(57) **CLAIM**

The ornamental design for a biopsy needle support device, as shown and described.

DESCRIPTION

FIG. 1 is a top, front and side perspective view of a biopsy needle support device showing our new design; FIG. 2 is a top, front and side perspective view thereof; FIG. 3 is a front elevational view thereof; FIG. 4 is a rear elevational view thereof; FIG. 5 is a top plan view thereof; FIG. 6 is a bottom plan view thereof; FIG. 7 is a right side elevational view thereof; FIG. 8 is a front elevational view thereof, where the attachment portion slid to a different position; FIG. 9 is a top, front and side perspective view thereof, where the attachment portion slid in an upward position; FIG. 10 is a right side elevational view thereof, where the attachment portion is in a rotated position; and, FIG. 11 is a reference view of usage thereof, where broken lines showing portions of the biopsy needle support device are included for illustrating environmental structure and form no part of the claimed design.
