(57) **CLAIM**

The ornamental design for an absorbent material with pattern,
as shown and described.

DESCRIPTION

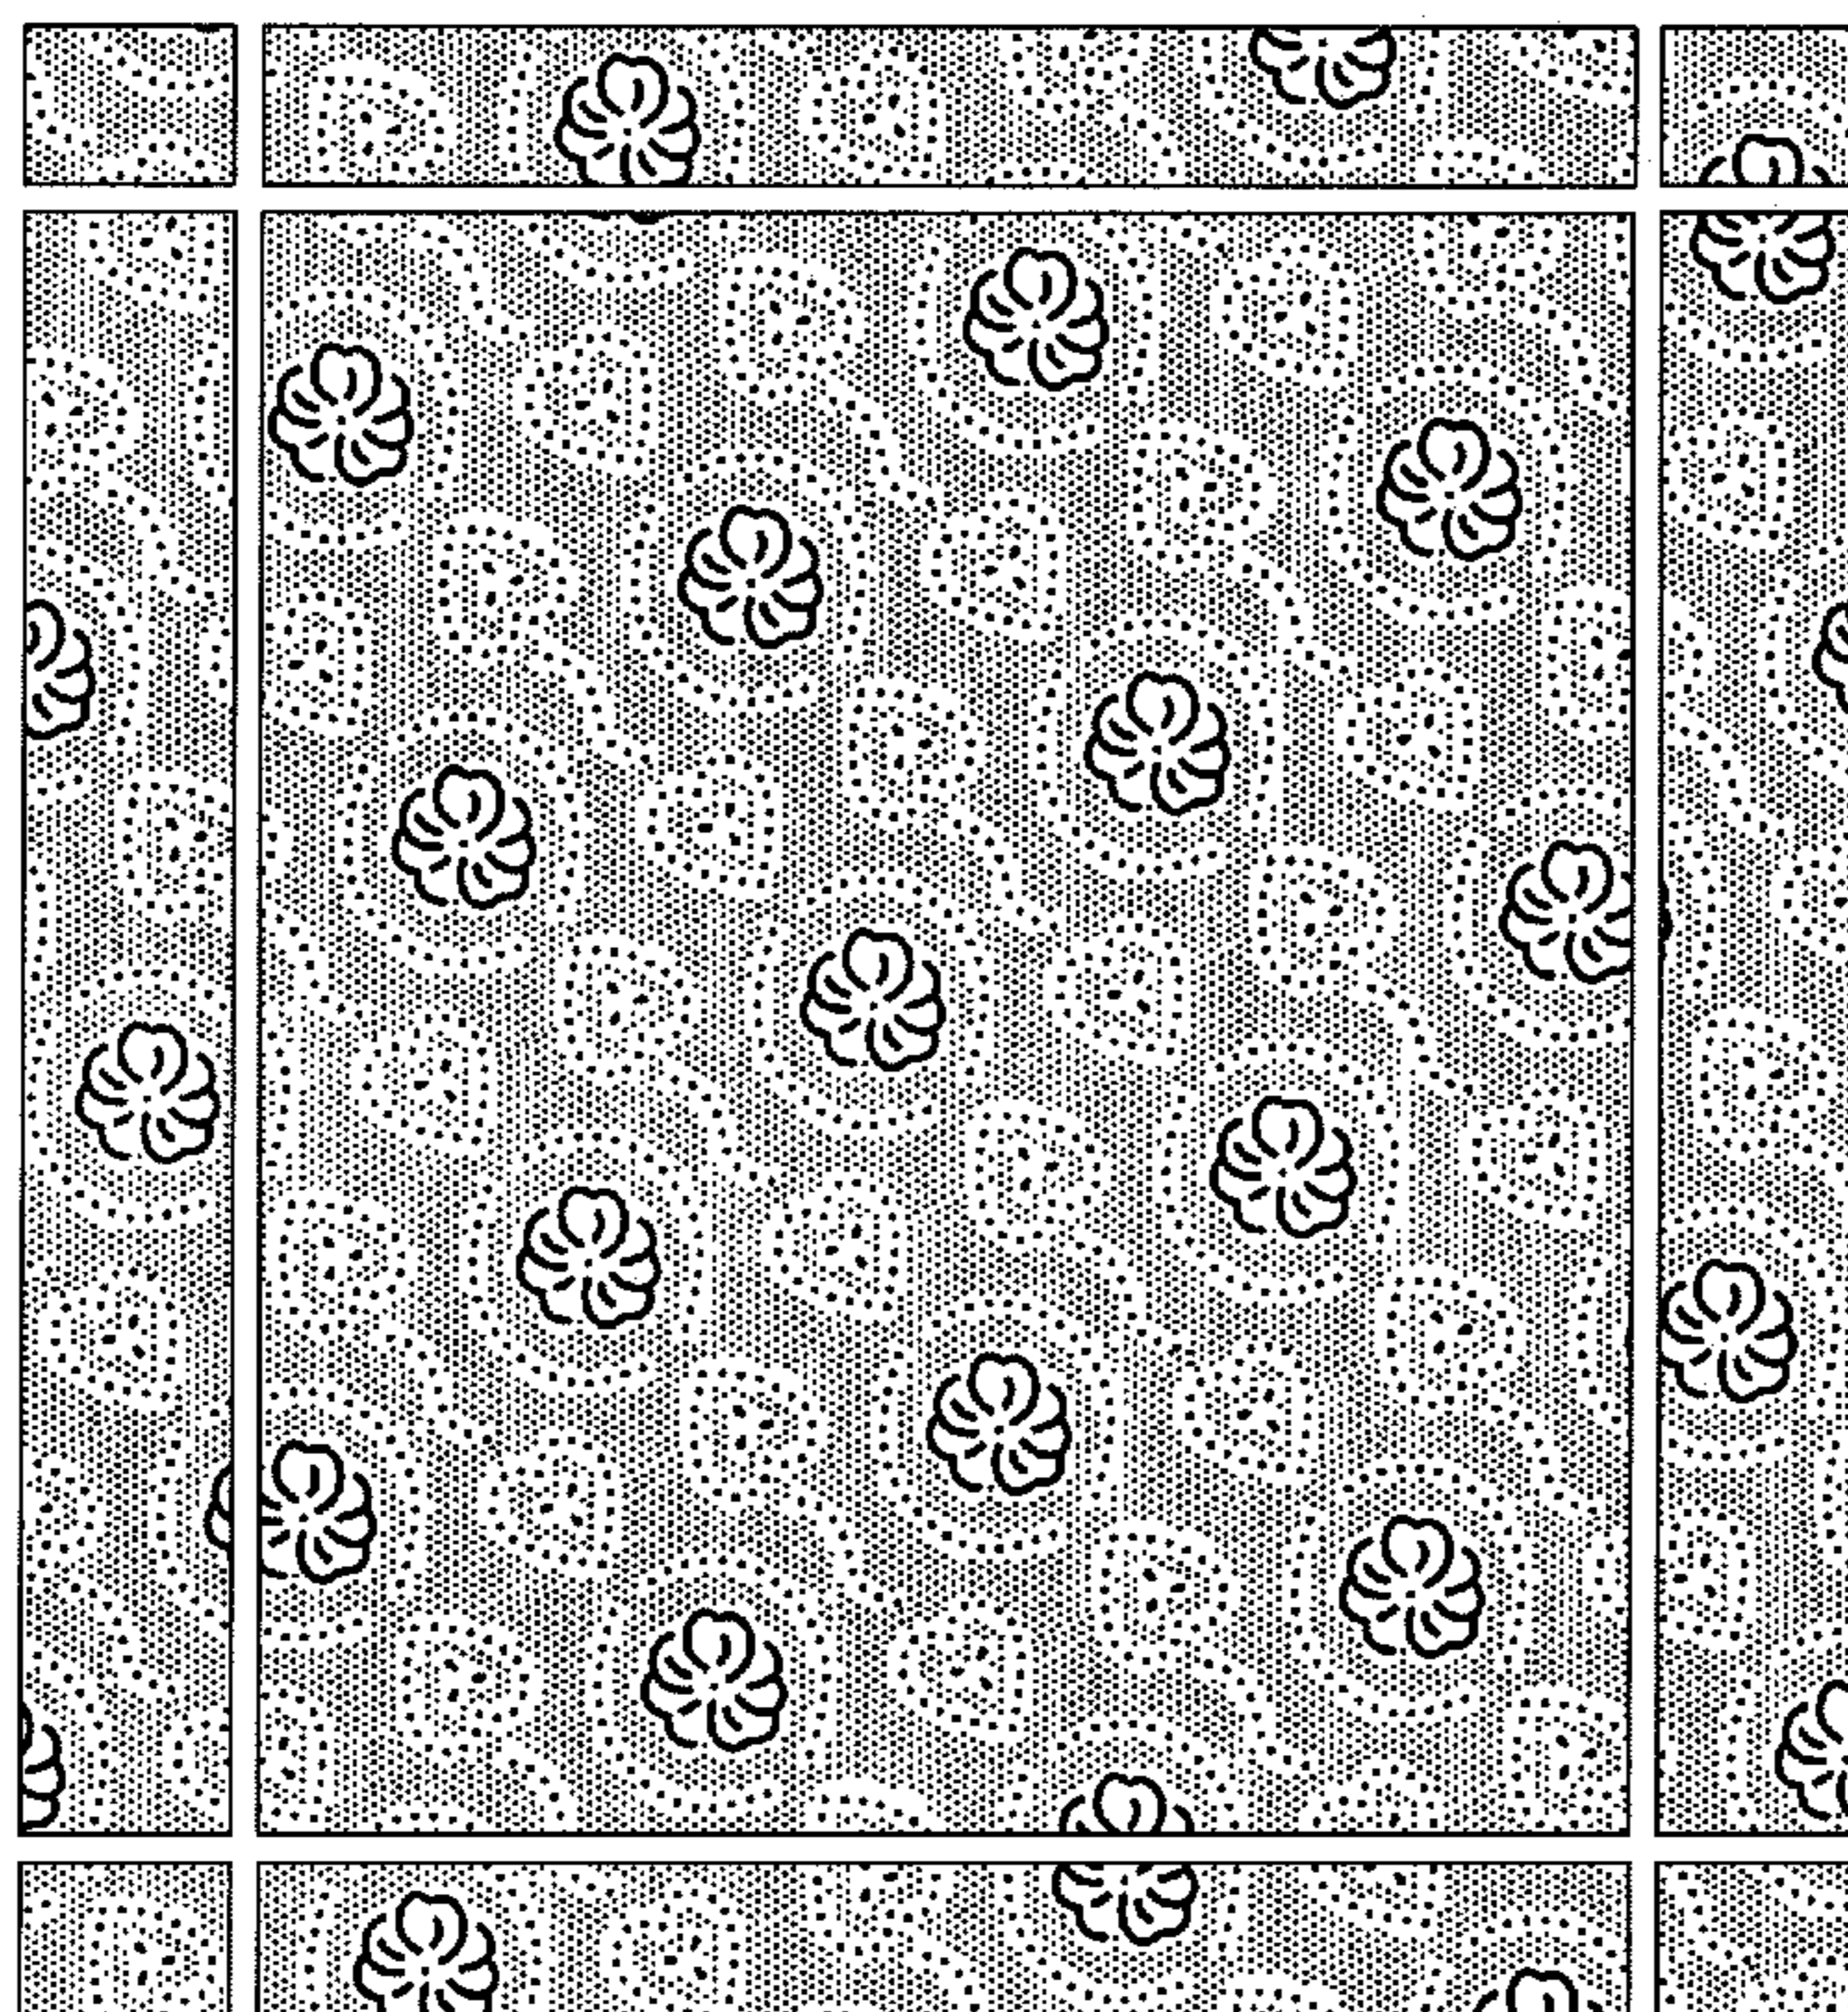

FIG. 1 is a top plan view of an absorbent material with pattern
of the present design, the bottom view being a mirror image
thereof;

FIG. 2 is a side view of the design in FIG. 1, the opposite side
view being identical thereto; and,

FIG. 3 is a front elevation view of the design in FIG. 1, the rear
elevation view being identical thereto.

The broken away portions in the top, bottom, and sides of the
figures indicate that a specific length and width of the adsorbent
material with pattern form no part of the claimed design.
The pattern repeats uniformly throughout the length and
width of the absorbent material.
