(57) **CLAIM**

The ornamental design for a doll carrier, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of the a doll carrier showing the new design;

FIG. 2 is a front elevational view thereof, in an alternate position of use;

FIG. 3 is a front right bottom side perspective view of the doll carrier as shown in FIG. 2;

FIG. 4 is a front right side perspective view of the doll carrier as shown in FIG. 1, the only difference being the position of the top cover section which has been placed behind the doll carrier;

FIG. 5 is a perspective view of the doll carrier as shown in FIG. 4, with the broken lines showing a doll and child depicting environment only and forming no part of the claimed design;

FIG. 6 is a front right bottom side perspective view of the doll carrier as shown in FIG. 4;

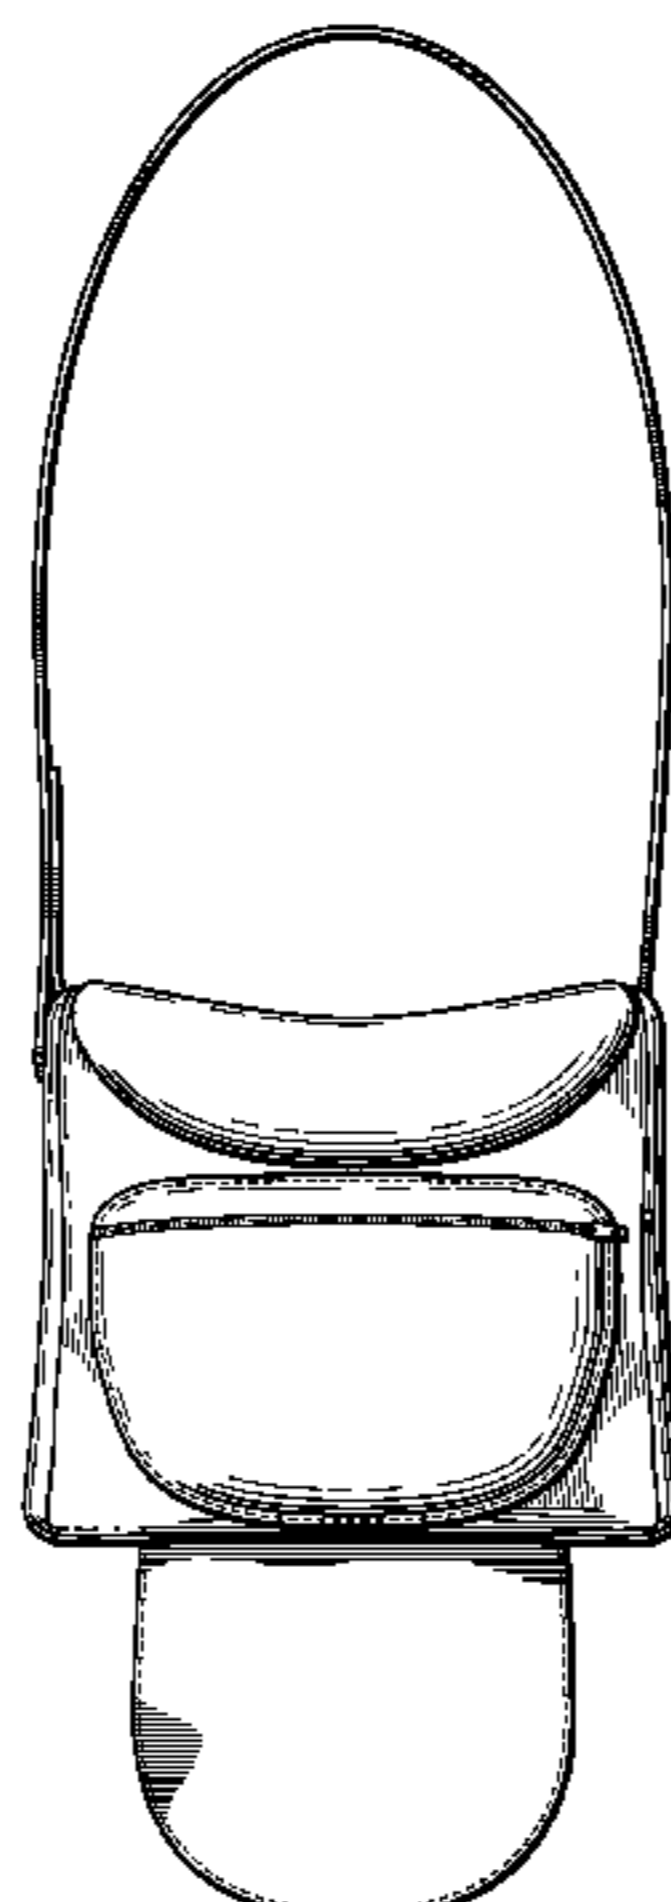

FIG. 7 is a rear left side perspective view of the doll carrier as shown in FIG. 4, with the broken lines showing a doll depicting environment only and forming no part of the claimed design;

FIG. 8 is a rear left side perspective view of the doll carrier as shown in FIG. 1, the only difference being the position of the top cover section which has been placed inside the doll carrier;

FIG. 9 is a front right side perspective view of a second embodiment of the doll carrier shown in FIG. 1, the only difference being the image shown on the front pocket section, it being understood that all other surfaces are the same as those of the first embodiment; and,

FIG. 10 is a front right bottom side perspective view of a fourth embodiment of the doll carrier shown in FIG. 1, the only difference being the absence of an opening behind the front pocket section as illustrated in FIG. 3, it being understood that all other surfaces are the same as those of the first embodiment.
