(57) **CLAIM**

The ornamental design for a tent, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a tent showing our new design;

FIG. 2 is a back elevational view thereof;

FIG. 3 is a top plan view thereof;

FIG. 4 is a bottom plan view thereof;

FIG. 5 is a right side elevational view thereof;

FIG. 6 is a left side elevational view thereof;

FIG. 7 is a front, right side perspective view thereof;

FIG. 8 is a front, left side perspective view thereof;

FIG. 9 is an additional front elevational view thereof, with the door flap open;

FIG. 10 is an additional back elevational view thereof, with the door flap open;

FIG. 11 is an additional top plan view thereof, shown without support poles and with the door flaps open;

FIG. 12 is an additional bottom plan view thereof, shown without support poles and with the door flaps open;

FIG. 13 is an additional right side elevational view thereof, with the door flaps open;

FIG. 14 is an additional left side elevational view thereof, with the door flaps open;

FIG. 15 is an additional front, right side perspective view thereof, with the door flaps open; and,

FIG. 16 is an additional front, left side perspective view thereof, with the door flaps open.

The broken-line disclosure of elements in the views are understood to be functional aspects of the article in which the design is embodied and form no part of the claimed design.
