(57) **CLAIM**

The ornamental design for a rack assembly for dispensing product, as shown and described.

DESCRIPTION

FIG. 1 shows a front view of a rack assembly for dispensing product showing my new design; FIG. 2 shows a left-side view thereof, the view from the opposite side being essentially similar; FIG. 3 shows a rear view thereof; FIG. 4 shows a top view thereof; and, FIG. 5 shows a bottom view thereof.

The invention is of an ornamental design for a rack assembly for dispensing product, typically single-serving containers of coffee, tea and the like. The containers are placed in inclined racks and as one is removed, those behind slide forward for user convenience. The rack assembly of the invention is manufactured in modular fashion and is shown in a “six-high, four-wide” configuration.
