(57) **CLAIM**

The ornamental design for a global navigation satellite system apparatus display screen with user interface for a target display, as shown and described.

DESCRIPTION

The file of the patent contains at least one drawing/photograph executed in color. Copies of this patent with color drawing(s)/photograph(s) will be provided by the Office upon request and payment of the necessary fee.

The single FIGURE is a view of a global navigation satellite system apparatus display screen with user interface for a target display, showing our new design.

The perimeters of the global navigation satellite system apparatus display screen and the user interface for target display are understood to be flush.
