(57) **CLAIM**

The ornamental design for an antenna, as shown and described.

DESCRIPTION

FIGURE is a front elevational view of an antenna showing our new design.

The design for an antenna is so thin that it is barely discernable in top, bottom, and side views. All elements of the design are flat and coplanar with each other.

The broken line portion of the FIGURE is included to show unclaimed subject matter only and forms no part of the claimed design. The contiguous shaded area is the only area that is claimed.
