(57) **CLAIM**

The ornamental design for a geared head for motion picture
cameras, as shown and described.

DESCRIPTION

FIG. 1 is a bottom, front and left side perspective view of a
geared head for motion picture cameras showing our new
design;

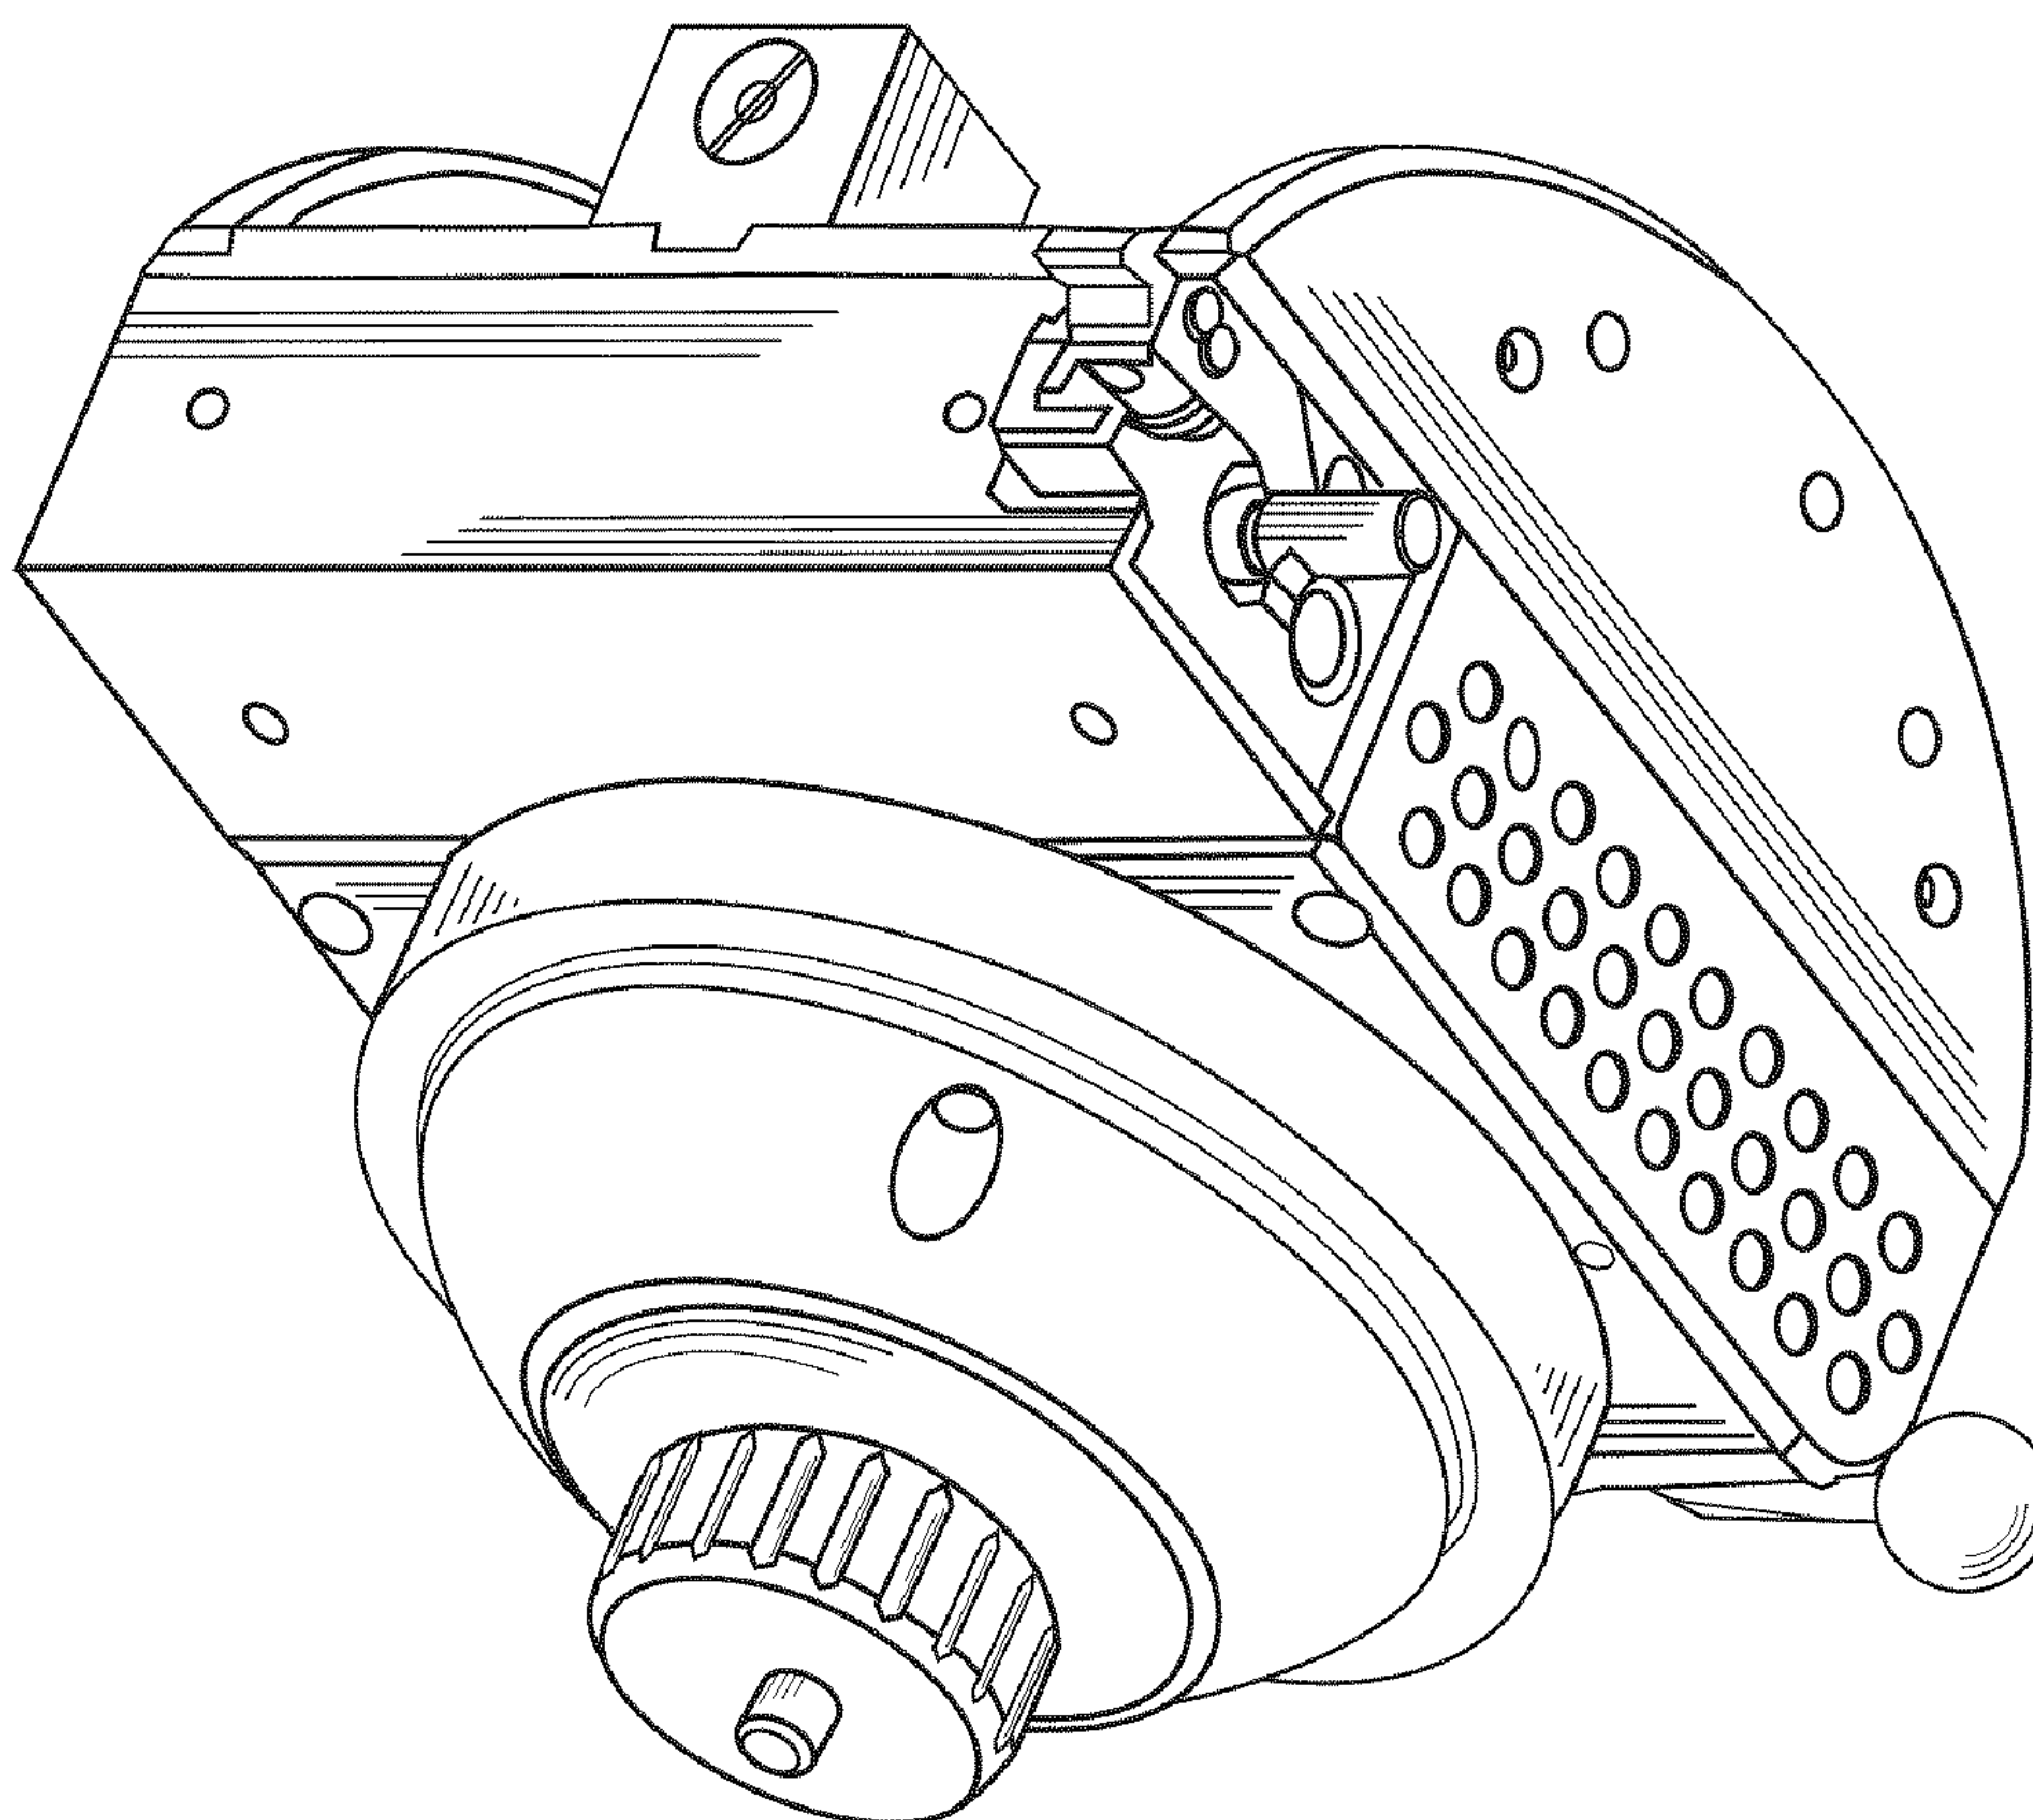

FIG. 2 is a right side elevational view thereof; and,

FIG. 3 is a left side elevational view thereof.

An ornamental design feature for a geared head side panel
comprising the decreasing, asymmetrical arch left and right
side panels and selectively perforated left and right side plate
of said geared head.

The design element is featured on the side plates of geared
heads used for mounting large cameras, such as motion pic-
ture cameras.
