(57) **CLAIM**

The ornamental design for a rotary atomizer component, as shown and described.

DESCRIPTION

FIG. 1 is an upper perspective view of a rotary atomizer component of our new design;

FIG. 2 is another upper perspective view of a rotary atomizer component of our new design;

FIG. 3 is a side view of a rotary atomizer component of our new design;

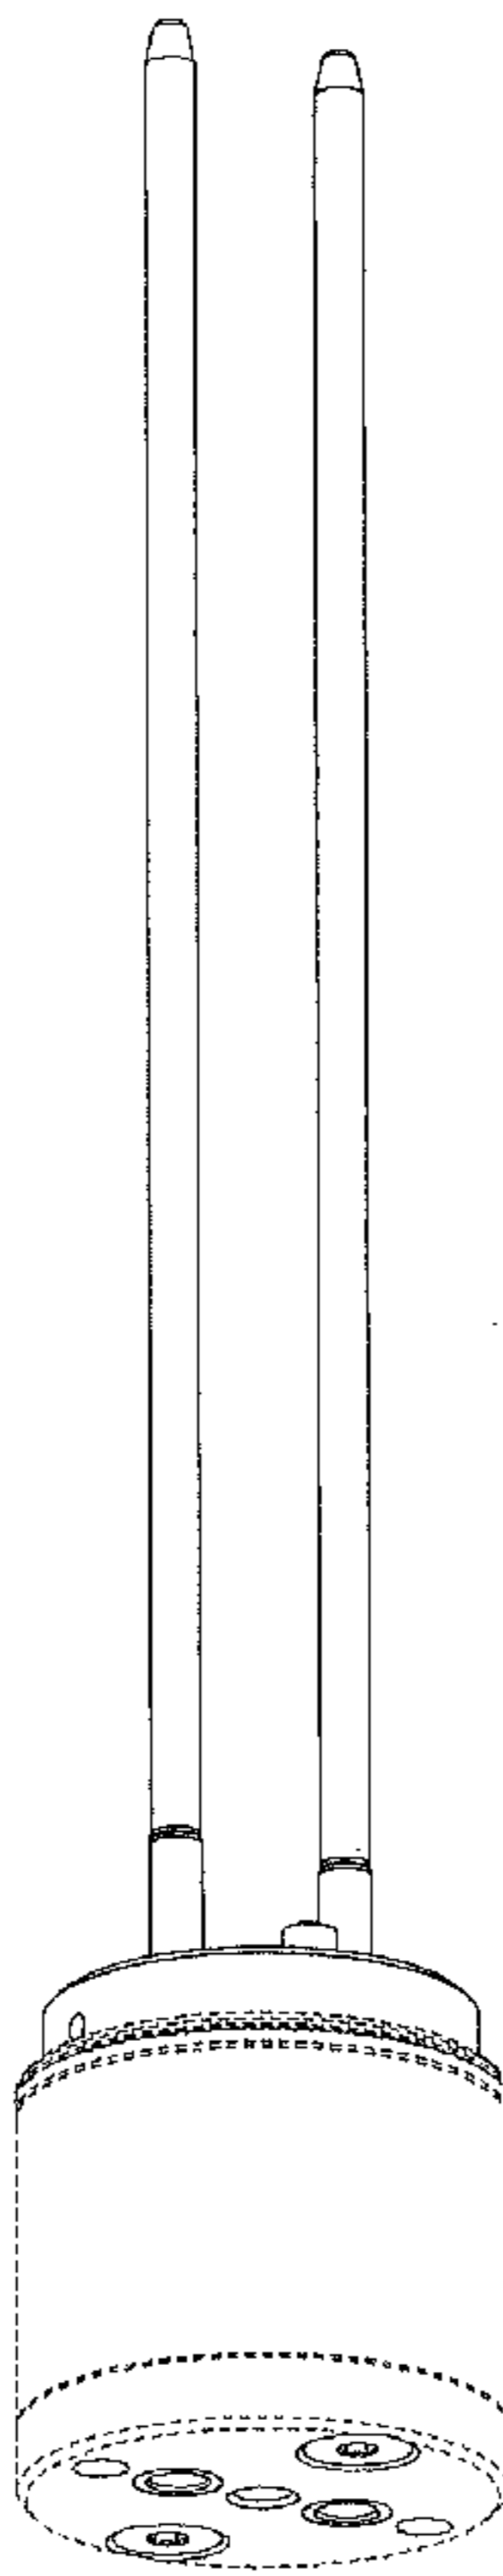

FIG. 4 is a top view of a rotary atomizer component of our new design;

FIG. 5 is a front view of a rotary atomizer component of our new design; and,

FIG. 6 is a rear view of a rotary atomizer component of our new design.

The broken lines in the FIGS. are directed to environment and are for illustrative purposes only. The broken lines form no part of the claimed design.
