(57) **CLAIM**

The ornamental design for a flexible multi-positionable rod support for light fixture, as shown and described.

DESCRIPTION

FIG. 1 is a lower right front perspective view of my flexible multi-positionable rod support for light fixture;
FIG. 2 is a front elevational view thereof;
FIG. 3 is a right side elevational view thereof;
FIG. 4 is a top plan view thereof;
FIG. 5 is a rear elevational view thereof;
FIG. 6 is a left side elevational view thereof;
FIG. 7 is a bottom plan view thereof;
FIG. 8 is a left front perspective view of my flexible multi-positionable rod support for light fixture shown in a position of use; and,
FIG. 9 is an upper left front perspective view of my flexible multi-positionable rod support for light fixture shown in another position of use.

The broken lines shown in the drawings illustrate a reflector and form no part of the claimed design.

The characteristic feature of the design resides in the capability of the multi-flexible rod support to attain many shapes when in use installed on a light source.
