(57) **CLAIM**

The ornamental design for a bottle for delivering nutrients to an enteral feeding tube, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a bottle for delivering nutrients of the present invention in an assembled state with the handle extended and the folding caps open; FIG. 2 is another perspective view thereof; FIG. 3 is a side elevation view thereof; FIG. 4 is a cross sectional view thereof taken along line 4—4 of FIG. 3; FIG. 5 is an exploded perspective view of the bottle of FIG. 1 with the handle folded and the folding caps closed; and, FIG. 6 is an exploded perspective view of the bottle of FIG. 1 with the handle folded and the folding caps open; The features shown in broken lines depict environmental subject matter only and form no part of the claimed design. The vertical broken lines between the exploded parts in FIGS. 5 and 6 show order of assembly.
