(57) **CLAIM**

The ornamental design for the organizer container, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the organizer container in the open configuration with the stiffener bars in the retracted configuration;

FIG. 2 is a perspective view of the organizer container in the open configuration from the opposite angle of FIG. 1, with the stiffener bars in the extended configuration;

FIG. 3 is a front elevational view of the organizer container of FIG. 1;

FIG. 4 is a rear elevational view of the organizer container of FIG. 1;

FIG. 5 is a left side elevational view of the organizer container of FIG. 1;

FIG. 6 is a right side elevational view of the organizer container of FIG. 1;

FIG. 7 is a top plan view of the organizer container of FIG. 1; FIG. 8 is a bottom plan view of the organizer container of FIG. 1;

FIG. 9 is a perspective view of the organizer container in the collapsed configuration;

FIG. 10 is a front elevational view of the organizer container of FIG. 9;

FIG. 11 is a rear elevational view of the organizer container of FIG. 9;

FIG. 12 is a left side elevational view of the organizer container of FIG. 9;

FIG. 13 is a right side elevational view of the organizer container of FIG. 9;

FIG. 14 is a top plan view of the organizer container of FIG. 9;

FIG. 15 is a bottom plan view of the organizer container of FIG. 9;

FIG. 16 is a perspective view of the organizer container in a partially expanded configuration, showing one of the end panels pivoted flat (orthogonal) with respect to the divider panels and other end panel; and,

FIG. 17 is a perspective view of the organizer container in a partially expanded configuration, showing both of the end panels pivoted flat (orthogonal) with respect to the divider panels.

The irregular shaped patterns of lines that can be seen throughout FIGS. 1-6 and 8-17, represent surface material and are understood to be distributed uniformly over the surfaces on which they are only partially shown.

The broken lines shown in FIGS. 7, 8, and 15 are for the purpose of illustrating the environment of the article only and form no part of the claimed design.

The broken lines seen on the ends of the center straps, side straps, handles, and edge of the front panels in FIG. 1-2 and 4-16 represent stitching.

The surface pattern on the four foot pads in FIG. 8 represent a type of material.
