(57) **CLAIM**

The ornamental design for a light fixture, as shown and described.

DESCRIPTION

This application is related to commonly assigned, concurrently filed U.S. applications Ser. No. 29/353,603, Ser. No. 29/353,605 and Ser. No. 29/353,606.

FIG. 1 is an isometric view of a first embodiment of the light fixture of the present invention;

FIG. 2 is a front elevation view thereof;

FIG. 3 is a rear elevation view thereof;

FIG. 4 is a right side elevation view thereof;

FIG. 5 is a left side elevation view thereof;

FIG. 6 is a top plan view thereof;

FIG. 7 is a bottom plan view thereof;

FIG. 8 is an isometric view of a second embodiment that differs in configuration from Embodiment 1 due to the different sized crystal-like elements on the bottom of the light fixture, and in size from the first embodiment by having additional crystal-like elements horizontally around the light fixture and on the bottom portion, and less crystal-like elements vertically;

FIG. 9 is an isometric view of a third embodiment that differs in configuration from Embodiment 1 due to the different sized crystal-like elements on the bottom of the light fixture, and in size from the first embodiment by having additional crystal-like elements horizontally around the light fixture and on the bottom portion thereof; and,

FIG. 10 is an enlarged partial view of the crystal-like features shown in Embodiments 1, 2 and 3, taken from FIG. 1.

The surface of the facets are included in the claim design but the edges where the facets change planes are shown in broken line because they form no part of the claimed invention. All broken lines shown in the drawings are for environmental purposes only and forms no part of the claimed design. The arrangement and juxtaposition of the crystal-like elements relative to one another is part of the claimed design.

1 Claim, 10 Drawing Sheets
