(57) **CLAIM**

What is claimed is the ornamental design for a bandage scissors, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a bandage scissors, illustrated with a clip thereof in a normally closed position in a handle thereof, showing the new design;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a rear elevational view thereof;

FIG. 4 is a top plan view thereof; and

FIG. 5 is a bottom plan view thereof.

FIG. 6 is a left-side elevational view thereof;

FIG. 7 is a right-side elevational view thereof;

FIG. 8 is a perspective view thereof, illustrated with the clip in a retracted position; and,

FIG. 9 is a front elevational view thereof, illustrating an elastomeric band disengaged from two notches of the scissor. The broken lines showing an elastomeric band in FIG. 9 are included for the purpose of illustrating an alternate disengaged position of the band from the notch-engaged position illustrated in FIGS. 1-8. The clip of FIG. 8 is understood to be pivotable about its contact point with the handle of the scissors between its open and normally-closed positions.
