(57) **CLAIM**

The ornamental design for a repeating element of a lighting fixture, as shown and described.

**DESCRIPTION**

FIG. 1 is a bottom perspective view of a repeating element of a lighting fixture showing my new design;

FIG. 2 is a bottom plan view thereof;  
FIG. 3 is a side elevational view thereof as seen along lines 3—3 in FIG. 2; the other side being a mirror image;  
FIG. 4 is an enlarged end elevational view thereof as seen along lines 4—4 in FIG. 3;  
FIG. 5 is an enlarged end elevational view thereof as seen along lines 5—5 in FIG. 3;  
FIG. 6 another bottom perspective view thereof showing the repeating element of a lighting fixture in another lighting fixture configuration;  
FIG. 7 is a bottom plan view thereof; and  
FIG. 8 is a side elevational view thereof as seen along lines 8—8 in FIG. 7; the other side being a mirror image.  
FIG. 9 is a bottom perspective view of a repeating element of a lighting fixture showing another embodiment of my new design, and showing the repeating element of a lighting fixture in yet another lighting fixture configuration;  
FIG. 10 is a bottom plan view thereof; and  
FIG. 11 is a side elevational view thereof as seen along lines 11—11 in FIG. 10; the other side being a mirror image.  
FIG. 12 is a bottom perspective view of a repeating element of a lighting fixture showing still another embodiment of my new design;  
FIG. 13 is a bottom plan view thereof;  
FIG. 14 is a side elevational view thereof as seen along lines 14—14 in FIG. 13; the other side being a mirror image;  
FIG. 15 is an enlarged end elevational view thereof as seen along lines 15—15 in FIG. 14; and,  
FIG. 16 is an enlarged end elevational view thereof as seen along lines 16—16 in FIG. 14.

The top of the repeating element of a lighting fixture is not part of the claimed design and therefore is not shown. The ends of the repeating element of a lighting fixture shown in FIGS. 6-8 as seen along arrows 4—4 and 5—5 in FIG. 8 are identical to the ends of the embodiment of the lighting fixture shown in FIGS. 1-5, and are shown in FIGS. 4 and 5. The ends of the embodiment of the lighting fixture shown in FIGS. 9-11 as seen along arrows 4-4 and 5—5 in FIG. 11 are substantially identical to the ends of the embodiment of the lighting fixture shown in FIGS. 1-5, as shown in FIGS. 4 and 5.

The broken line illustration of complete lighting fixtures shown in FIGS. 1-2 and 6-14 illustrate environmental structure and form no part of the claimed design. The broken lines in FIGS. 4, 5, 15 and 16 represent the bounds of the claimed design; the regions inside these broken lines form no part of the claimed design.
