(57) **CLAIM**

The ornamental design for a binder insert sheet with perforations, as shown and described.

DESCRIPTION

FIG. 1 is a front view of the binder insert sheet with perforations;

FIG. 2 is a rear view thereof;

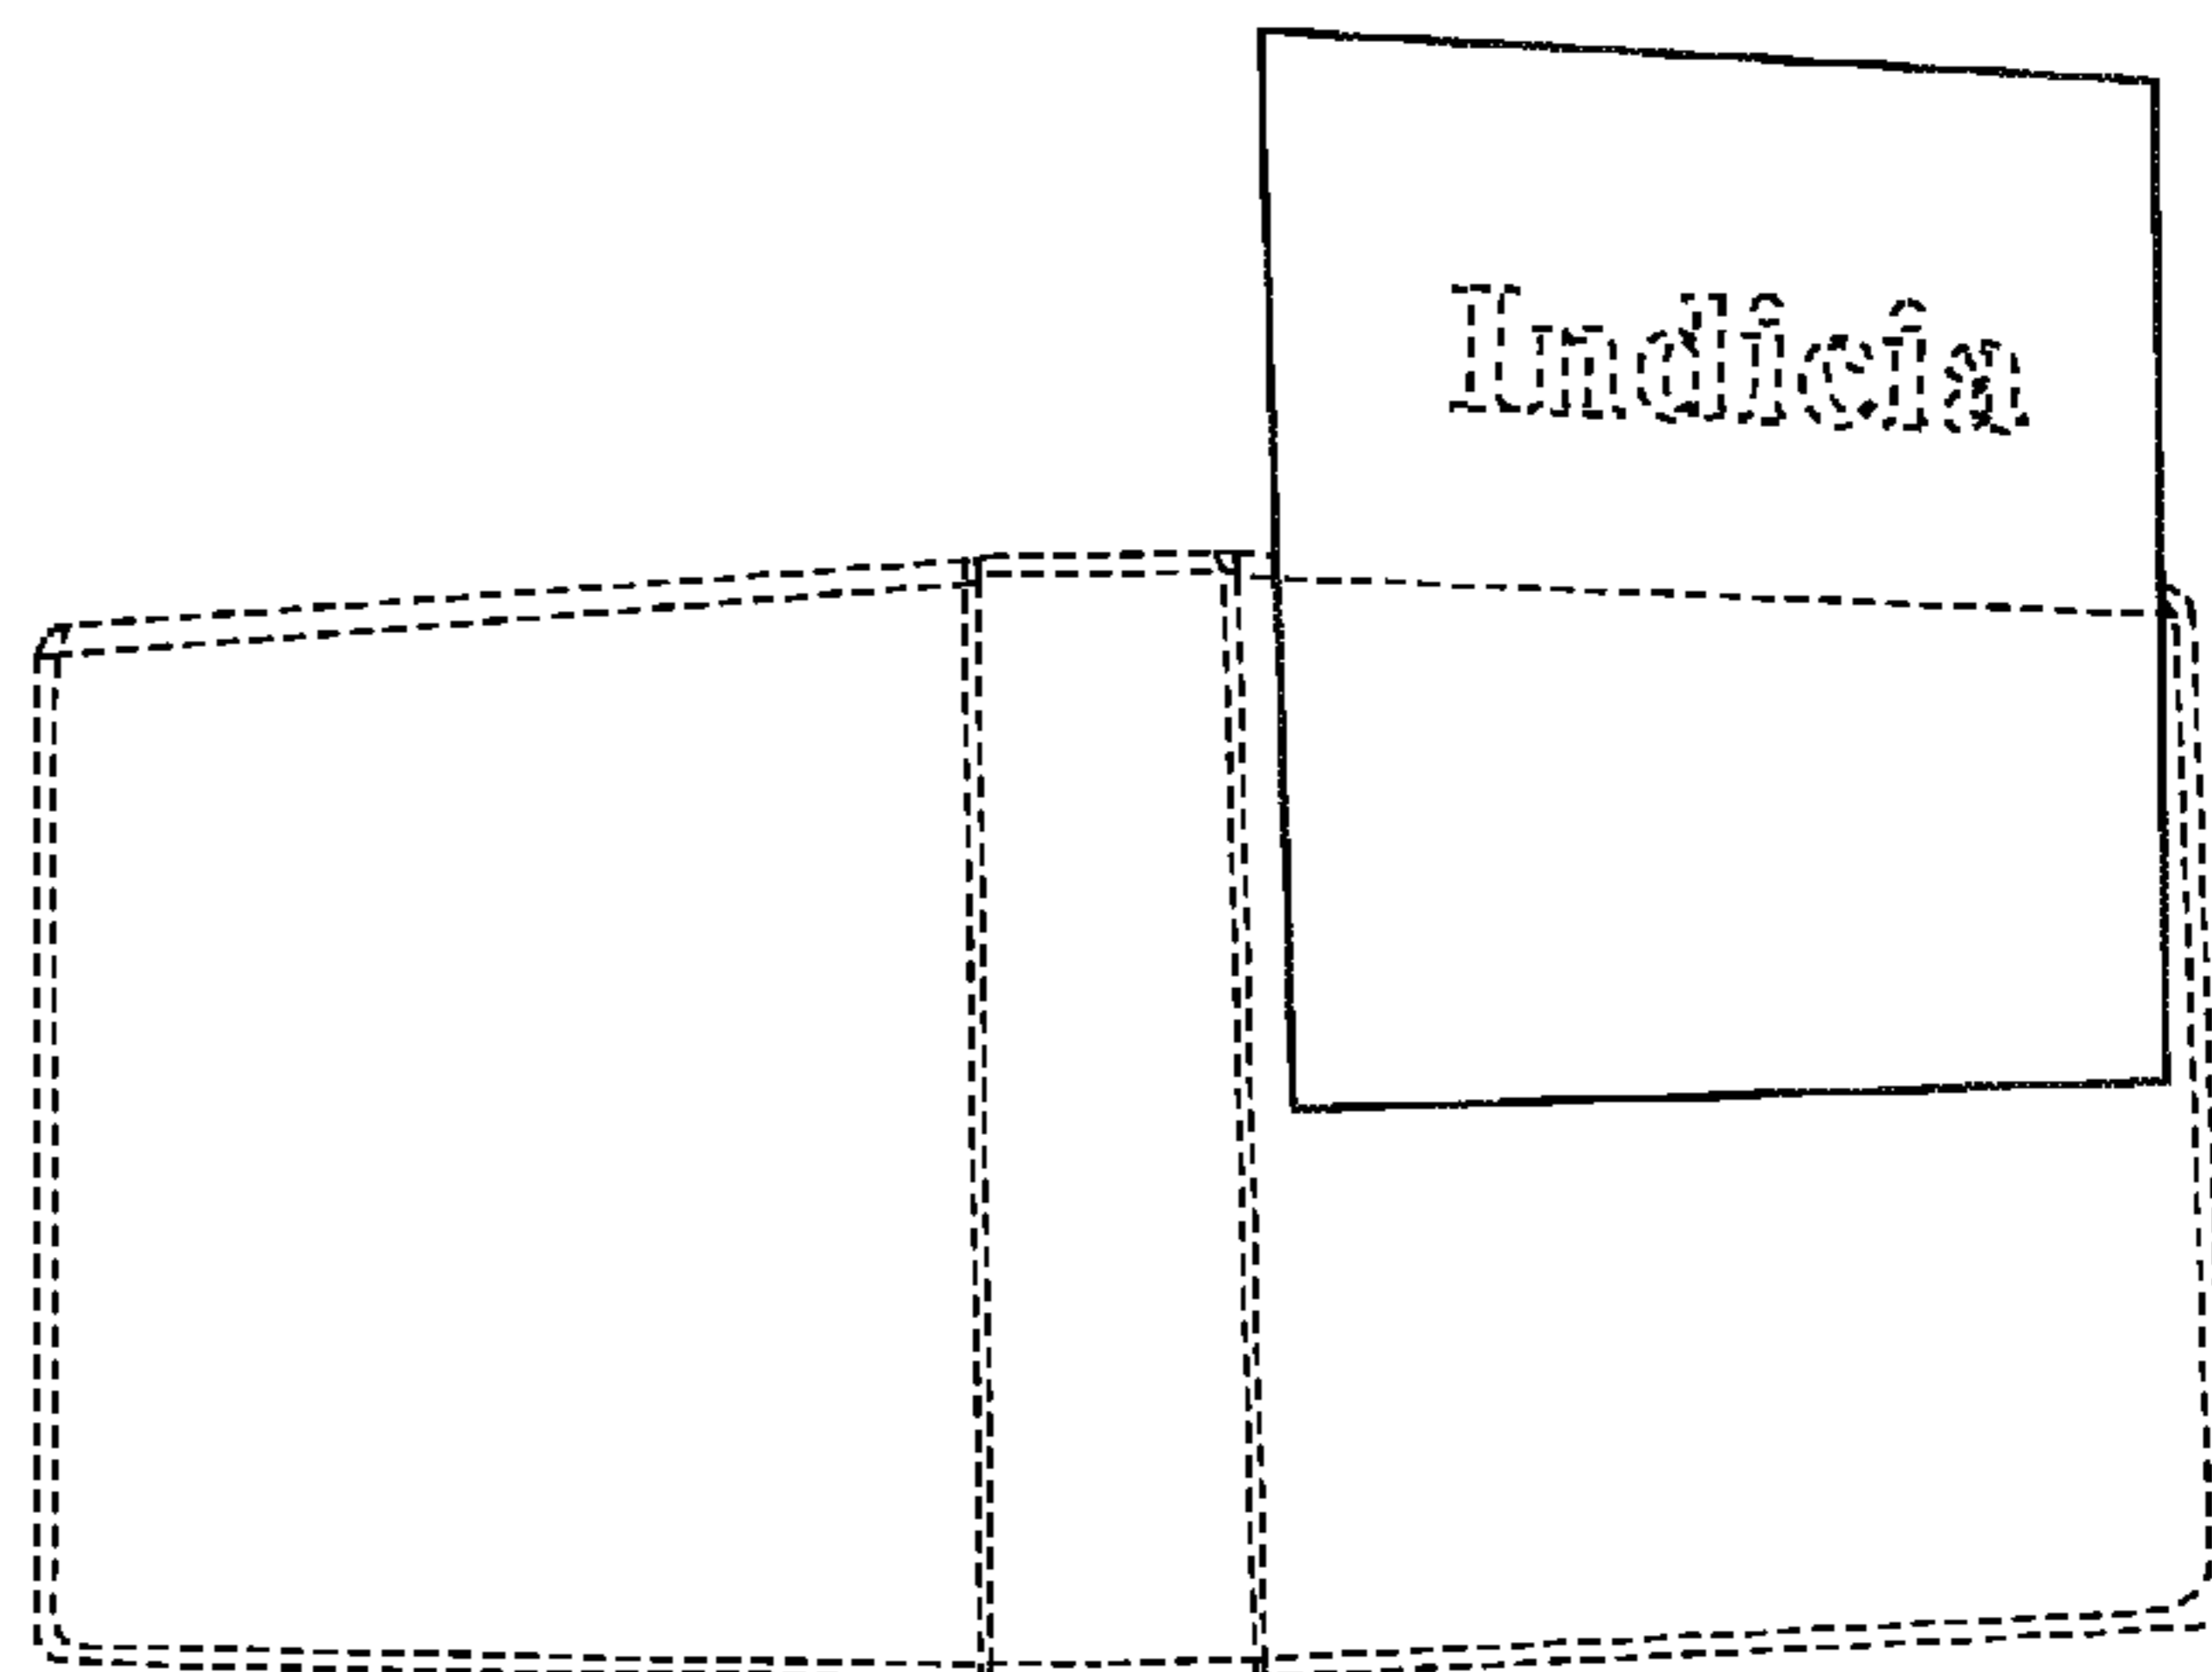

