(57) **CLAIM**

The ornamental design for an ergonomic pipe roller, as shown and described.

DESCRIPTION

FIG. 1 illustrates a top, front, right side perspective view of the ergonomic pipe roller in accordance with the present invention;

FIG. 2 illustrates a top, rear, left side perspective view of the ergonomic pipe roller in accordance with the present invention;

FIG. 3 illustrates a bottom, front, right side perspective view of the ergonomic pipe roller in accordance with the present invention;

FIG. 4 illustrates a bottom, rear, left side perspective view of the ergonomic pipe roller in accordance with the present invention;

FIG. 5 illustrates a rear view of the ergonomic pipe roller in accordance with the present invention;

FIG. 6 illustrates a left side view of the ergonomic pipe roller in accordance with the present invention;

FIG. 7 illustrates a front view of the ergonomic pipe roller in accordance with the present invention;

FIG. 8 illustrates a right side view of the ergonomic pipe roller in accordance with the present invention;

FIG. 9 illustrates a top view of the ergonomic pipe roller in accordance with the present invention; and,

FIG. 10 illustrates a bottom view of the ergonomic pipe roller in accordance with the present invention.

The surface(s) or portion(s) of the article not shown by solid lines in the drawings, but which are shown in dashed lines, form(s) no part of the claimed design.
