(57) **CLAIM**

The ornamental design for a global navigation satellite system apparatus display screen with user interface for configuration data, as shown and described.

DESCRIPTION

The file of the patent contains at least one drawing/photograph executed in color. Copies of this patent with color drawing(s)/photograph(s) will be provided by the Office upon request and payment of the necessary fee.

The FIGURE is a view of a user interface illustrating global navigation satellite system apparatus display screen with user interface for configuration data, showing our new design.

The perimeters of the global navigation satellite system apparatus display screen and the user interface for configuration data are understood to be flush.
