(57) **CLAIM**

The ornamental design for a cell phone having a GPS screen, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of the cell phone of my new design, with the top flipped open, and a GPS screen component extending from the bottom portion.

FIG. 2 is an enlarged view of a portion of the cell phone of my new design shown in FIG. 1, showing the GPS screen component in greater detail.

FIG. 3 is an elevational view of the right side of the portion of the cell phone shown in FIG. 2.

FIG. 4 is a plan view from the top of the portion of the cell phone shown in FIG. 2.

FIG. 5 is an elevational view of the left side of the portion of the cell phone shown in FIG. 2.

FIG. 6 is a plan view from the bottom of the portion of the cell phone shown in FIG. 2.

FIG. 7 is an elevational view of the bottom edge of the GPS screen component shown in FIG. 4; and,

FIG. 8 is an elevational view of the top edge of the GPS screen component shown in FIG. 4.

The broken line objects shown in FIGS. 1-6 are environmental elements and form no part of the invention.

GPS refers to a global positioning system.
