(57) **CLAIM**

The ornamental design for the multi-configuration table set, as shown and described.

DESCRIPTION

FIG. 1 is an isometric view of a multi-configuration room including a first table (bottom) and a second table (top) in a first configuration.

FIG. 2 is a plan view of the multi-configuration room including the first table (bottom) and the second table (top) in the first configuration.

FIG. 3 is a side view of the multi-configuration room including the first table (left) and the second table (right) in the first configuration.

FIG. 4 is an isometric view of the multi-configuration room including the first table (bottom) and the second table (top) in a second configuration.

FIG. 5 is a plan view of the multi-configuration room including the first table (bottom) and the second table (top) in the second configuration.

FIG. 6 is a side view of the multi-configuration room including the first table (left) and the second table (right) in the second configuration.

FIG. 7 is an isometric view of the first multi-configuration table in the first configuration.

FIG. 8 is an isometric view of the first multi-configuration table in the second configuration.

FIG. 9 is a plan view of the first multi-configuration table in the first configuration.

FIG. 10 is a front view of the first multi-configuration table in the first and second configurations.

FIG. 11 is a side view of the first multi-configuration table in the first configuration.

FIG. 12 is a rear view of the first multi-configuration table in the first configuration.

FIG. 13 is a rear view of the first multi-configuration table in the second configuration.

FIG. 14 is an isometric view of the second multi-configuration table in the first configuration.

FIG. 15 is an isometric view of the second multi-configuration table in the second configuration.

FIG. 16 is a plan view of the second multi-configuration table in the first configuration.

FIG. 17 is a front view of the second multi-configuration table in the first configuration.

FIG. 18 is a front view of the second multi-configuration table in the second configuration.

FIG. 19 is a side view of the second multi-configuration table in the first configuration; and,

FIG. 20 is a rear view of the second multi-configuration table in the first configuration.

The broken line showings are for illustrative purposes only and form no part of the claimed design.

The tables in FIGS. 7-20 are shown separately for clarity of disclosure.
