DESCRIPTION

FIG. 1 is an isometric view of a bicycle docking station. FIG. 2 is a front elevational view of the bicycle docking station shown in FIG. 1. FIG. 3 is a rear elevational view of the bicycle docking station shown in FIG. 1. FIG. 4 is a right side elevational view of the bicycle docking station shown in FIG. 1. FIG. 5 is, a left side elevational view of the bicycle docking station shown in FIG. 1. FIG. 6 is a top plan view of the bicycle docking station shown in FIG. 1. FIG. 7 is a bottom plan view of the bicycle docking station shown in FIG. 1. The broken lines in FIG. 7 represent unclaimed portions of the bicycle docking station. FIG. 8 is a perspective view of the bicycle docking station shown in FIG. 1, wherein the broken line showing of the bicycle being charged and/or locked in said bicycle docking station is provided for purposes of environment and forms no part of the claimed design; and, FIG. 9 is a left side elevational view of the bicycle docking station shown in FIG. 1, wherein the broken line showing of the bicycle being charged and/or locked in said bicycle docking station is provided for purposes of environment and forms no part of the claimed design.
