The ornamental design for a hood hat, as shown and described.

DESCRIPTION

FIG. 1 is an enlarged perspective view of a hood hat, showing my new design;

FIG. 2 is a front elevational view of the invention;

FIG. 3 is a rear elevational view of the invention;

FIG. 4 is a left-side elevational view of the invention;

FIG. 5 is a right-side elevational view of the invention;

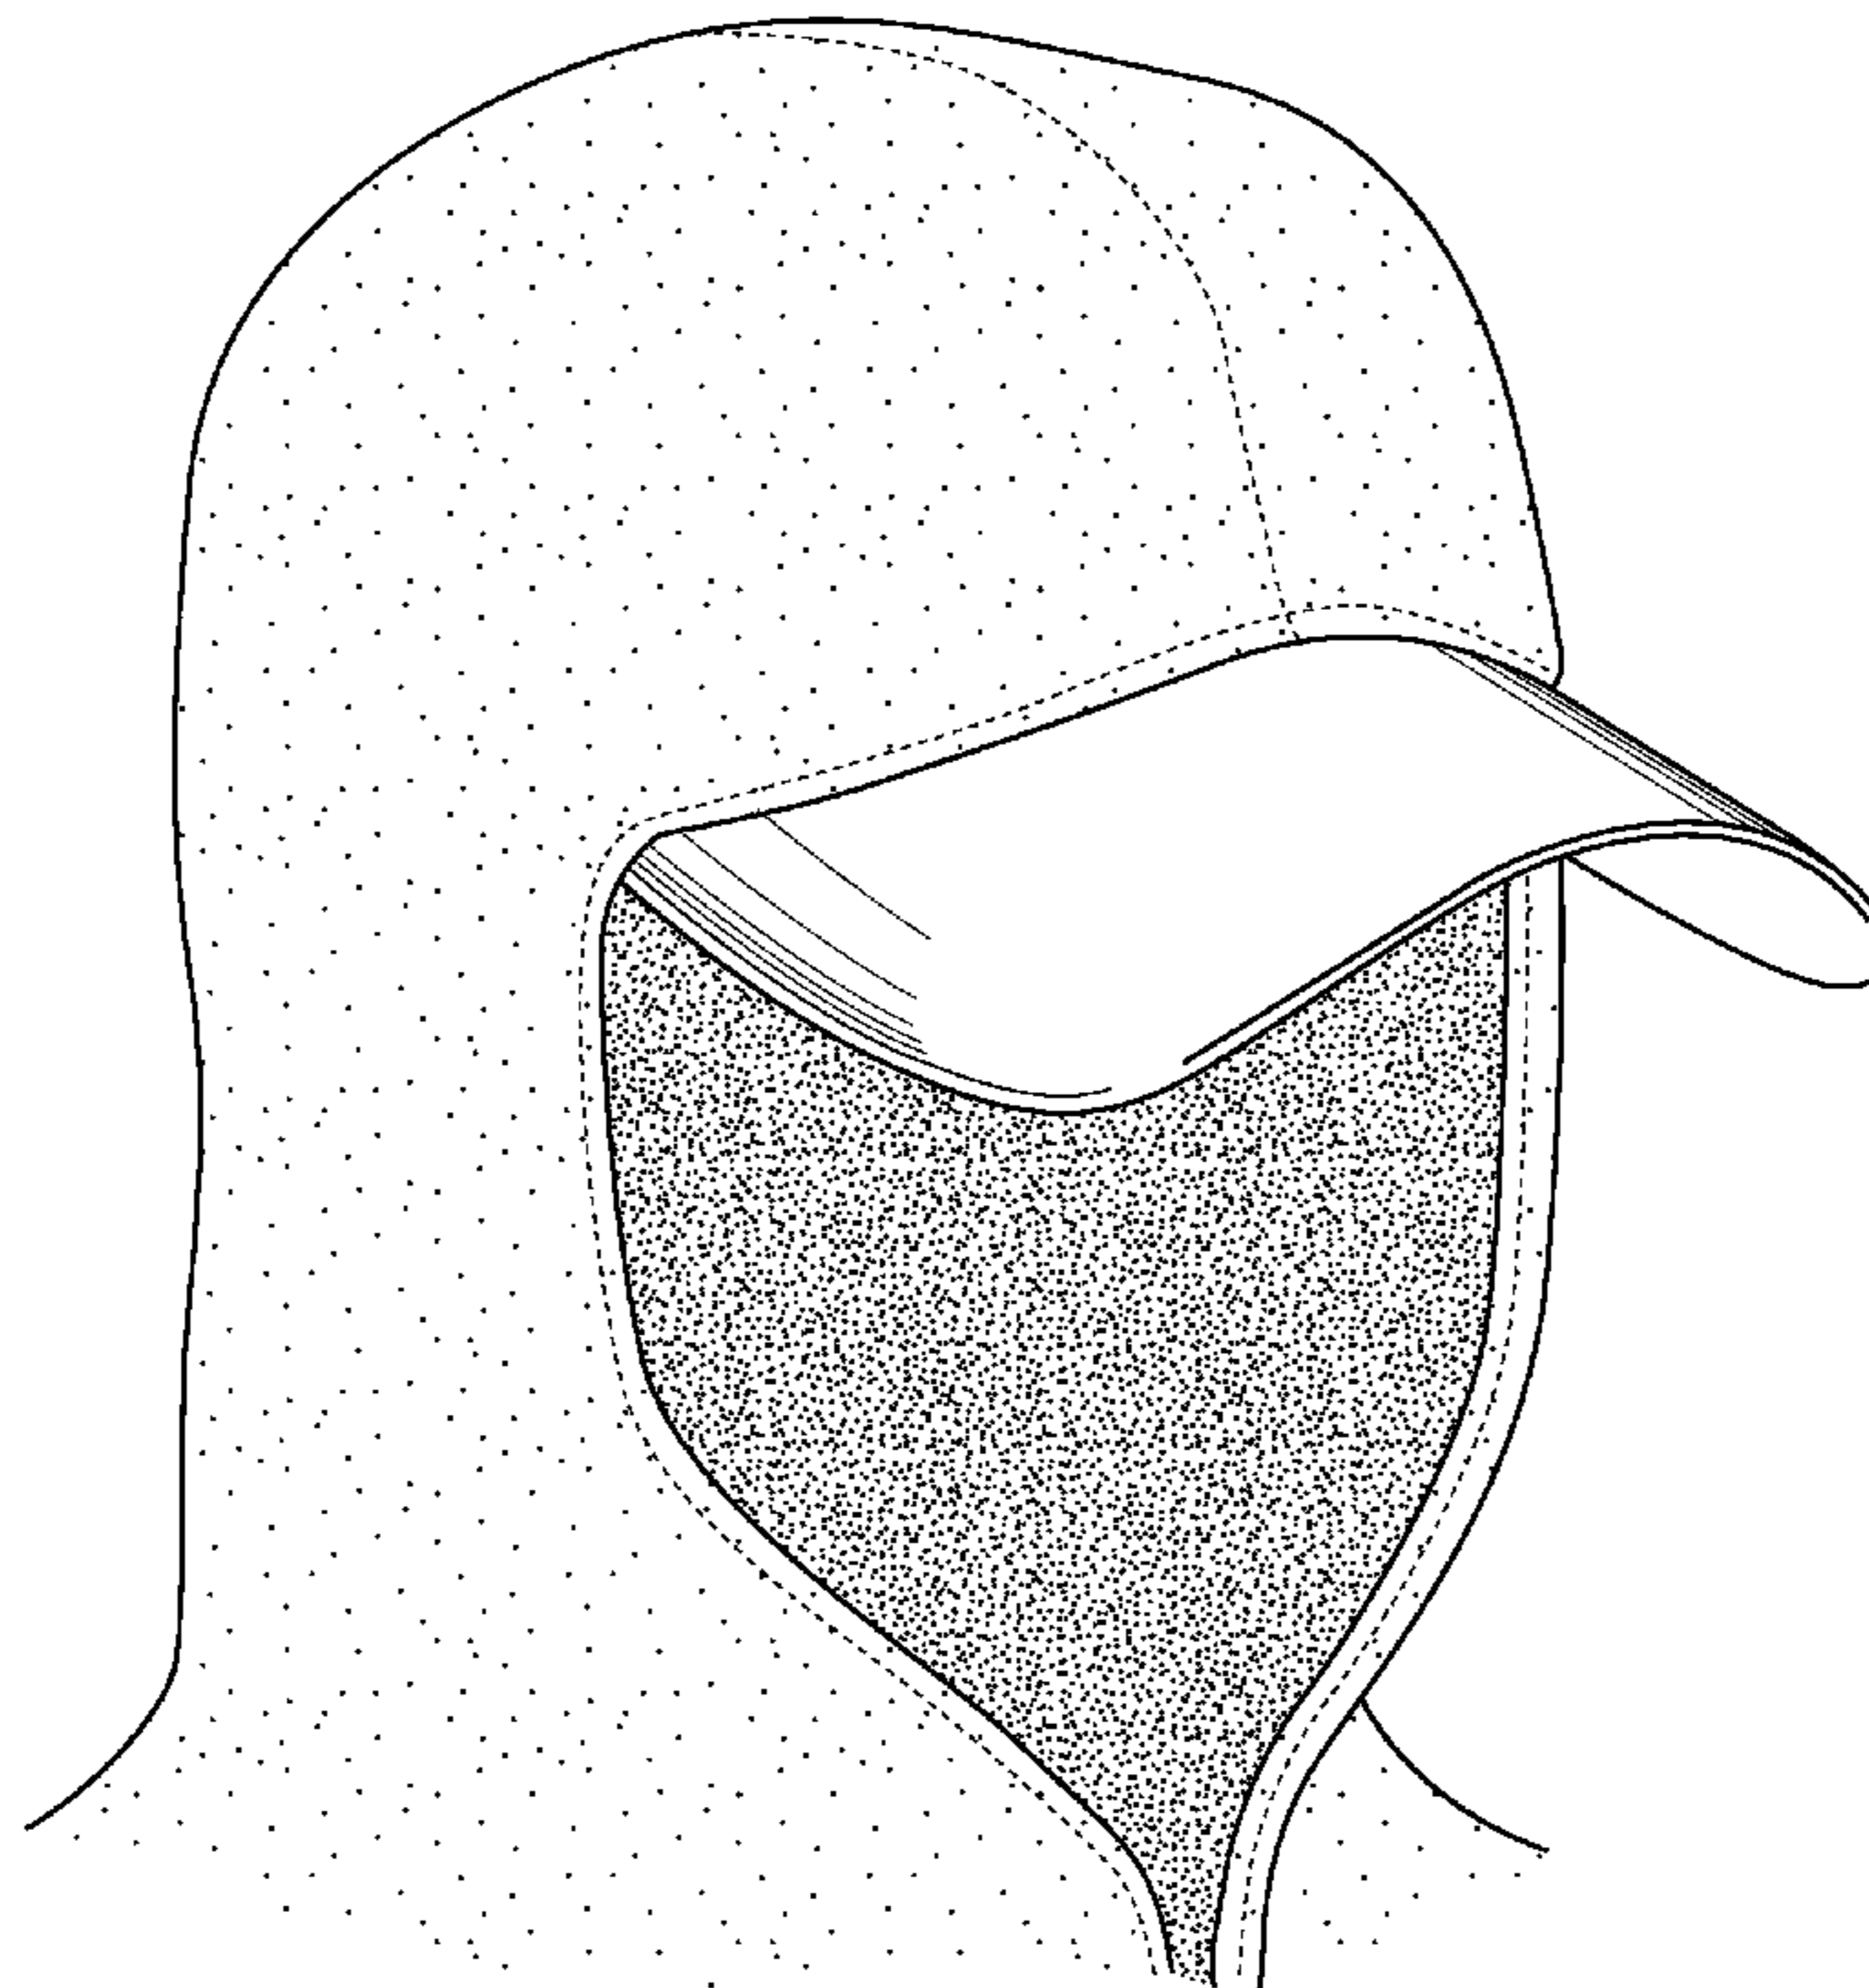

FIG. 6 is a top plan view of the invention;

FIG. 7 is a bottom plan view of the invention; and,

FIG. 8 is a reduced perspective view of the invention shown in its environment, with the jacket shown in broken lines forming no part of the claim.

The broken lines on the hood are stitching. The stippling in the drawings represents color contrast and texture. The cross-hatched pattern, although shown intermittently, is meant to represent fabric, and is understood to be distributed uniformly over the surfaces of the claimed design upon which it occurs.
