(57) **CLAIM**

The ornamental design for warning light, as shown and
described.

DESCRIPTION

FIG. 1 is a top perspective of a first embodiment for a warning
light in accord with the present disclosure;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a rear elevational view thereof;

FIG. 4 is a first side elevational view; a second, opposite, side
view being substantially a mirror image thereof;

FIG. 5 is a top plan view thereof;

FIG. 6 is a bottom plan view thereof;

FIG. 7 is a top perspective of a second embodiment for a
warning light in accord with the present disclosure;

FIG. 8 is a front elevational view thereof;

FIG. 9 is a rear elevational view thereof;

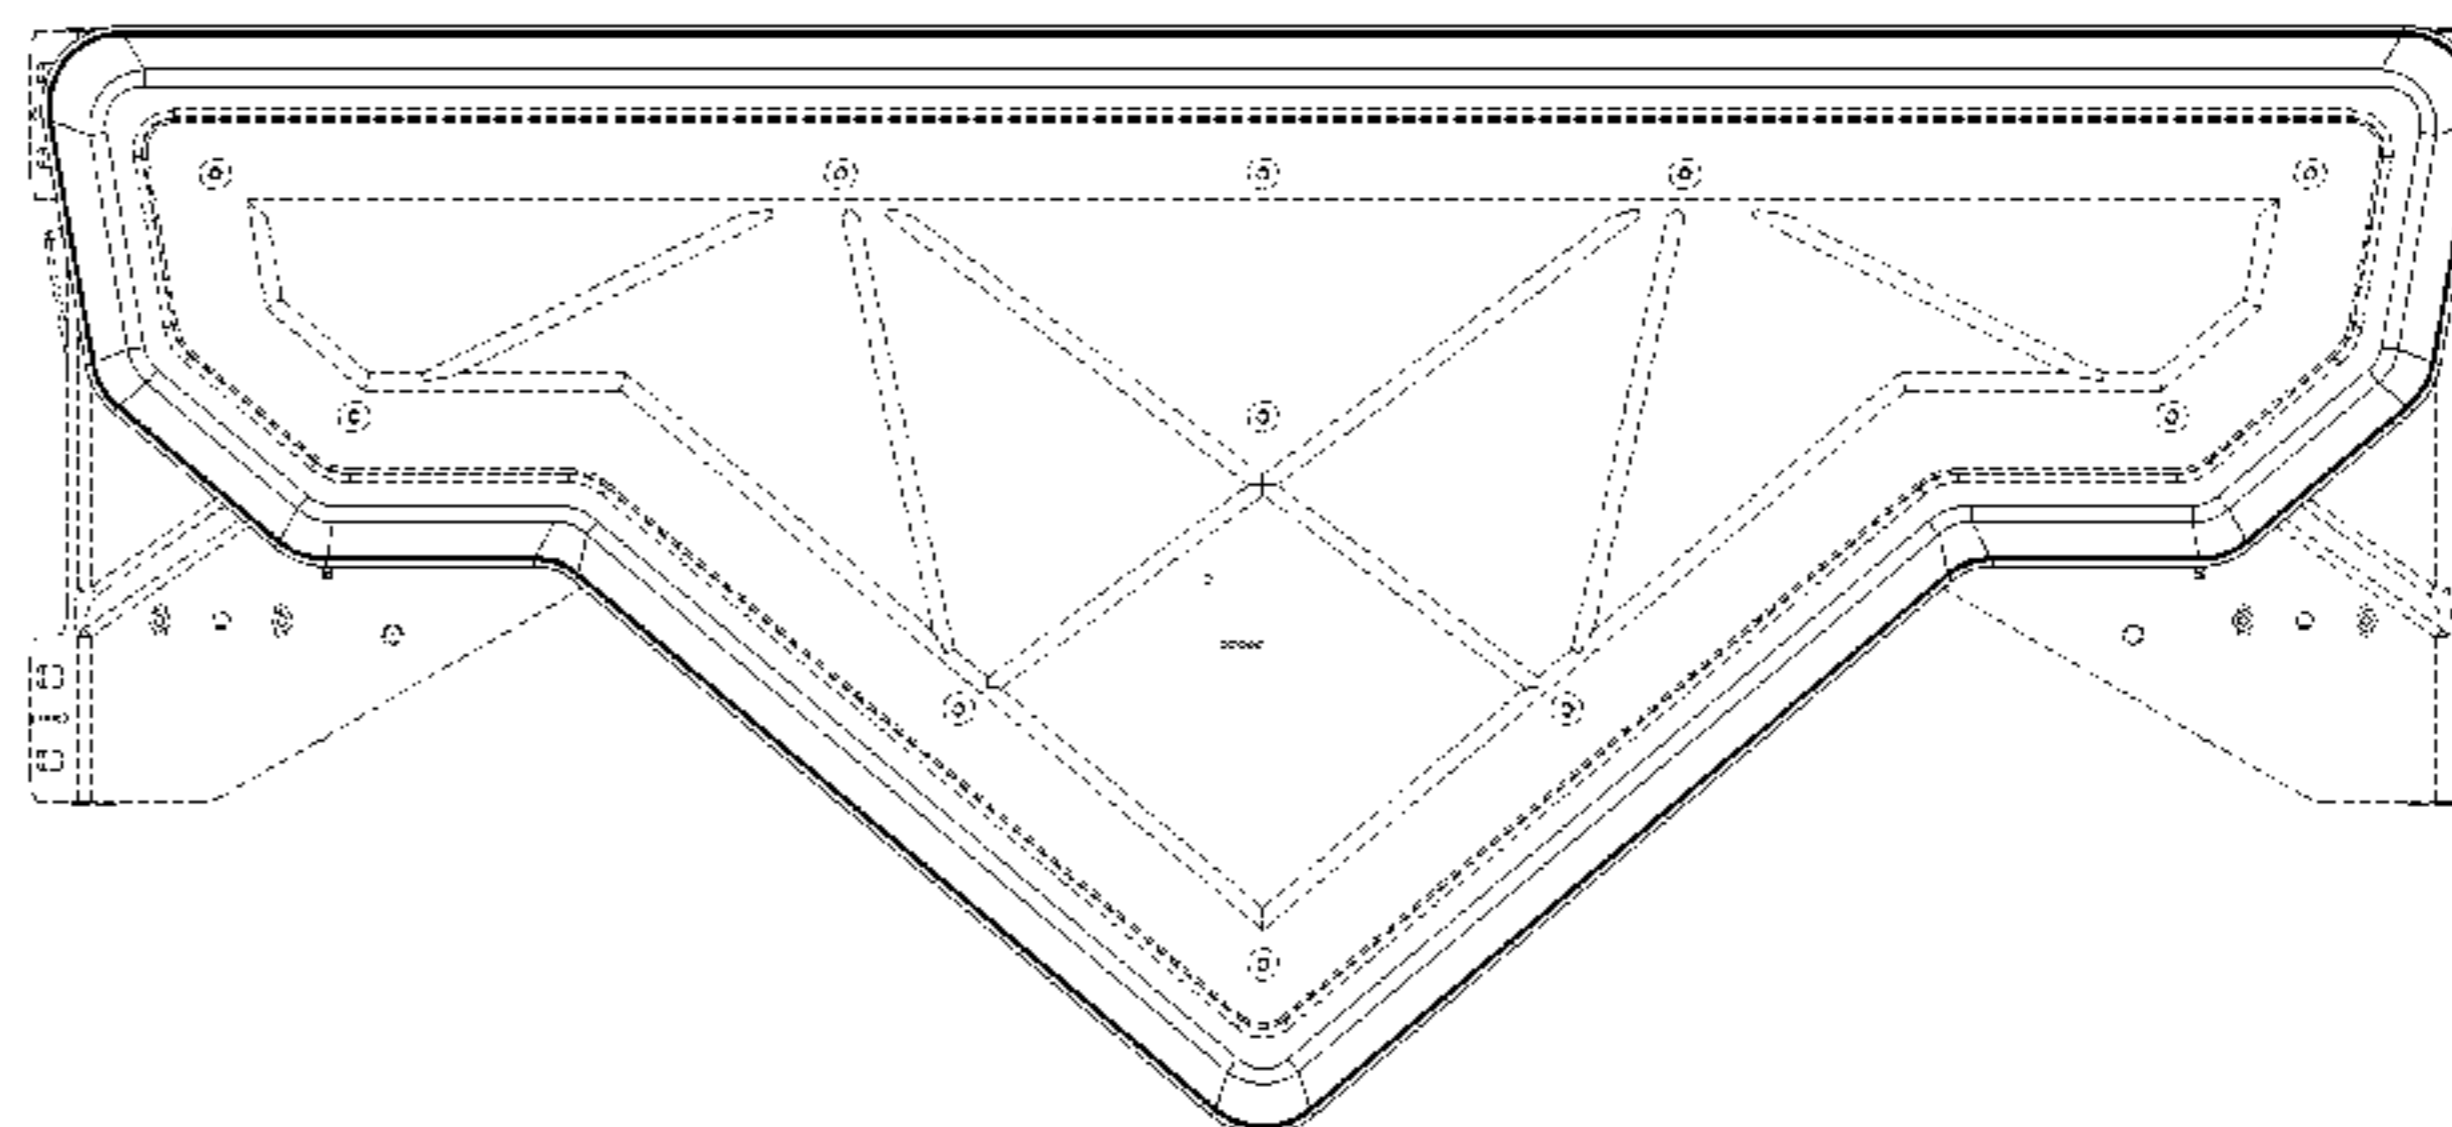

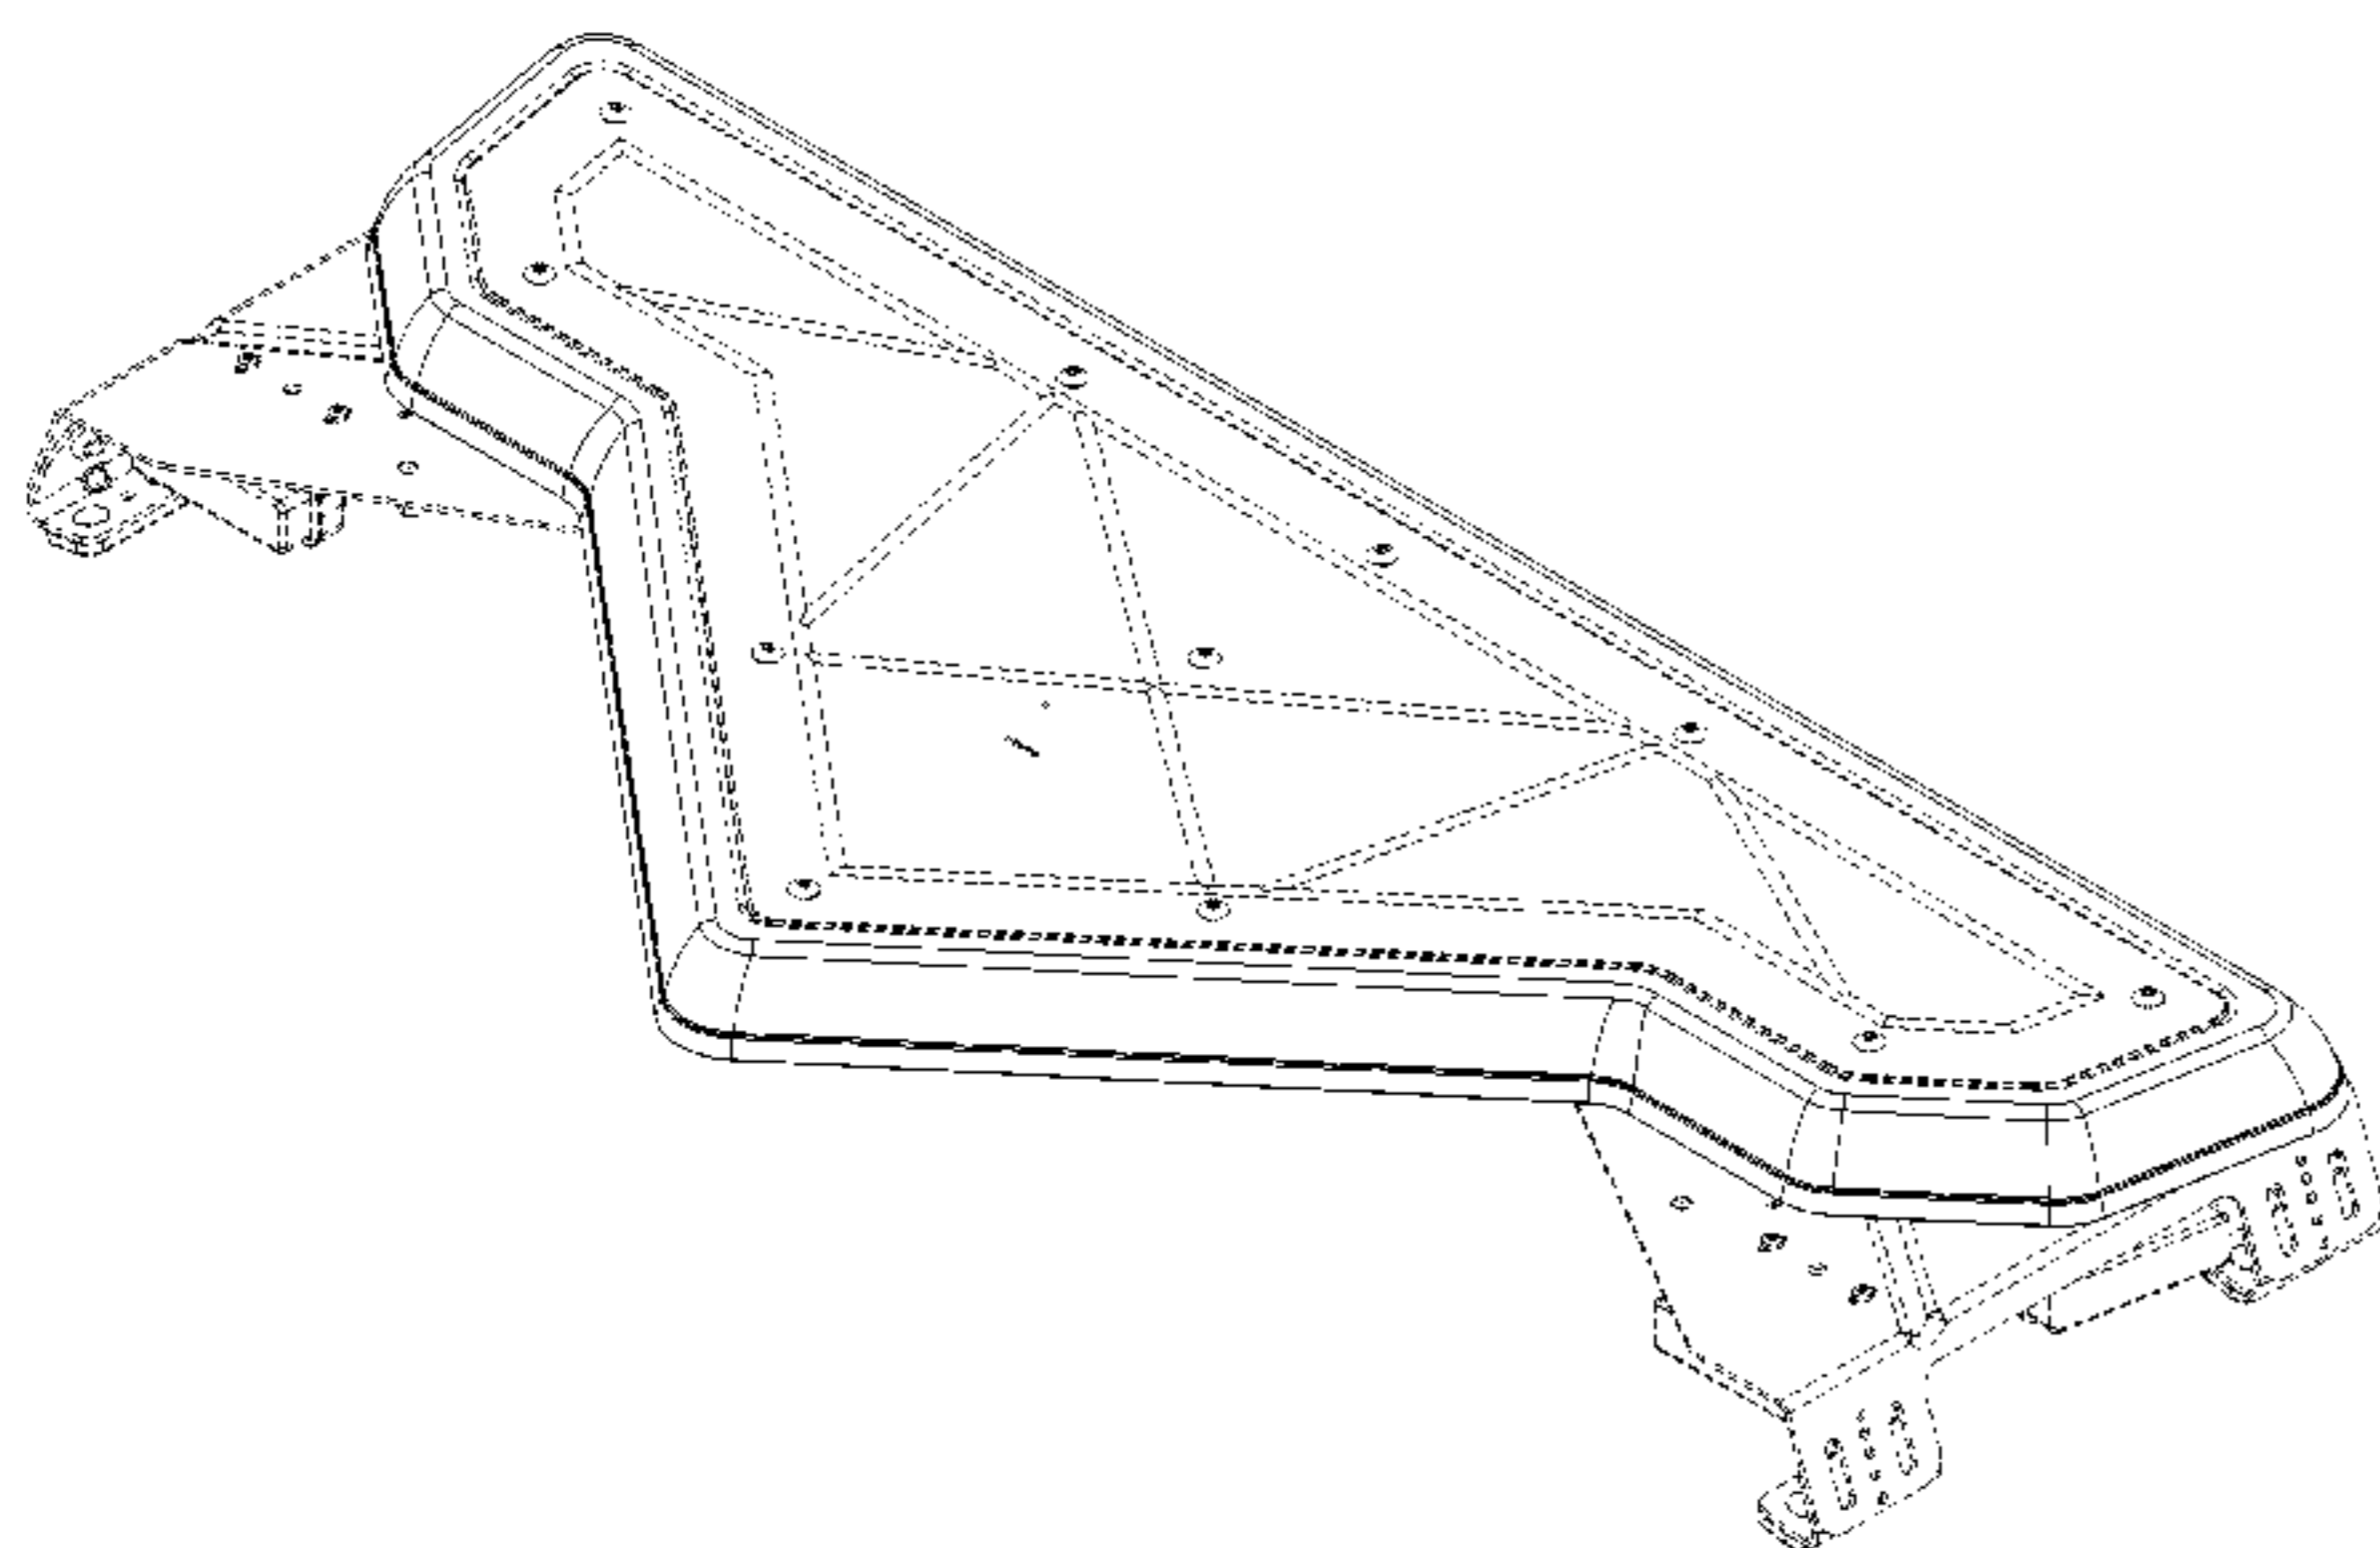

FIG. 10 is a side elevational view thereof; a second, opposite,
side view being substantially a mirror image thereof;

FIG. 11 is a top plan view thereof; and,

FIG. 12 is a bottom plan view thereof.

In the drawings, the broken line showing of portions of the
warning light lens and mounting hardware in the figures
depicts environmental subject matter and forms no part of the
claim.
