(57) **CLAIM**

The ornamental design for a lighting fixture, as shown and described.

DESCRIPTION

FIG. 1 is a bottom perspective view of a lighting fixture showing my new design;

FIG. 2 is another bottom perspective view thereof, wherein the lighting fixture is shown as having an exemplary fixed length;

FIG. 3 is a reduced scale bottom plan view thereof;

FIG. 4 is a reduced scale side elevational view thereof; the other side being a mirror image; and

FIG. 5 is an enlarged end elevational view thereof, the other end being a mirror image.

FIG. 6 is a bottom perspective view of a lighting fixture showing another embodiment of my new design;

FIG. 7 is another perspective view thereof, wherein the lighting fixture is shown as having an exemplary fixed length;

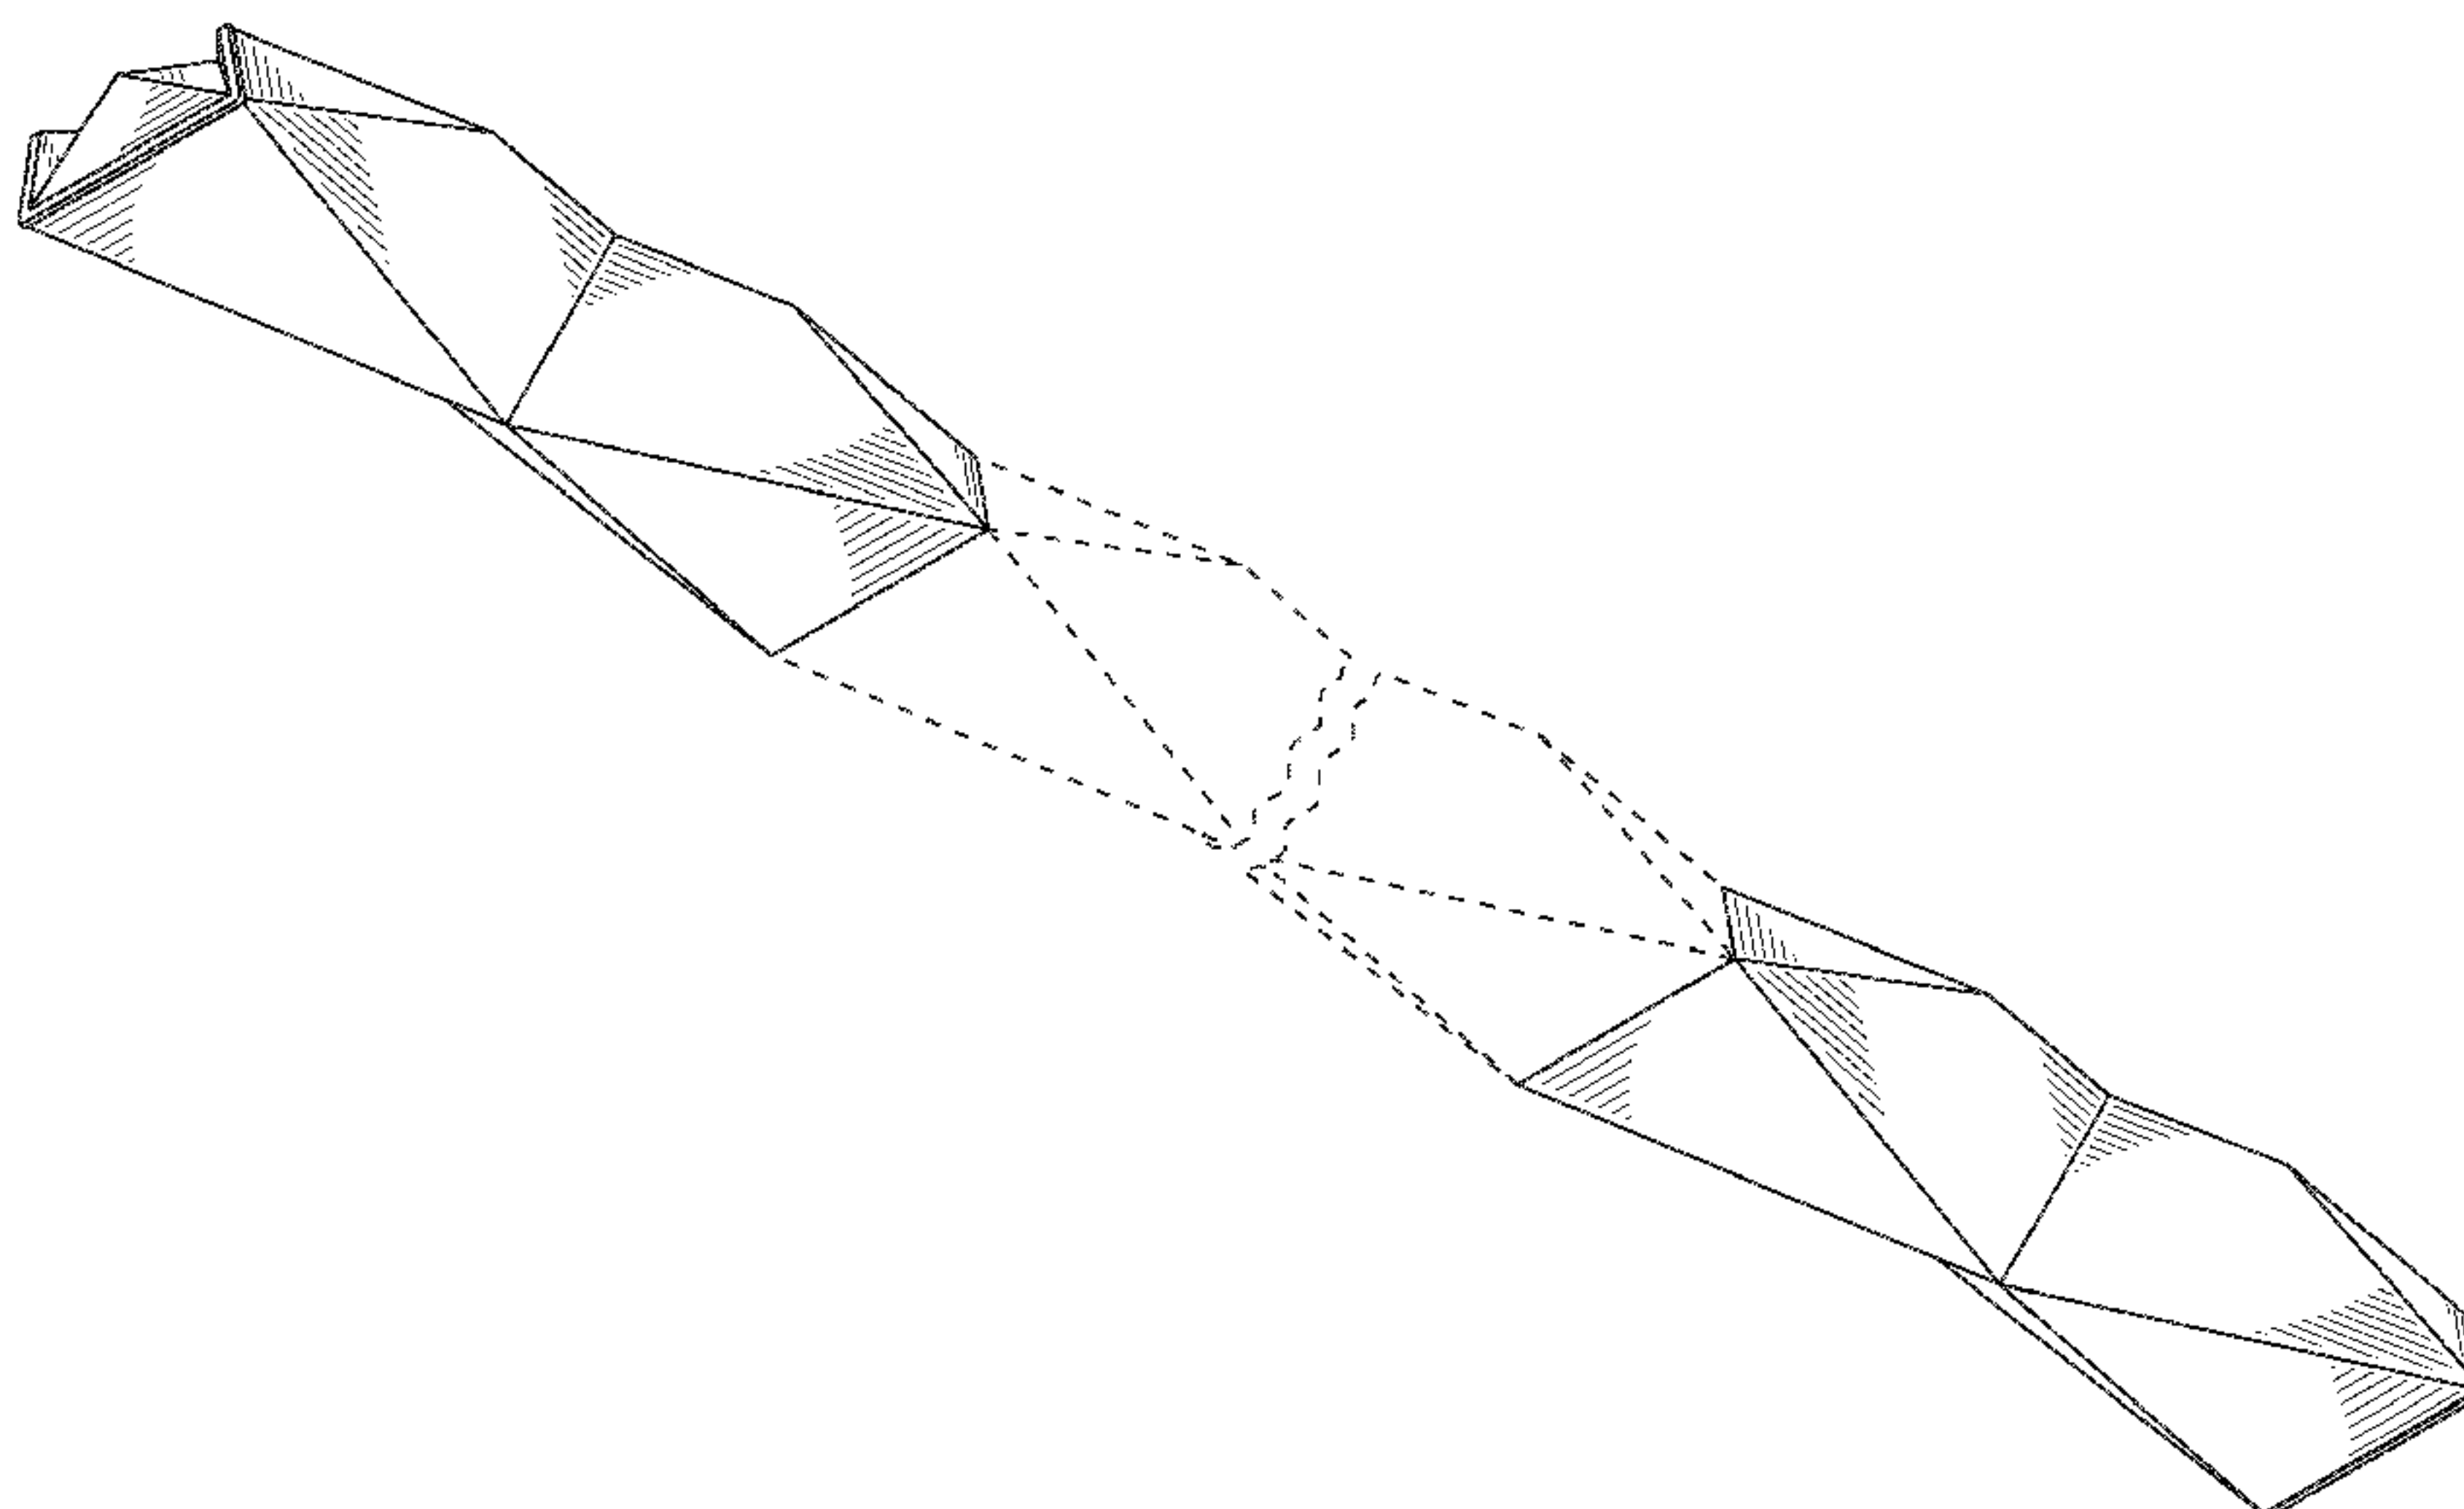

FIG. 8 is a reduced scale bottom plan view thereof; and,

FIG. 9 is a reduced scale side elevational view thereof; the other side being a mirror image.

The top of the lighting fixture is not part of the claimed design and therefore is not shown. The end of the embodiment of the lighting fixture shown in FIGS. 6-9 is identical to the end of the embodiment of the lighting fixture shown in FIGS. 1-5, and is shown in FIG. 5.

The claimed lighting fixture is comprised of repeating fixture elements and can include any number of repeating fixture elements as represented by the broken line representation of additional fixture elements in FIGS. 1, 3-4 and FIGS. 6 and 8-9. The broken lines in FIGS. 1, 3-4 and FIGS. 6 and 8-9 illustrate unclaimed portions of the design that are shown with a non-specified length. The lighting fixture shown in FIGS. 1, 3-5 and FIGS. 6 and 8-9 is broken away to indicate indeterminate length.

1 Claim, 4 Drawing Sheets
