(57) **CLAIM**

The ornamental design for a multifunction tool, as shown and
described.

DESCRIPTION

The invention described here may be made, used and licensed
by and for the U.S. Government for governmental purposes
without paying royalty to us.

FIG. 1 is a front, left, top isometric view of a multifunction
tool;

FIG. 2 is a front elevation view of the multifunction tool;

FIG. 3 is a rear elevation view of the multifunction tool;

FIG. 4 is a top plan view of the multifunction tool;

FIG. 5 is a bottom plan view of the multifunction tool;

FIG. 6 is a left side elevation view of the multifunction tool;

FIG. 7 is a right side elevation view of the multifunction tool;

FIG. 8 is a front, left, top isometric view of the multifunction
tool, wherein appendages which are normally secured in the
interior of the housing of the multifunction tool are illus-
trated;

FIG. 9 is a rear, left, top isometric view of the multifunction
tool, wherein the appendages which are normally secured in
the interior of the housing are illustrated;

FIG. 10 is a front, right, top isometric view of the multifunc-
tion tool, wherein the appendages which are normally secured
in the interior of the housing are illustrated;

FIG. 11 is a rear, right, top isometric view of the multifunction
tool, wherein the appendages which are normally secured in
the interior of the housing are illustrated; and

FIG. 12 is a front, right, bottom isometric view of the multi-
function tool, wherein the appendages which are normally
secured in the interior of the housing are illustrated; and,

FIG. 13 is a rear, right, bottom isometric view of the multi-
function tool, wherein the appendages which are normally
secured in the interior of the housing are illustrated.

Views are orthogonal projections unless otherwise noted.
