(57) **CLAIM**
The ornamental design for a system status display, as shown and described.

DESCRIPTION

A portion of the disclosure of this patent document contains material to which a claim for copyright is made. The copyright owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the Patent and Trademark Office patent file or records, but reserves all other copyright rights whatsoever. FIG. 1 is a front view of a display screen on a system status display showing a new design. The broken line showing of the computer display, window, and the shape surrounding the image forms no part of the claimed design.
