(57) **CLAIM**

The ornamental design for a fixed caster, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a fixed caster of the present invention;

FIG. 2 is a right side elevation view thereof, the left side being a mirror image thereof;

FIG. 3 is a front elevation view thereof, the rear being a mirror image thereof; and,

FIG. 4 is a bottom plan view thereof.

A top plan view has been omitted as it does not form a portion of the claimed design.

The evenly spaced broken lines shown in the drawings are directed to environment, are for informational purposes only, and form no part of the claimed design.

The long and short broken lines are boundary lines which define the bounds of the claimed design. These boundaries do not exist in reality in the article embodying the design. It is understood that the claimed design extends to these boundaries but does not include the boundaries.

The surface shading lines on the claimed portion are provided only to indicate the character and/or any contour or curvature of the surfaces. They do not indicate color, texture, markings that actually exist thereon, indicia, graphic representations, surface treatment, or any other ornamentation applied to the article.
