(57) **CLAIM**

The ornamental design for a threaded container clip ring, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a threaded container clip ring showing my new design;

FIG. 2 is a front plan view; the rear plan view being a mirror image thereof;

FIG. 3 is a top plan view;

FIG. 4 is a right side plan view; the left side plan view being a mirror image thereof;

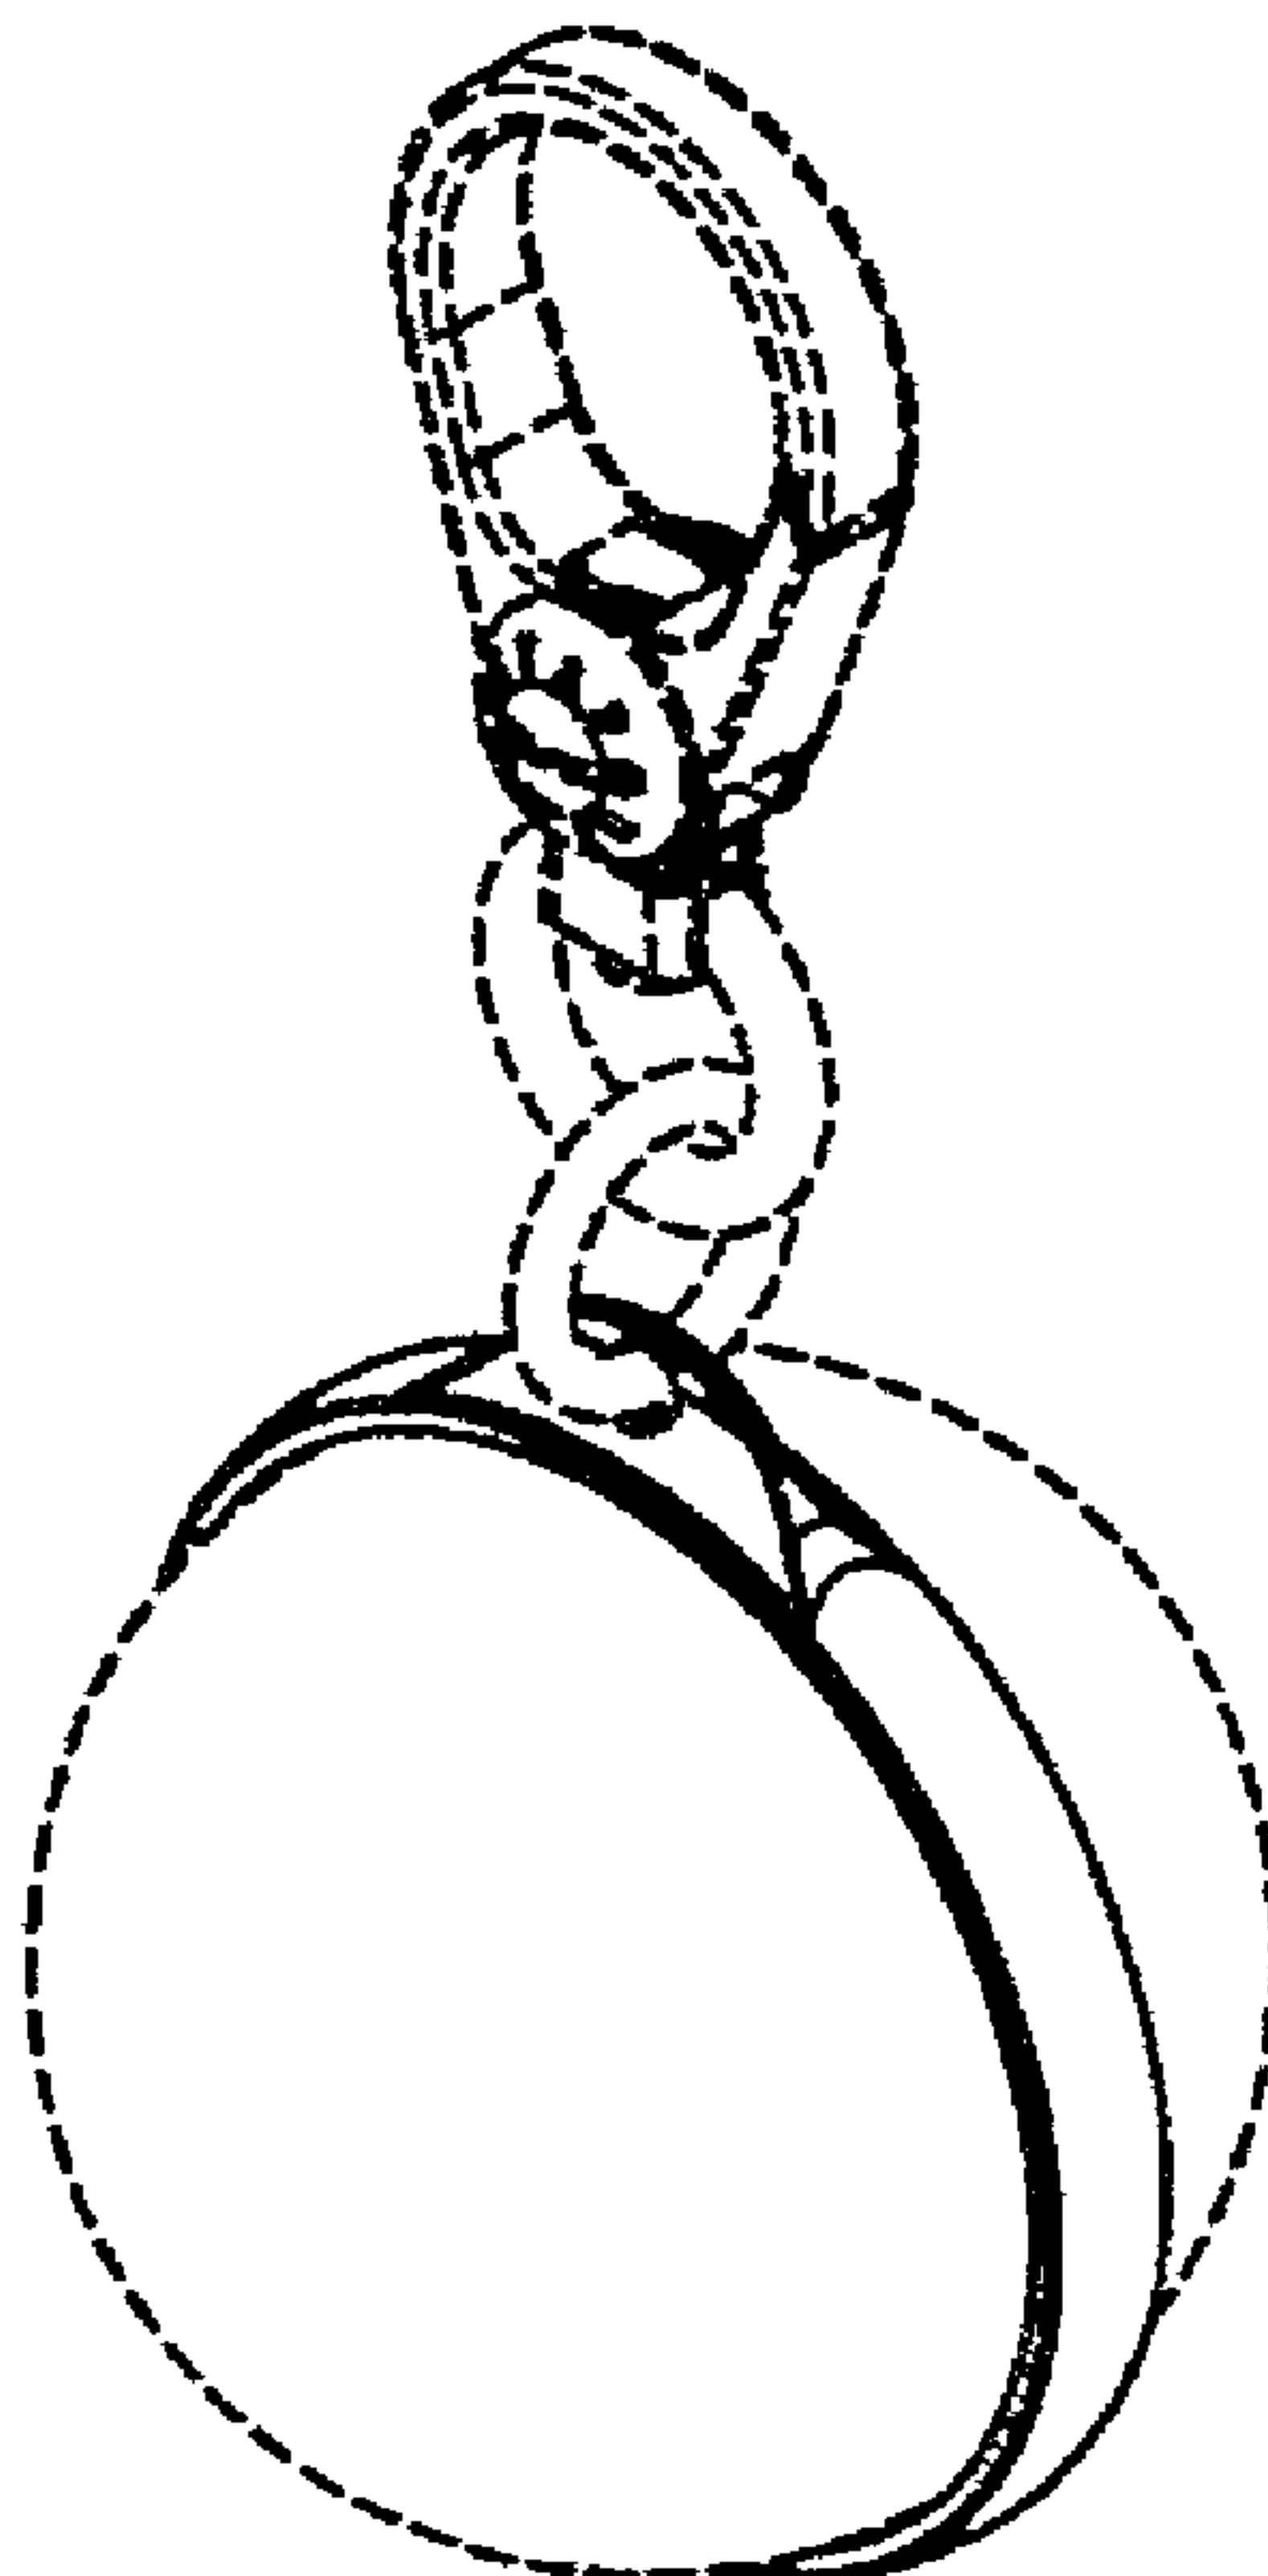

FIG. 5 is a side a bottom plan view; and,

FIG. 6 is a perspective view in a position of use with a spherical threaded container.

The broken line showing of a threaded container and clip is included for the purpose of illustrating environmental matter and forms no part of the claimed design.

The characteristic feature of the design resides in providing an ornate clip ring for insertion between the cap and receptacle of a threaded container.
