FIG. 2 is a perspective view of the wire track cover similar to FIG. 1, but with the wire tier being removed;

FIG. 3 is a front elevation view of the wire track cover as depicted in FIG. 2;

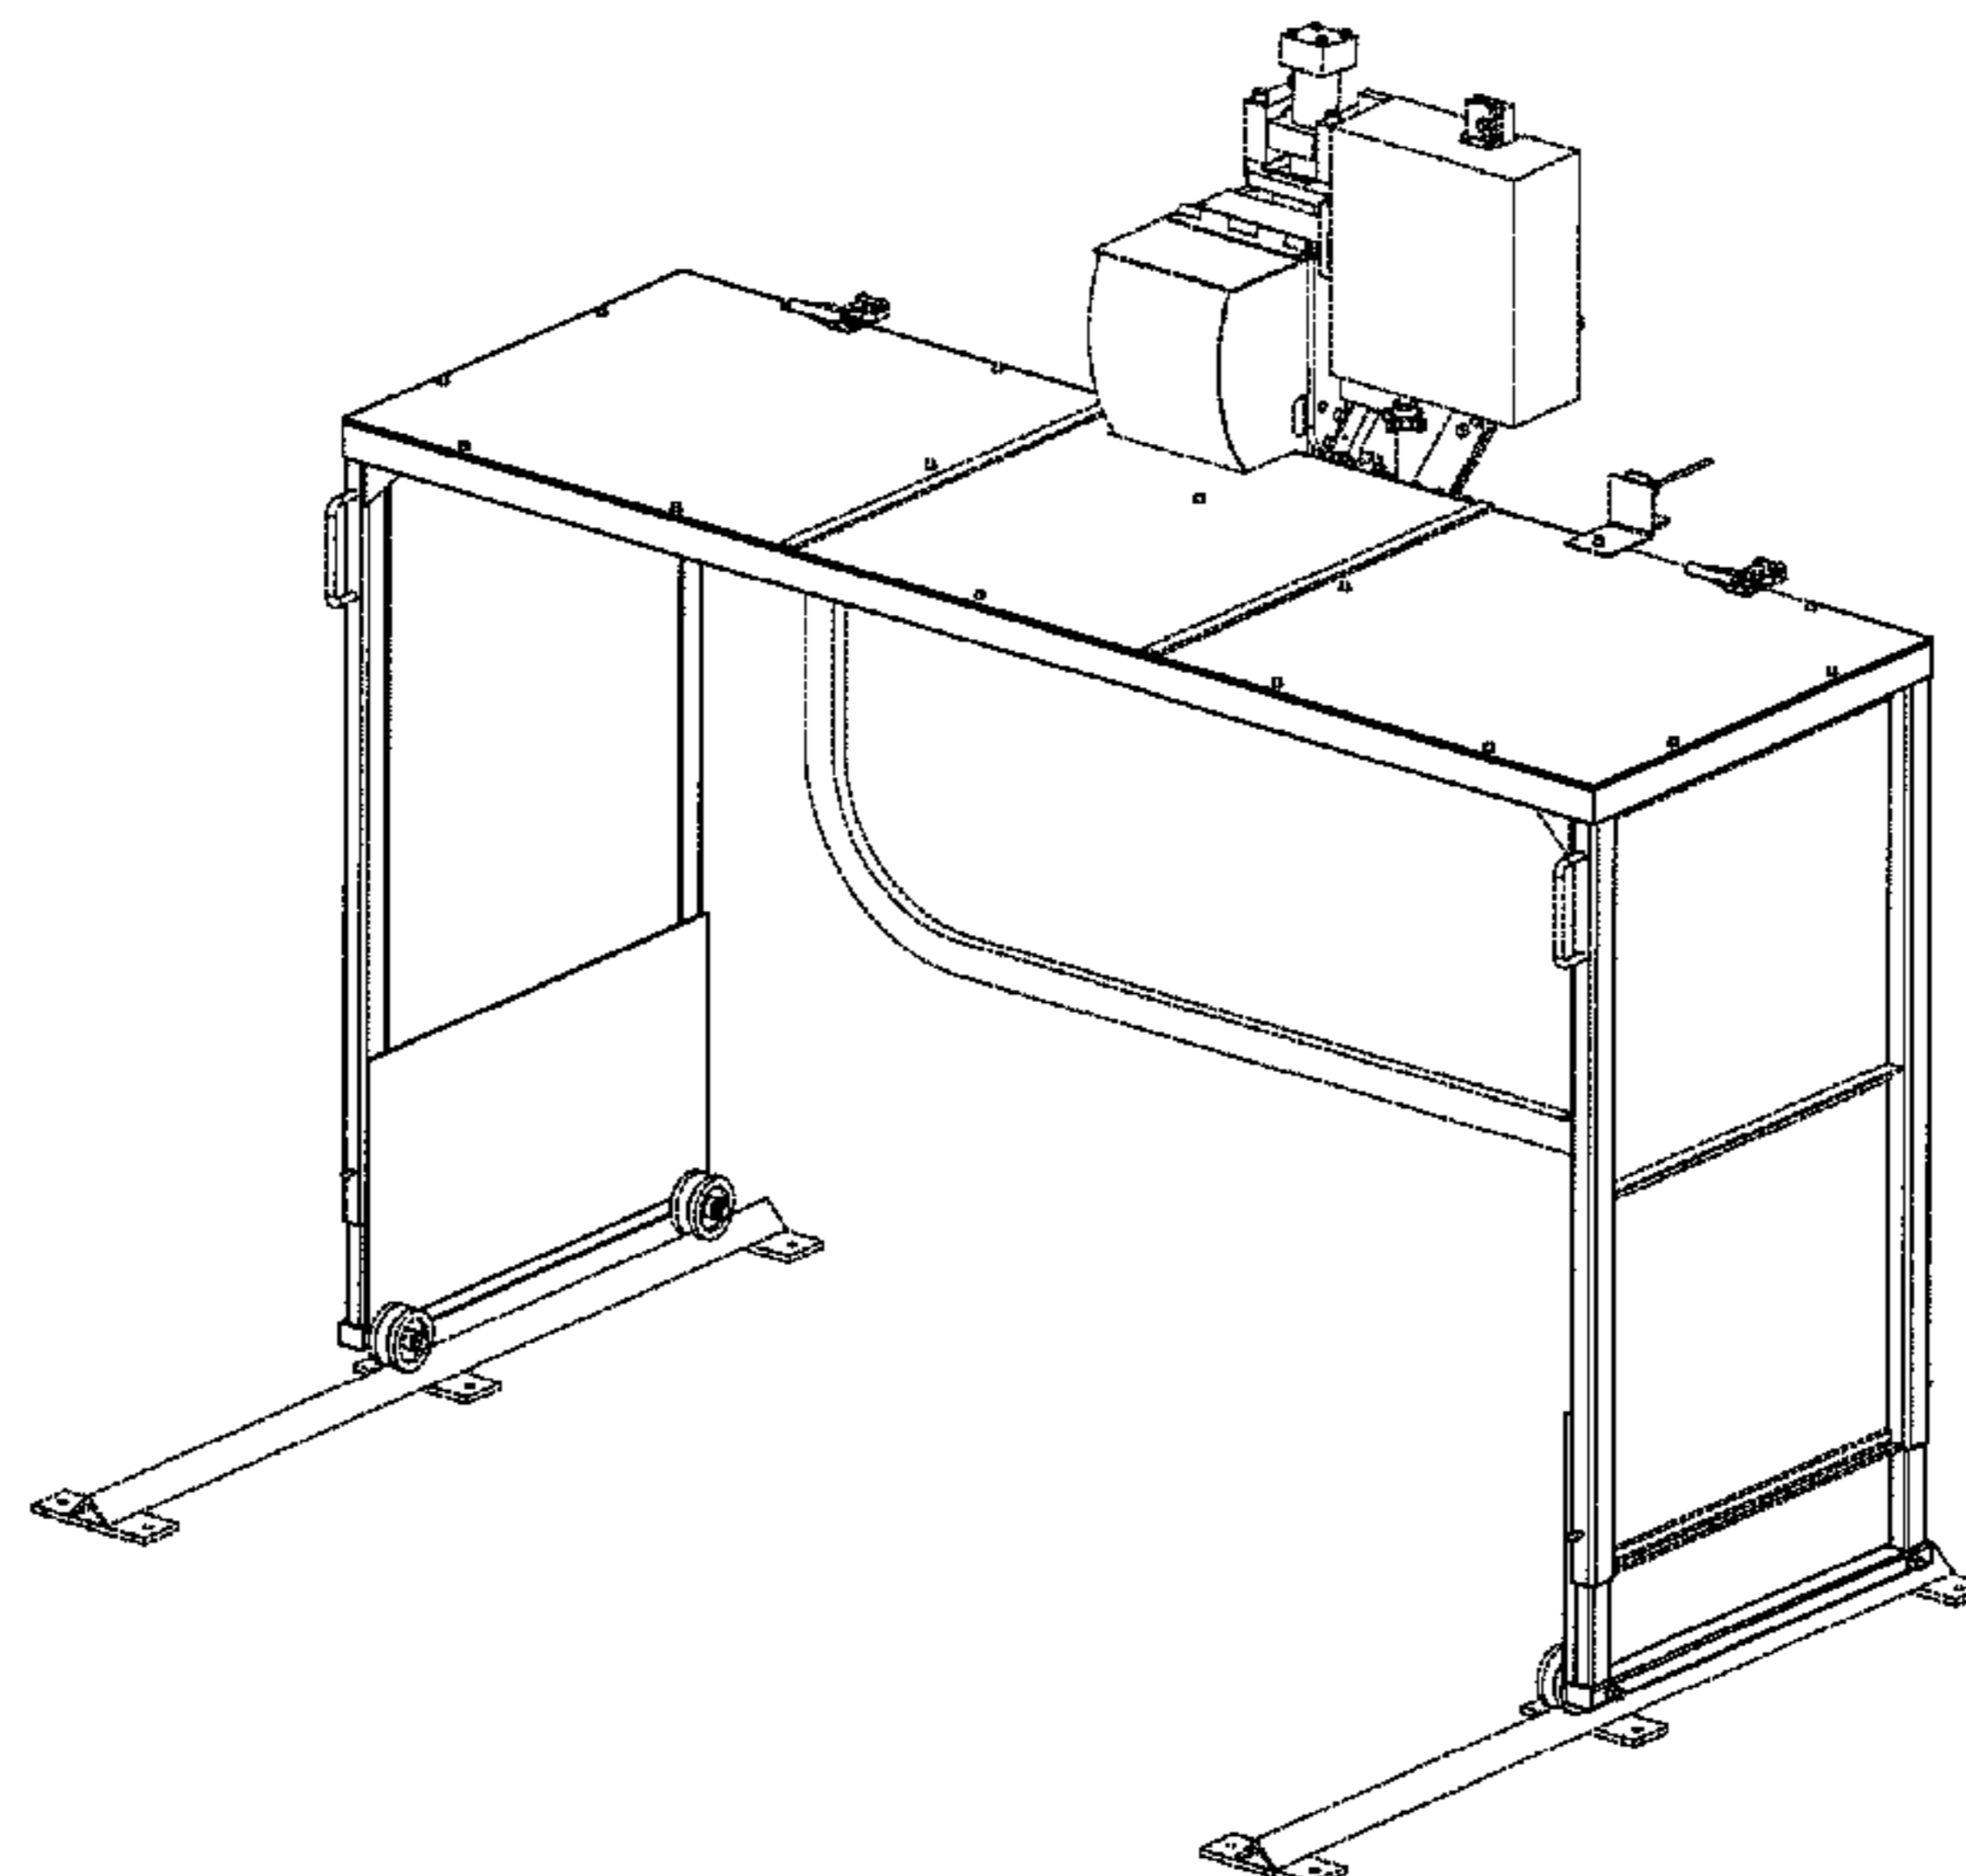

FIG. 4 is a side elevation view of the wire track cover as shown in FIGS. 2 and 3, with the opposite side elevation view being a mirror image thereof;

FIG. 5 is a rear elevation view of the wire track cover as depicted in FIGS. 2-4; and,

FIG. 6 is a top elevation view of the wire track cover as depicted in FIGS. 2-5.

The broken lines showing certain components of the framework for the cover, the slide rails and wheels for moveably supporting the cover, the handles, various fasteners, the safety switch, the hand-operated locks, and the cut-out for accommodating the knotted cover of the tier are for environmental purposes only and form no part of the claimed design.
