(57) **CLAIM**

The ornamental design for a foldable stool, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the present invention in an open position;
FIG. 2 is a front elevational view of the present invention in an open position;
FIG. 3 is right side elevational view of the present invention in an open position;
FIG. 4 is a rear elevational view of the present invention in an open position;
FIG. 5 is a left side elevational view of the present invention in an open position;
FIG. 6 is a top plan view of the present invention in an open position;
FIG. 7 is a bottom plan view of the present invention in an open position;
FIG. 8 is a perspective view of the present invention in a closed or collapsed position;
FIG. 9 is a front elevational view of the present invention in a closed or collapsed position;
FIG. 10 is a right side elevational view of the present invention in a closed or collapsed position;
FIG. 11 is a rear elevational view of the present invention in a closed or collapsed position;
FIG. 12 is a left side elevational view of the present invention in a closed or collapsed position;
FIG. 13 is a top plan view of the present invention in a closed or collapsed position; and,
FIG. 14 is a bottom plan view of the present invention in a closed or collapsed position.
