(57) **CLAIM**

The ornamental design for a wireless screen in leather, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of the back of a wireless screen in leather that has the design, the screen being positioned in this view with one of the long sides on the bottom and with a removable arm extending rearwardly so that the screen can rest on a horizontal surface.

FIG. 2 is a perspective view of the front of the wireless screen, in the position seen in FIG. 1.

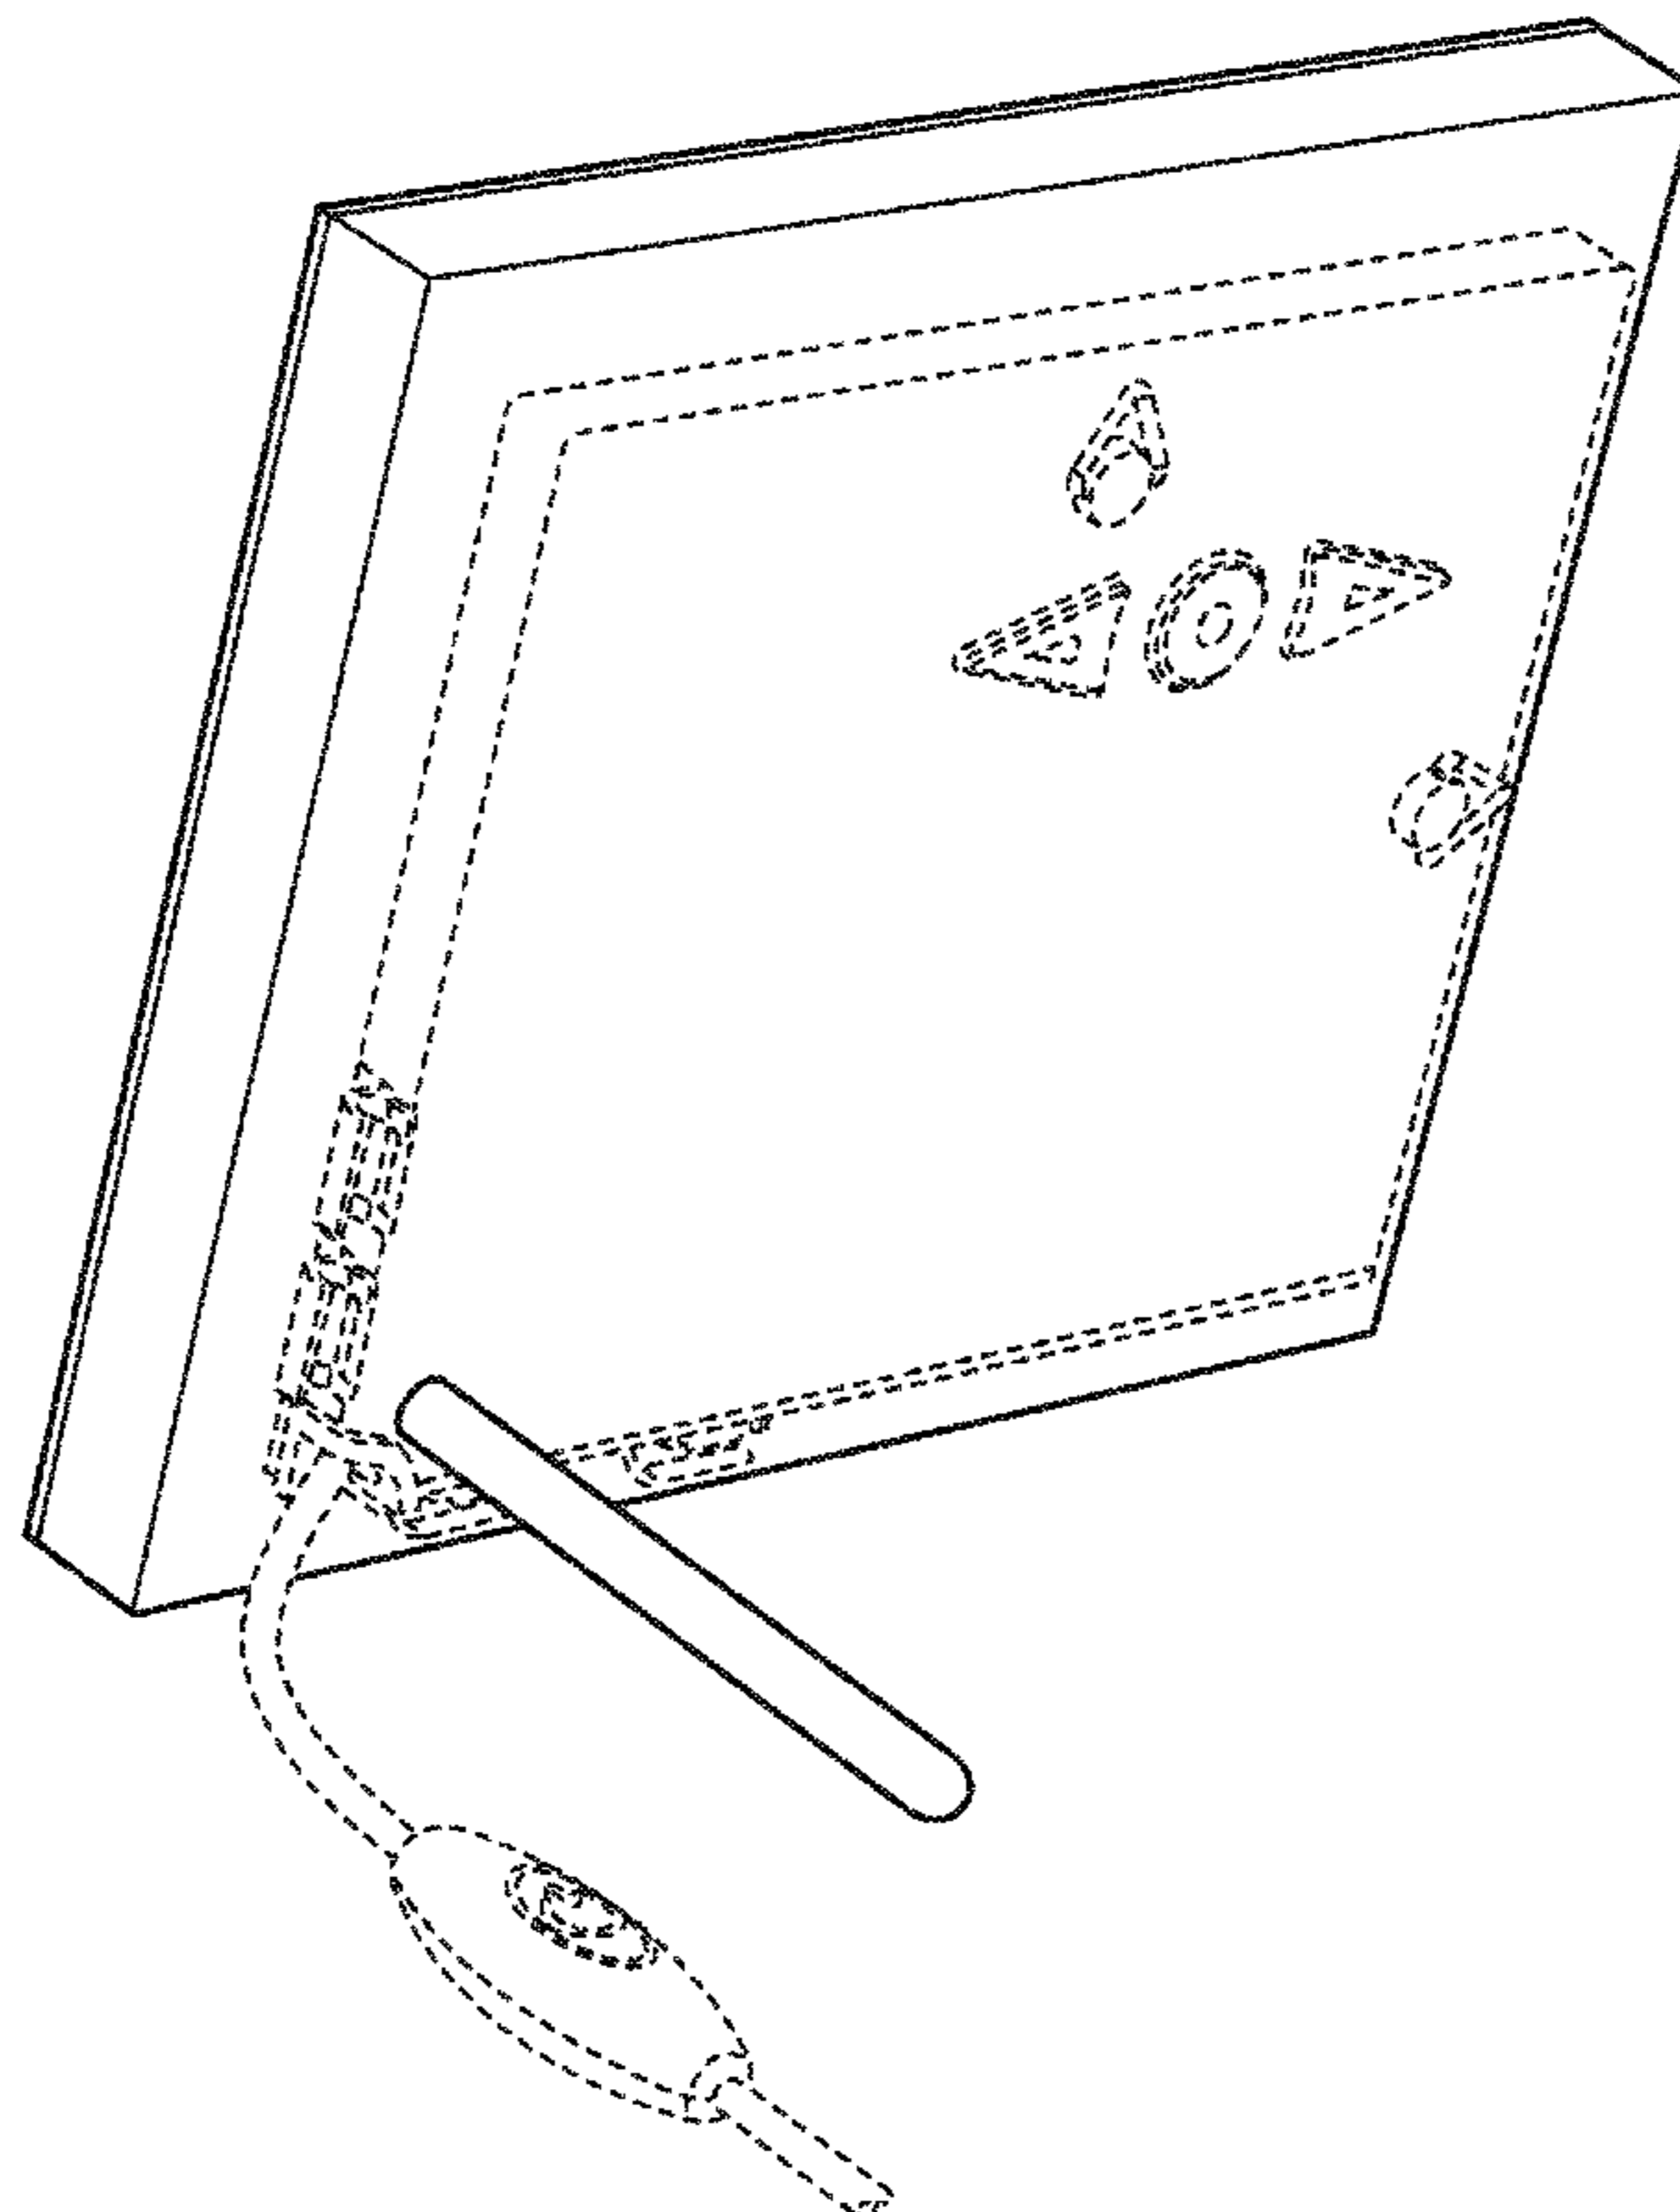

FIG. 3 is a side elevation view of the wireless screen seen in a different position, in which the optional arm has been removed, the screen has been rotated 90 degrees from the position seen in FIG. 1.

FIG. 4 is a top elevation view of the wireless screen as seen in FIG. 3; and,

FIG. 5 is a front view of the wireless screen as seen in FIGS. 3 and 4.

The broken line showing of parts of the wireless screen is for the purpose of illustrating portions of the wireless screen, and forms no part of the claimed design.
