(57) **CLAIM**

The ornamental design for a ring light control unit, as shown and described.

DESCRIPTION

FIG. 1 is a left front perspective view of the ring light control unit of the present invention;

FIG. 2 is a front elevation view of the ring light control unit of the present invention;

FIG. 3 is a rear elevation view of the ring light control unit of the present invention;

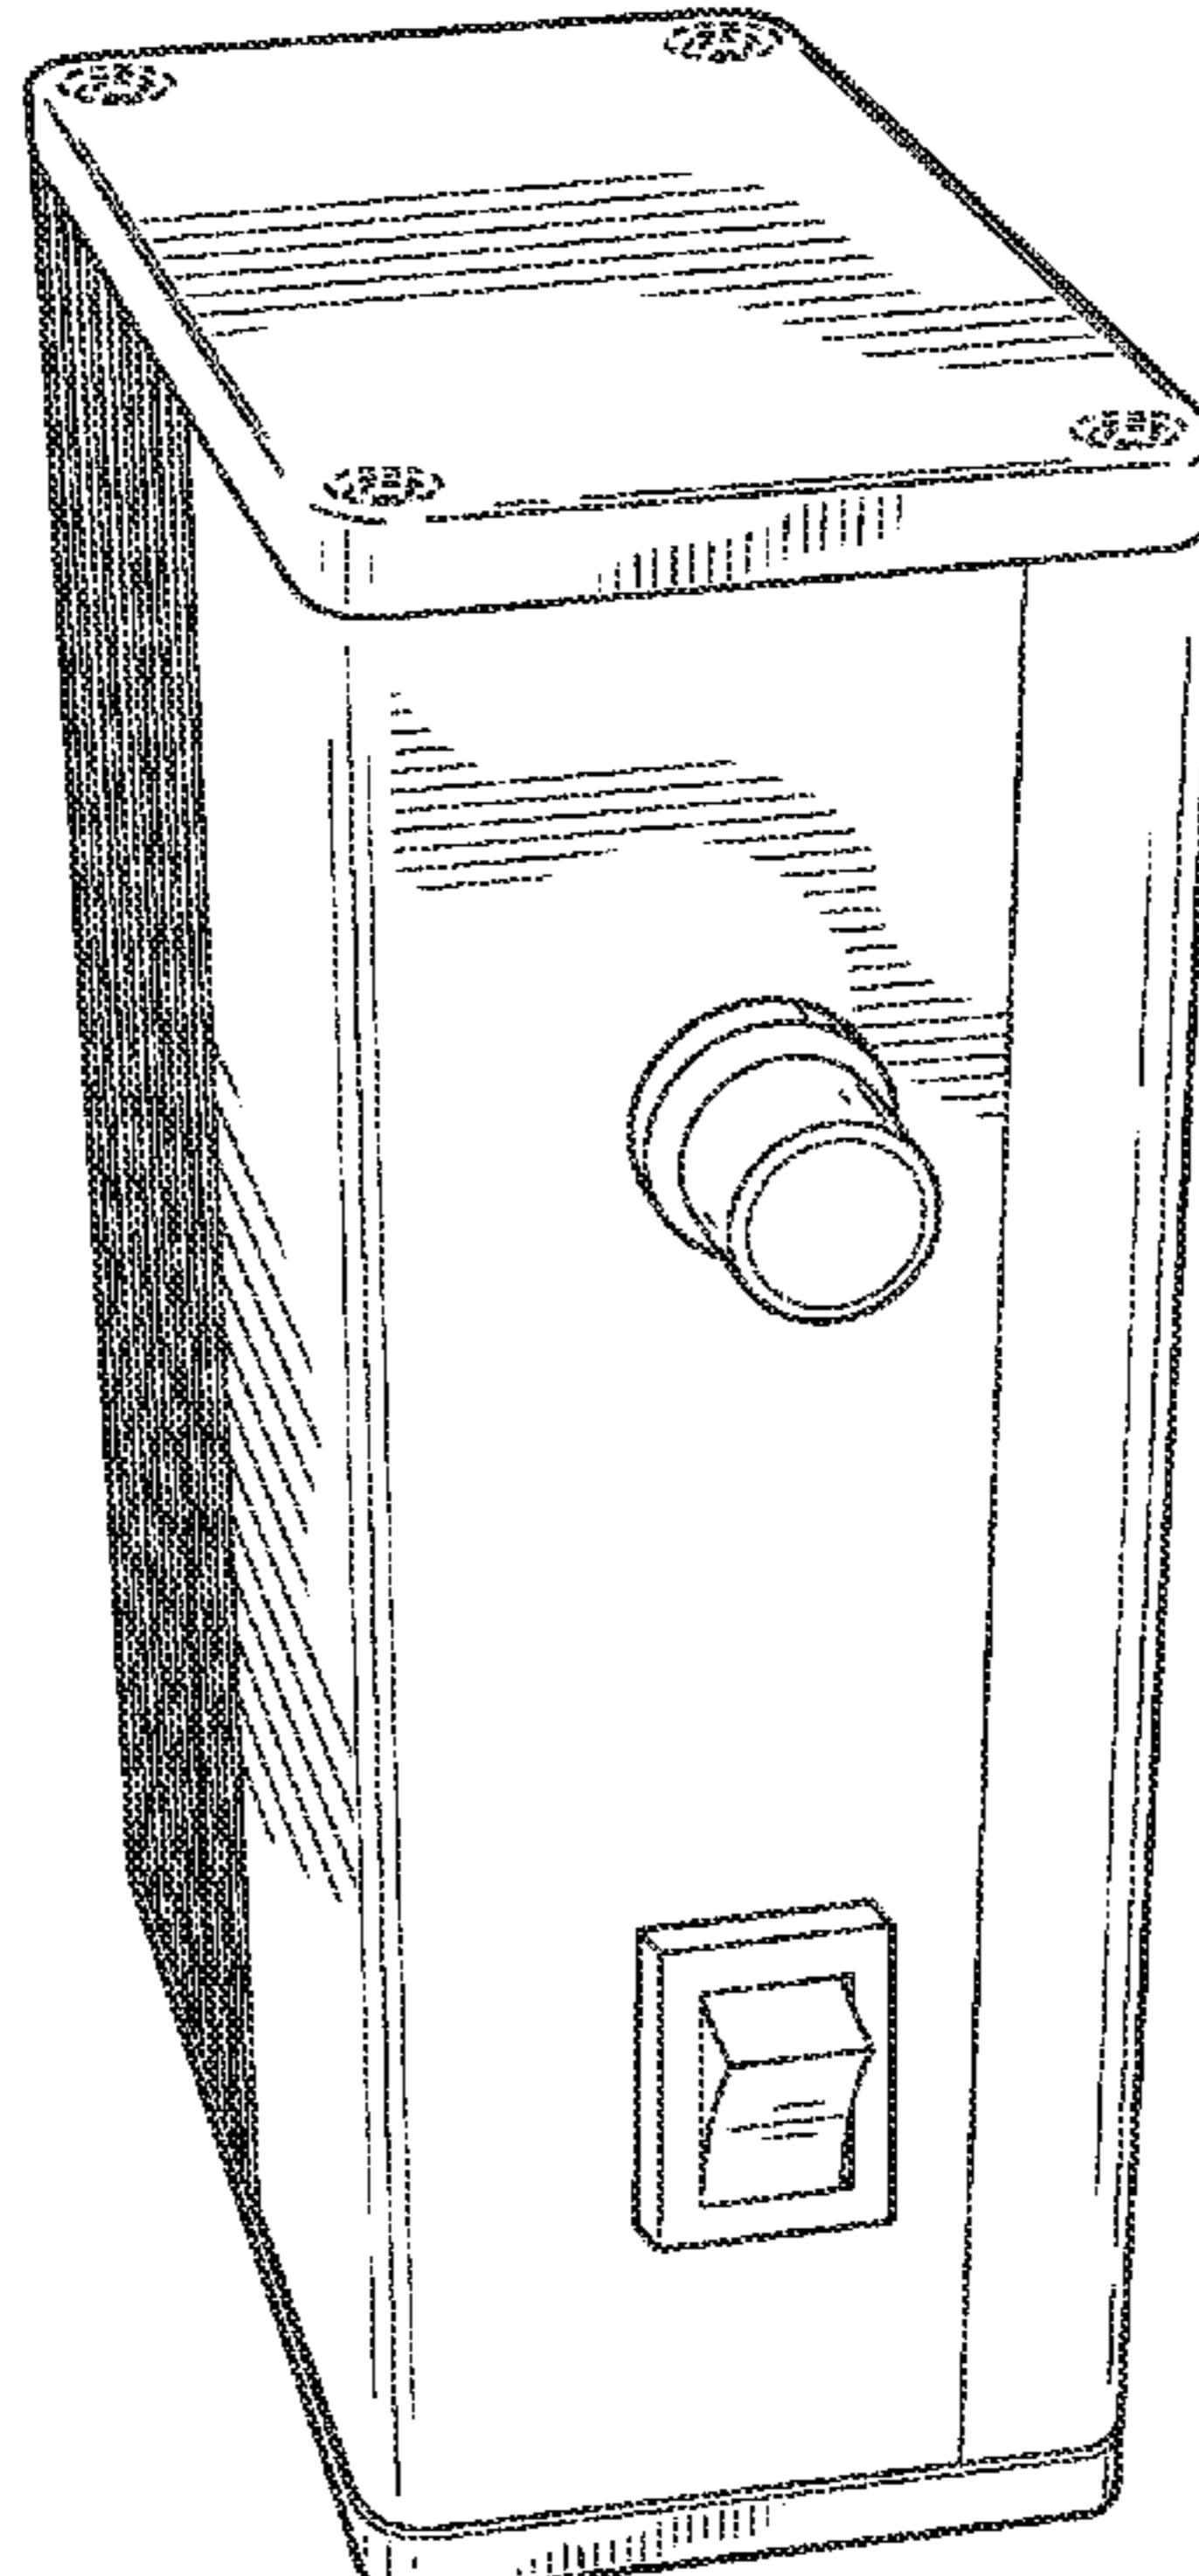

FIG. 4 is a top plan view of the ring light control unit of the present invention;

FIG. 5 is a bottom plan view of the ring light control unit of the present invention;

FIG. 6 is a left side elevation view of the ring light control unit of the present invention; and,

FIG. 7 is a right side elevation view of the ring light control unit of the present invention.

The portions of the drawing shown in broken lines form no part of the design sought to be patented.
