(57) **CLAIM**

The ornamental design for a connector for pump hoses, as shown and described.

DESCRIPTION

FIG. 1 is a left side perspective view of a first embodiment of a connector for pump hoses of the present invention;

FIG. 2 is a right side perspective view of the connector for pump hoses shown in FIG. 1;

FIG. 3 is a front left perspective view of the connector for pump hoses of FIG. 1 showing our new design in a different environment;

FIG. 4 is a rear left perspective view of the connector for pump hoses of FIG. 1 showing our new design in a different environment;

FIG. 5 is a front right perspective view of the connector for pump hoses of FIG. 1 showing our new design in a different environment; and,

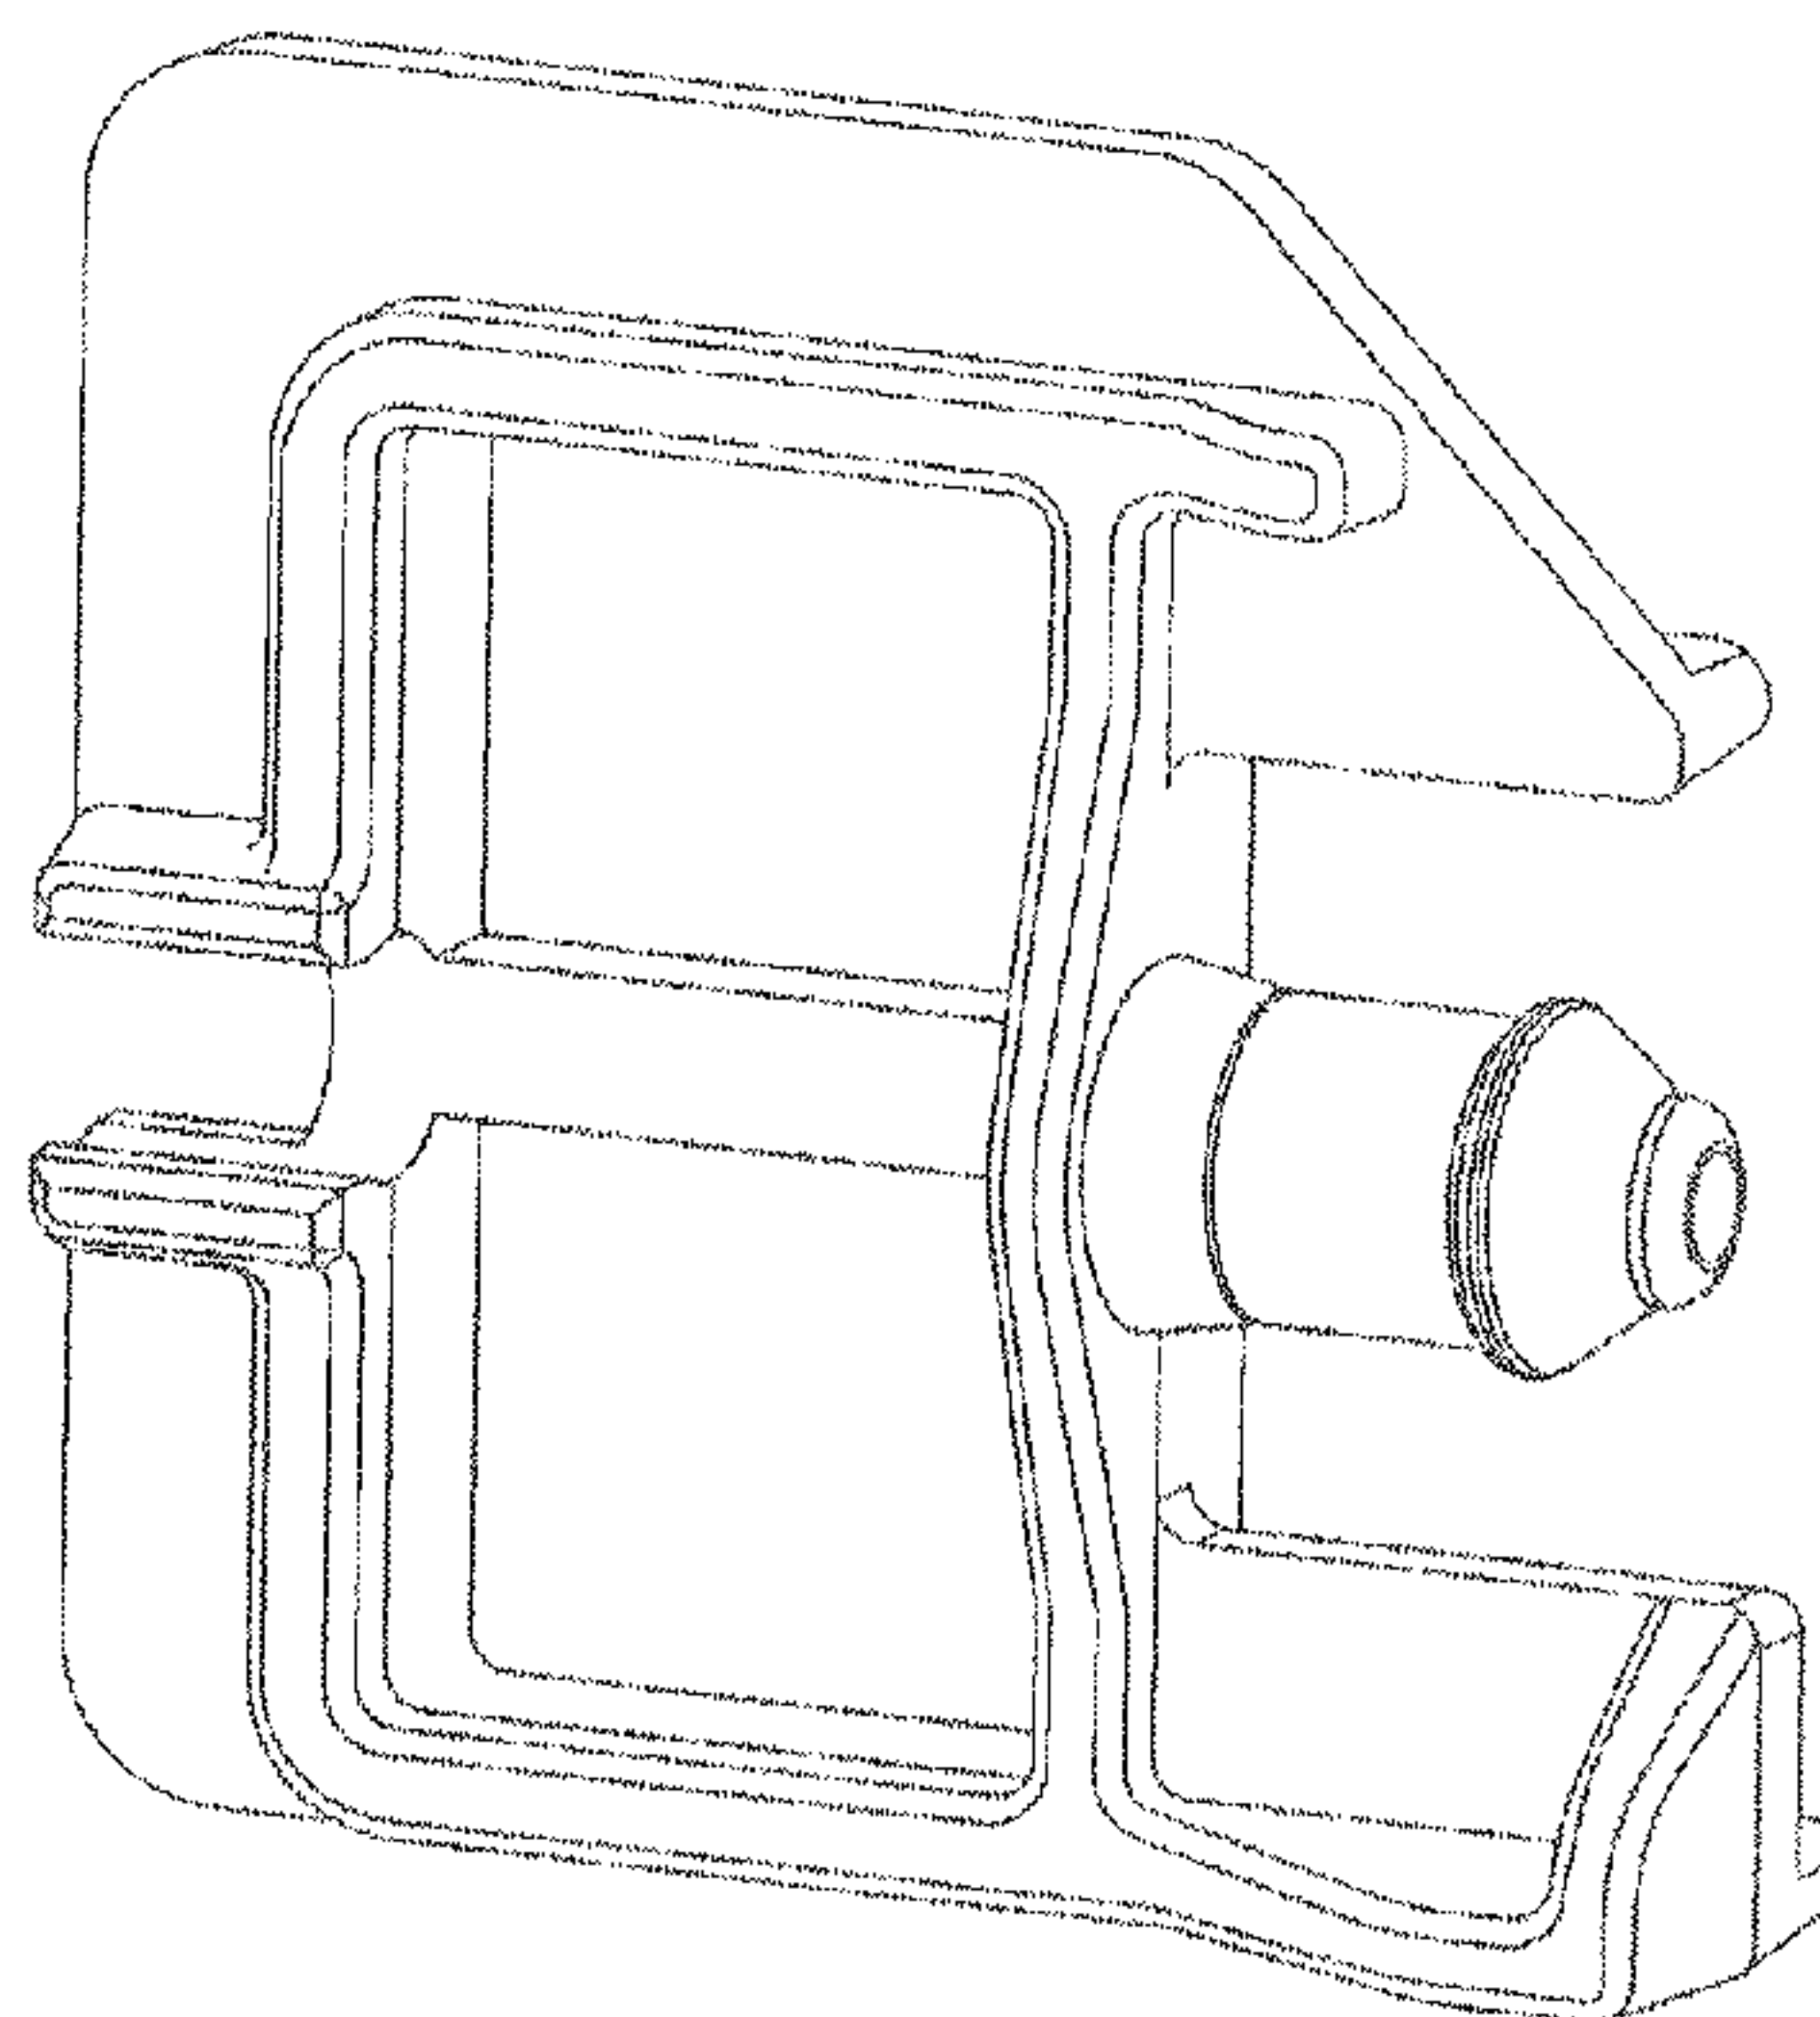

FIG. 6 is a perspective view of the connector for pump hoses of FIG. 1 arranged on a pump having a pump having pump hoses to illustrate the environment related to the claimed design.

The broken lines showing in FIGS. 3 through 6 are included for the purpose of illustrating environment and forms no part of the claimed design.

The bottom of the connector is flat and devoid of surface ornamentation.

The top inside surface of the large rectangular opening is a minor image of the bottom inside surface of the large rectangular opening.
