(57) **CLAIM**

The ornamental design for a lighting device, as shown and described.

DESCRIPTION

FIG. 1 is a first perspective view of the lighting device in accordance with our new design;

FIG. 2 is a second perspective view thereof;

FIG. 3 is a front view thereof;

FIG. 4 is a right side view thereof;

FIG. 5 is a back view thereof;

FIG. 6 is a left view thereof;

FIG. 7 is a top view thereof;

FIG. 8 is a bottom view thereof;

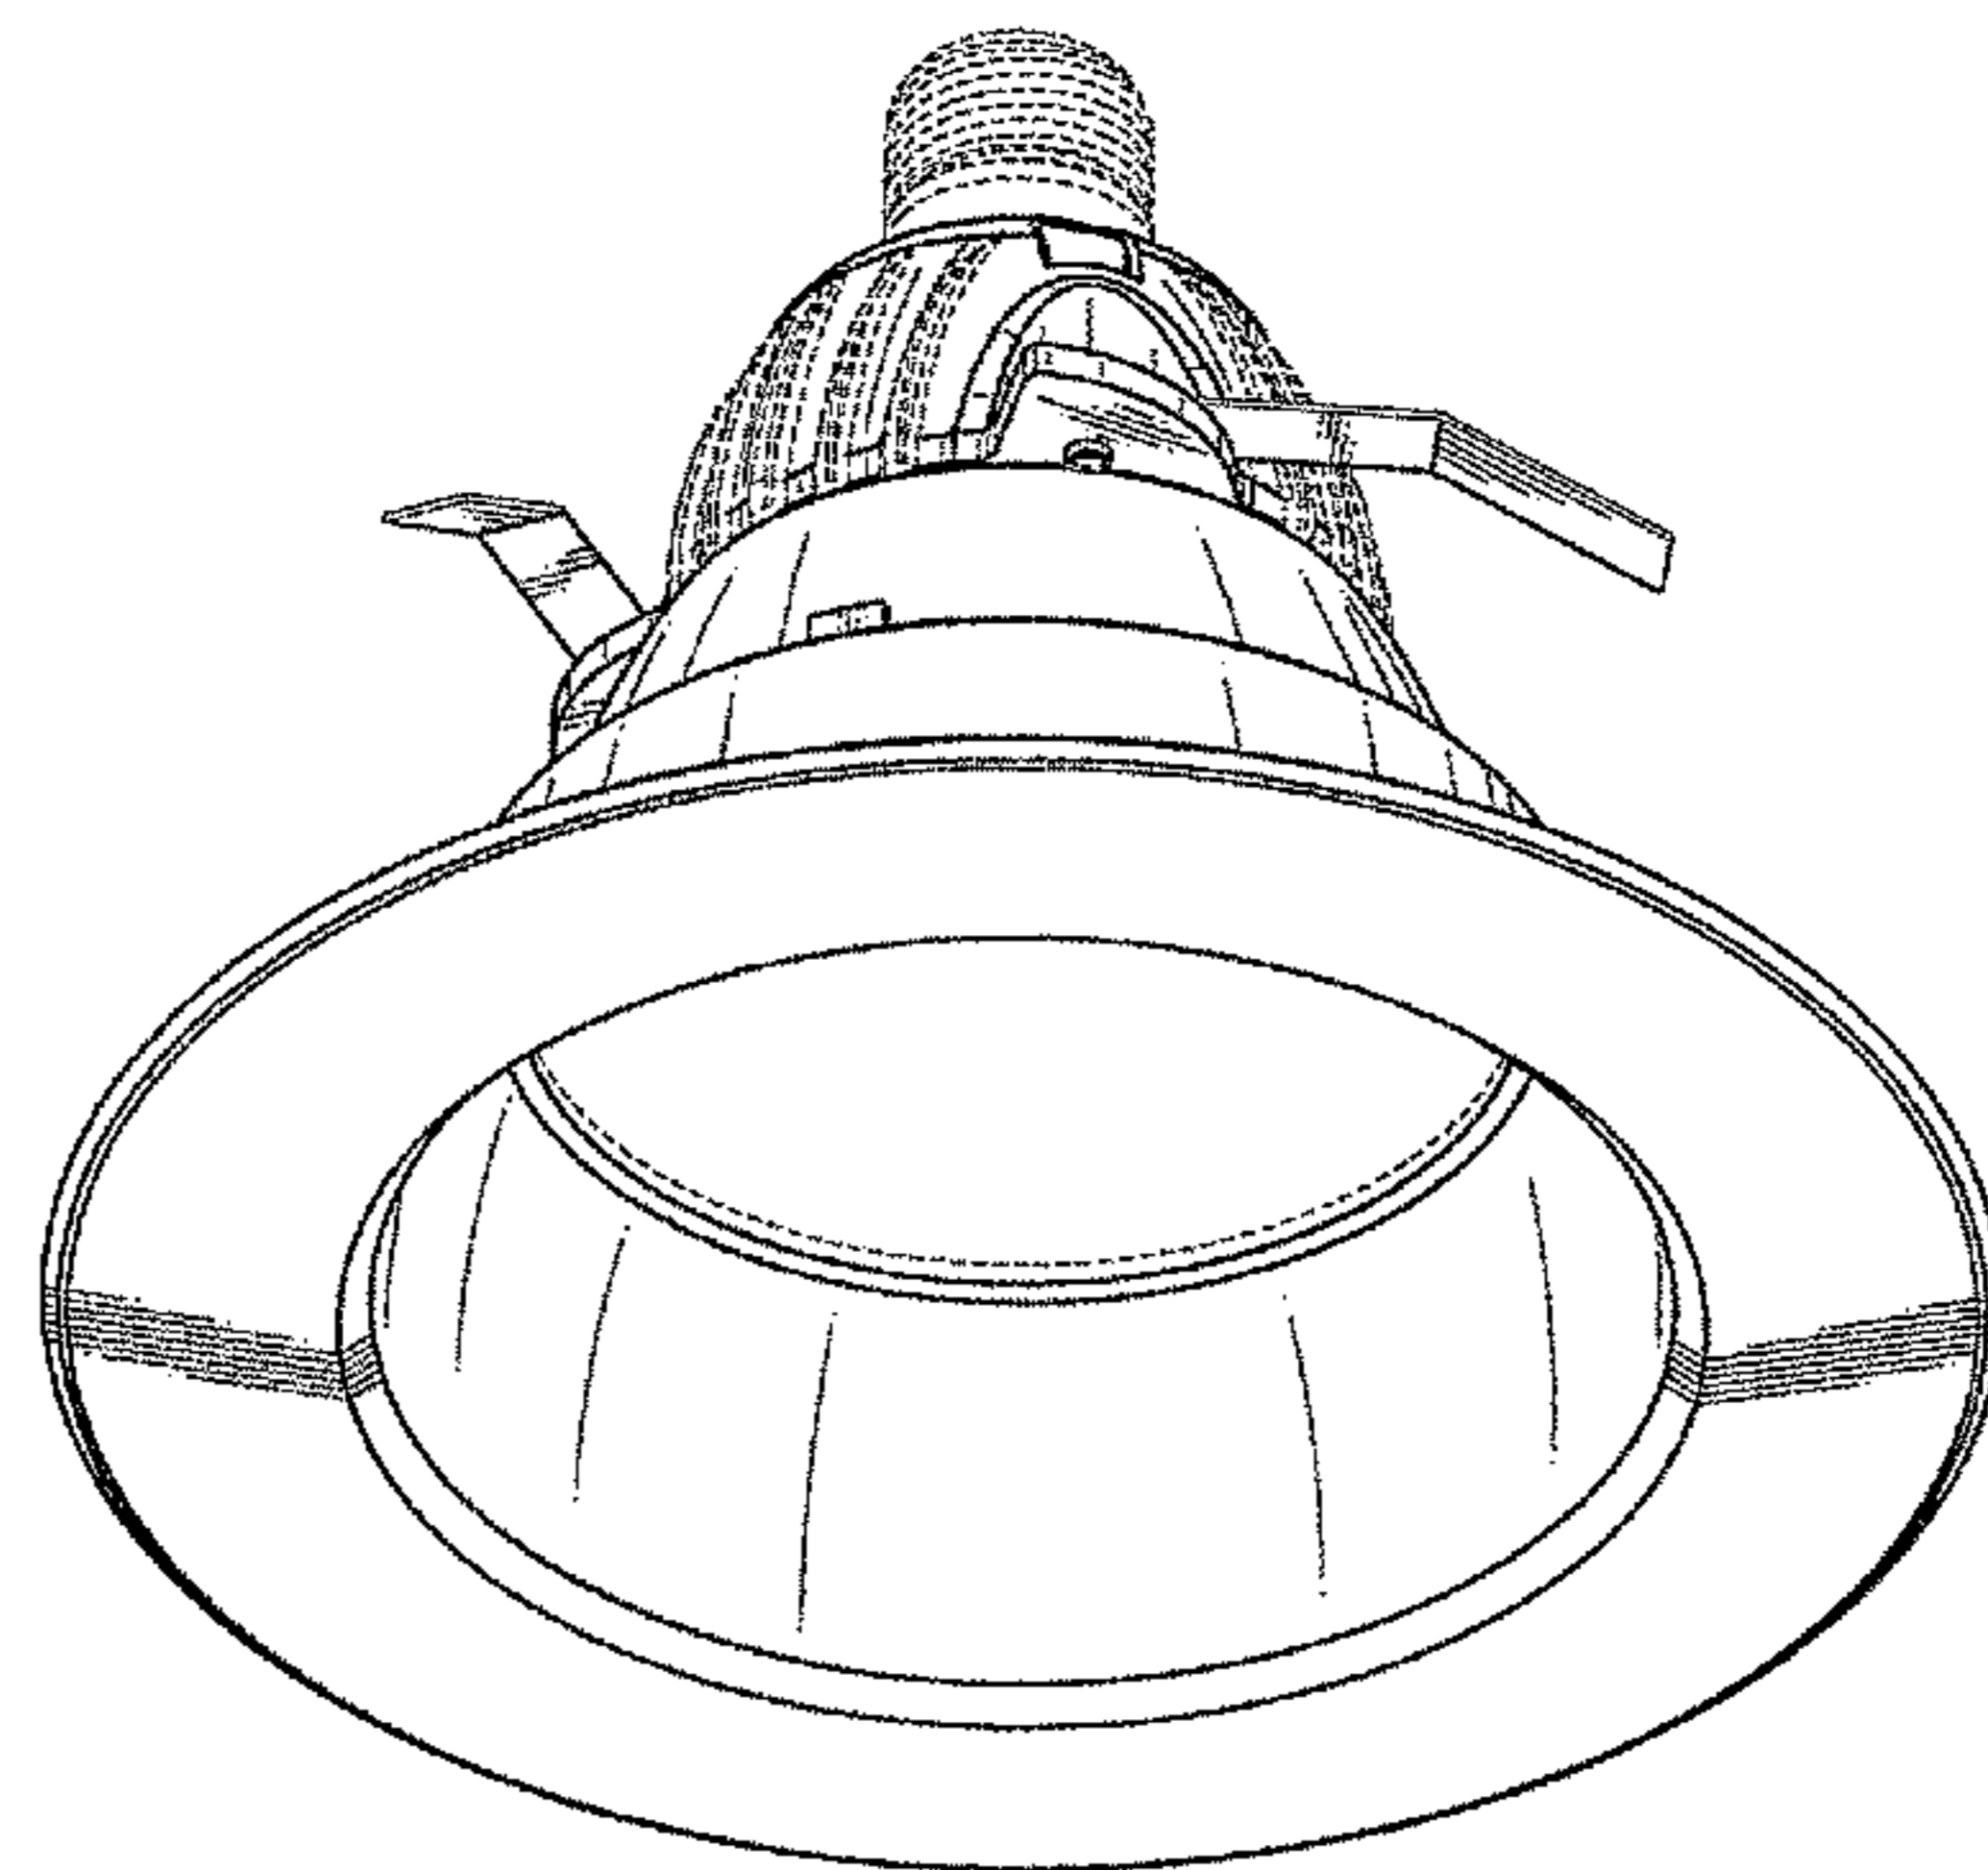

FIG. 9 is a perspective view of a second embodiment of a lighting device in accordance with our new design as shown in FIGS. 1-8, but with a GU 24 connector (shown in broken lines) instead of an Edison connector (shown in broken lines in FIGS. 1-7); and

FIG. 10 is a perspective view of the lighting device depicted in FIGS. 1-8, with the three clips shown in an alternative orientation; and,

FIG. 11 is a perspective view of the lighting device depicted in FIG. 9, with the three clips shown in an alternative orientation.

The portions of the drawings shown in broken lines represent environmental structure and form no part of the claimed design.
