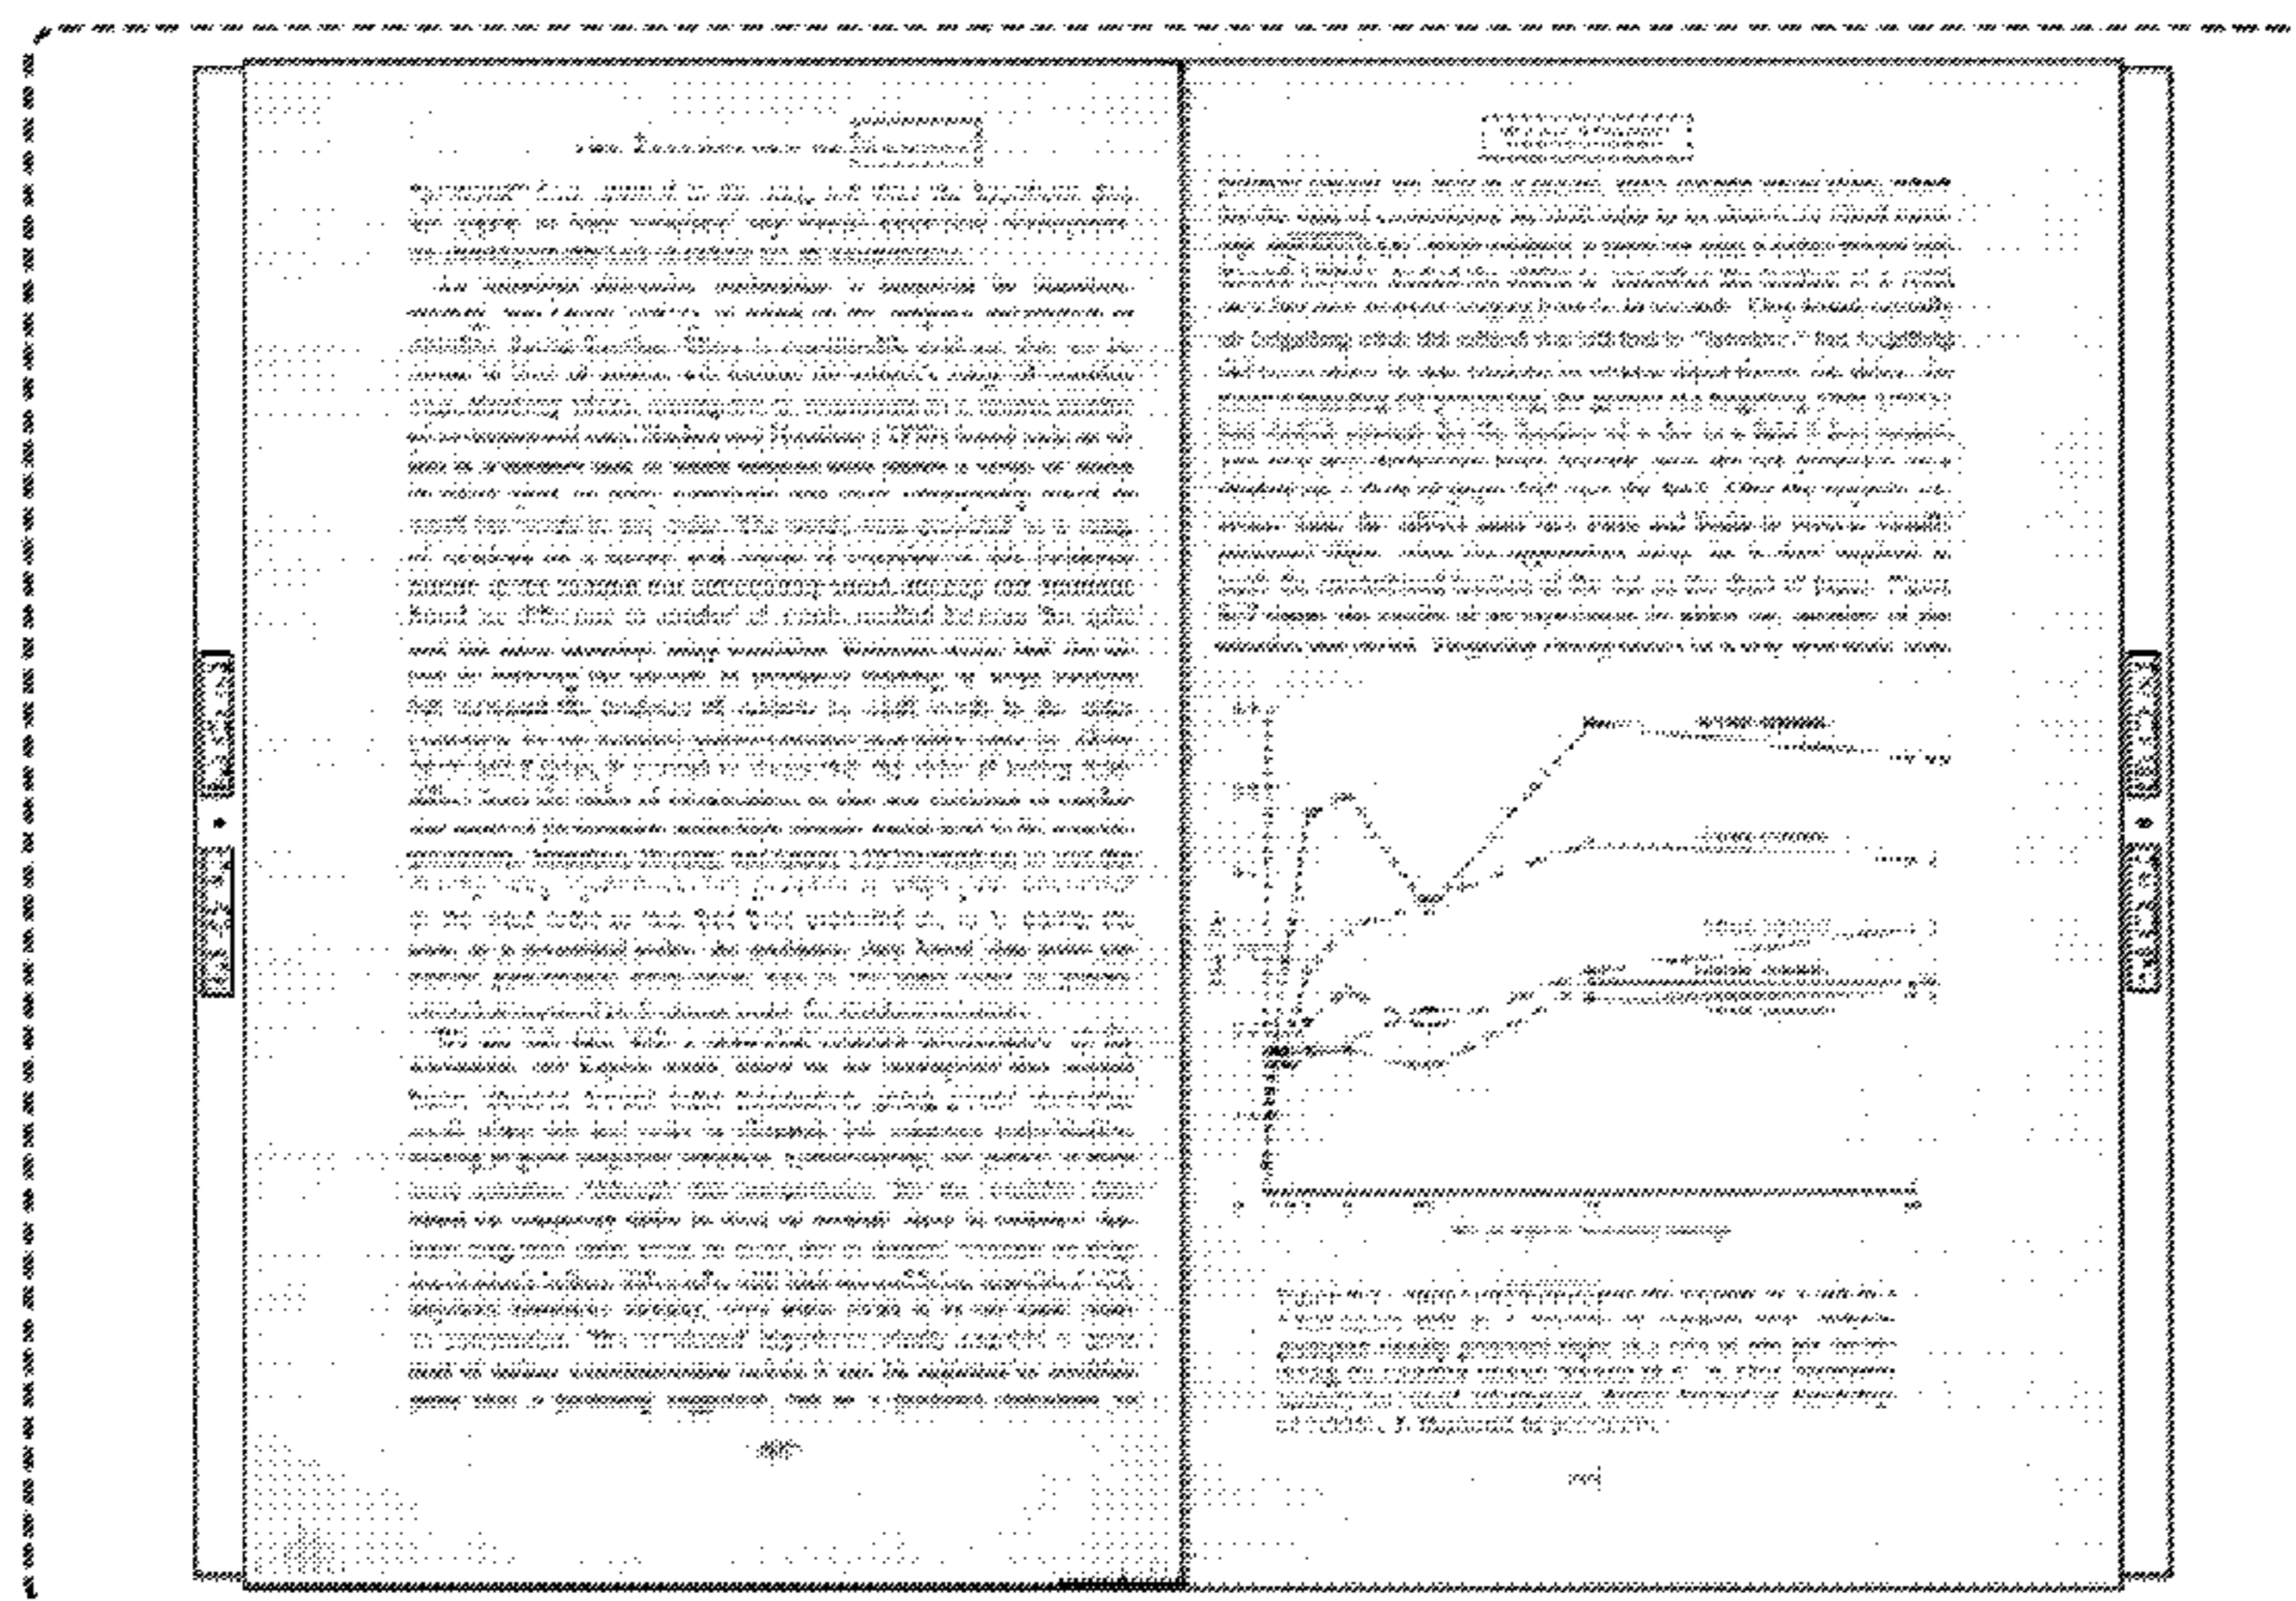

A portion of the disclosure of this patent document contains material to which a claim for copyright and trademark is made. The copyright and trademark owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the Patent and Trademark Office patent file or records, but reserves all other copyright and trademark rights whatsoever.

FIG. 1 is a front view of a graphic user interface of page turning elements for a display screen of a communications terminal; and,

FIG. 2 is a front view of a second embodiment thereof.

The broken line drawing of a display screen of a communications terminal in both drawings is for illustrative purposes only and forms no part of the claimed design.
