(57) **CLAIM**

The ornamental design for a synthetic resin paper, as shown and described.

DESCRIPTION

FIG. 1 is a top plan view of a synthetic resin paper showing our new ornamental design with dashed lines shown therein to identify the area 4 which circumscribes the location from which FIG. 4 is taken;

FIG. 2 is a rear view thereof;

FIG. 3 is a side view thereof; and,

FIG. 4 is an enlarged fragmentary top plan view of the circumscribed area 4 identified by dashed lines in FIG. 1.

The broken lines in the drawings indicate that the synthetic resin paper has no specific length and that the design repeats uniformly throughout the entire length of the paper. The broken lines form no part of the claim. In addition, the dashed lines in FIG. 1, circumscribing the area 4, are longer than the broken lines, and also form no part of the claim.
