(57) **CLAIM**

The ornamental design for a bag closure device, substantially as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of our new design showing a bag attached to the device;

FIG. 2 is a front elevation view thereof, the rear being a mirror image thereof;

FIG. 3 is a top elevation side view thereof;

FIG. 4 is a bottom elevation view thereof;

FIG. 5 is a side elevation view thereof; and,

FIG. 6 is an opposite side elevation view thereof.

The bag and features thereof, and the rod inserted into the device, shown in broken lines in the figures form no part of the claimed design. The broken lined portion in the body of the design indicates that no particular length of the device is claimed.