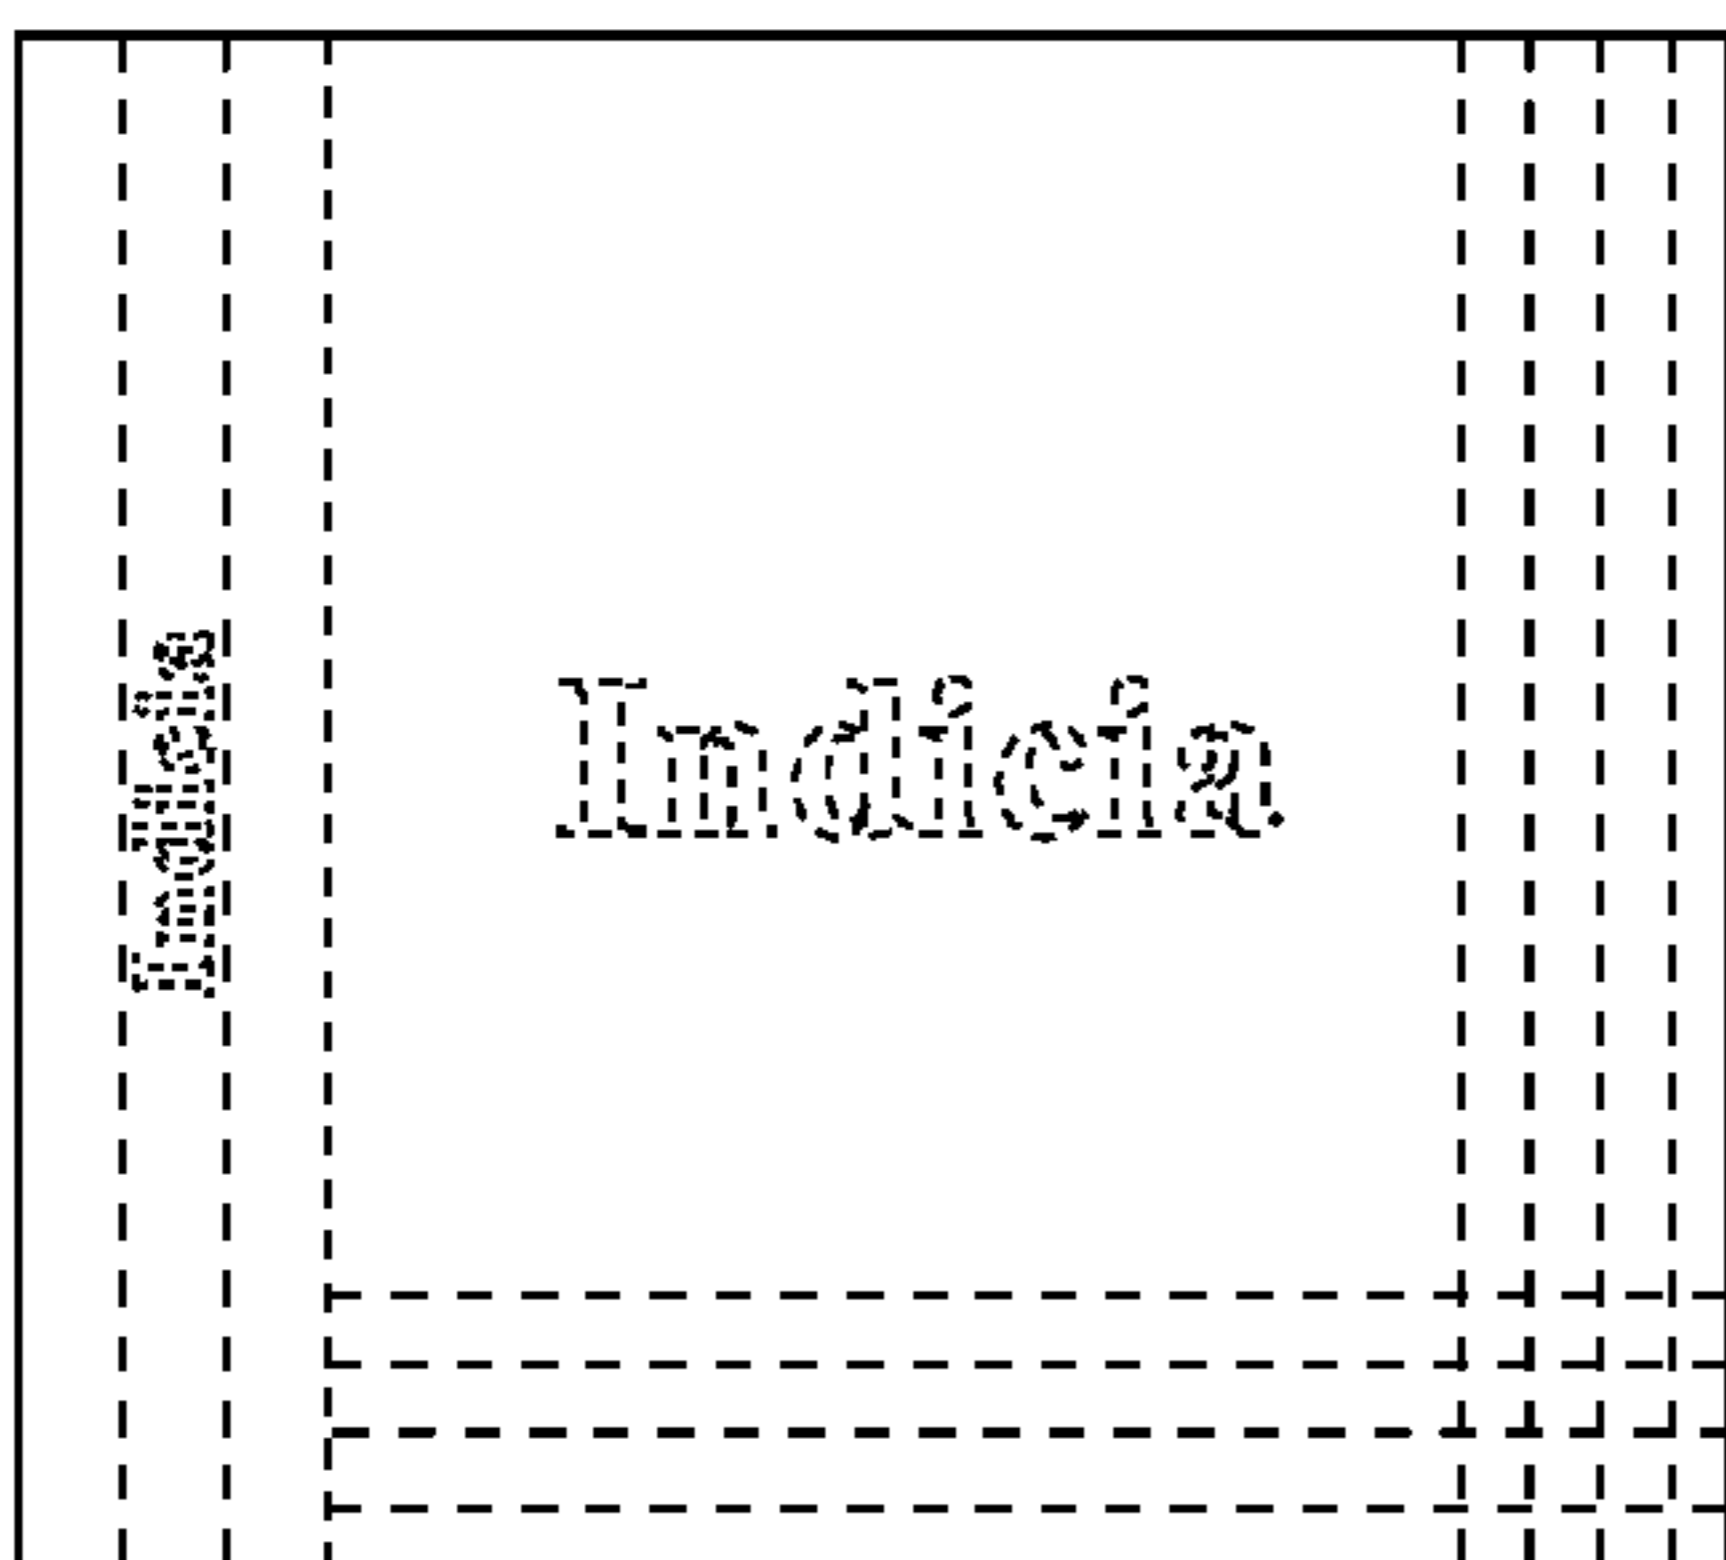

FIG. 3 is a front perspective view thereof, shown in an adjusted size; and,

FIG. 4 is a front perspective view thereof, shown in an additional adjusted size.

The claimed invention is a binder insert system comprising a unitary sheet with a plurality of perforation lines that is separable into a size adjustable front sheet portion to fit into a front cover of the binder and a size adjustable spine sheet portion to fit into a spine cover of the binder.

The larger horizontal and vertical broken lines running perpendicularly to a perimeter of the unitary sheet shown in FIGS. 1 and 2 represent a plurality of perforation lines and are part of the claimed design. The small broken line showing of "indicia" in FIGS. 1, 3, and 4 is for the purpose of illustrating surface indicia and forms no part of the claimed design. The small broken line showing of a binder with a transparent exterior cover is for the purpose of illustrating environment and forms no part of the claimed design.
