(57) **CLAIM**

I claim the ornamental design for a carry-on bag with easy access opening to the interior, as shown and described.

DESCRIPTION

FIG. 1 is a front, right side perspective view of the carry-on bag with easy access opening to the interior according to the present invention, in a closed condition;

FIG. 2 is a front, right side perspective view thereof with its top pocket open and the access panel closed;

FIG. 3 is a front, right side perspective view thereof with the top pocket flipped down and the access panel open;

FIG. 4 is a top view thereof with the top pocket and the access panel as shown in FIG. 3;

FIG. 5 is a front view thereof with the top pocket and the access panel closed;

FIG. 6 is a front view thereof with the top pocket and the access panel as shown in FIG. 3;

FIG. 7 is a right side view thereof with the top pocket and the access panel closed;

FIG. 8 is right side view thereof with the top pocket and the access panel as shown in FIG. 3;

FIG. 9 is a left side view thereof with the top pocket and the access panel closed;

FIG. 10 is a left side view thereof with the top pocket open and the access panel closed;

FIG. 11 is a back view thereof;

FIG. 12 is a bottom view thereof as shown in FIG. 1; and

FIG. 13 is a back, right side perspective view thereof with its handle for rolling extended.

FIG. 14 is a front, right side perspective view of an alternate embodiment of the carry-on bag with easy access opening to the interior according to the present invention, in a closed condition;

FIG. 15 is a front, right side perspective view thereof with its top pocket open and the interior access panel partially open;

FIG. 16 is a top view thereof with the top pocket open;

FIG. 17 is a front view thereof with the top pocket closed;

FIG. 18 is a front view thereof with the top pocket and the access panel as shown in FIG. 15;

FIG. 19 is a right side view thereof with the top pocket closed;

FIG. 20 is a right side view thereof with the top pocket and the access panel as shown in FIG. 15;

FIG. 21 is a left side view thereof with the top pocket closed;

FIG. 22 is a left side view thereof with the top pocket and the access panel as shown in FIG. 15;

FIG. 23 is a back view thereof;

FIG. 24 is a bottom view thereof; and,

FIG. 25 is a back, right side perspective view thereof with its handle for rolling extended.

In FIGS. 3 and 15, a baggage inspector's arm, reaching into the bag's interior, is shown in dashed lines for illustrative purposes only, forming no part of the claimed design.
