(57) **CLAIM**

We claim the ornamental design for a toothbrush feature, as  
shown and described.

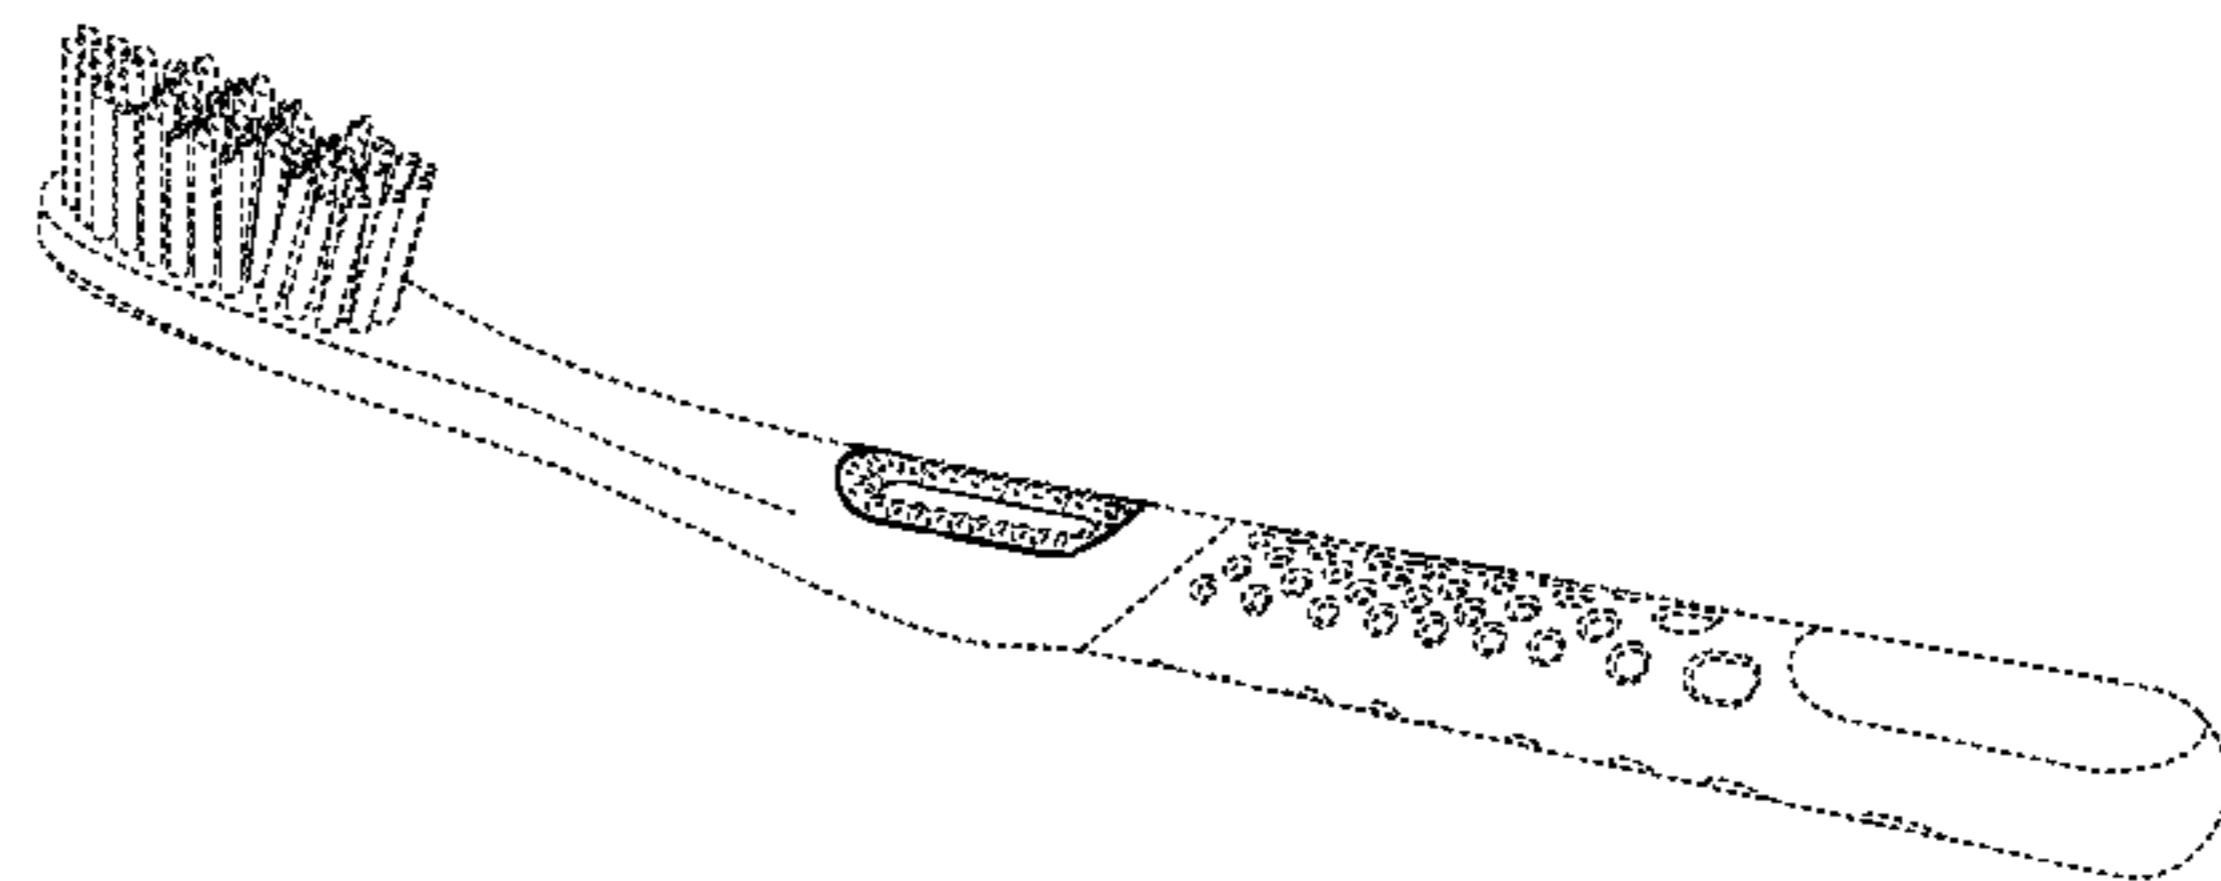

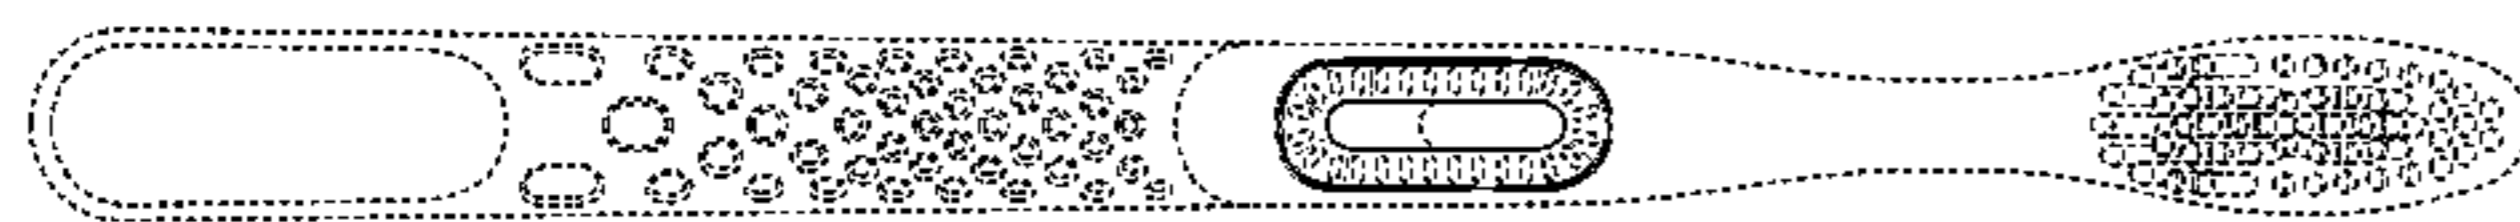

**DESCRIPTION**

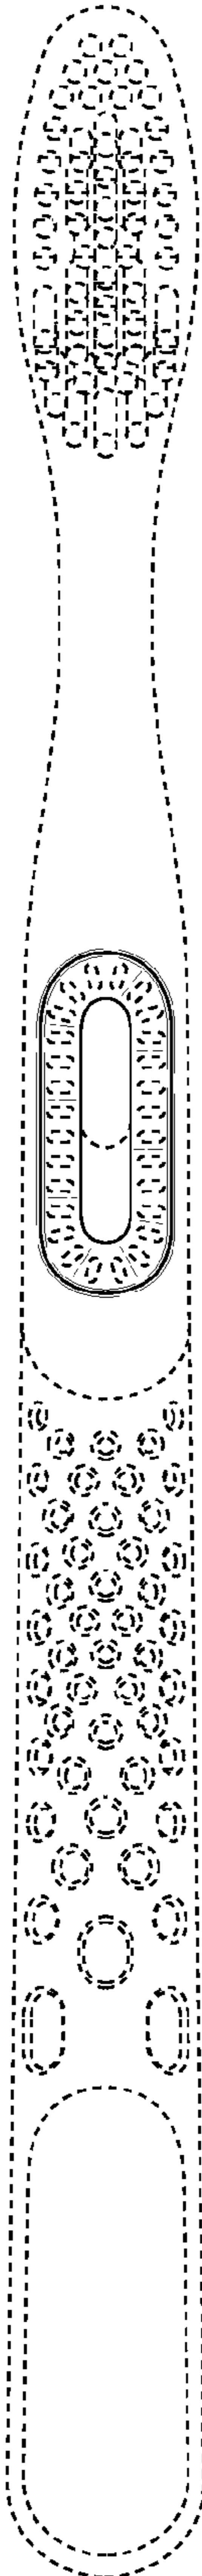

FIG. 1 is an elevational view of a toothbrush feature showing  
our new design; and,

FIG. 2 is a bottom, front, left side perspective view thereof.

The claim is bound by the inner, continuous, solid edge and  
the surface shading immediately surrounding the outer con-  
tinuous edge. The broken lines shown on the continuous  
surface represent boundaries while the broken lines showing  
the remainder of the toothbrush illustrate the environment in  
which the design resides. None of the broken lines form part  
of the claimed design.
