(57) **CLAIM**

The ornamental design for a dual protector cover, as shown and described.

**DESCRIPTION**

FIG. 1 is a top perspective view of the dual protector cover which is a combination of a soft rubber cover and an outer hard plastic cover, showing my design;

FIG. 2 is a bottom perspective view thereof;

FIG. 3 is an end view when viewed from the right side with the bottom of the dual protector cover facing upwardly;

FIG. 4 is an end view when viewed from the left side with the top of the dual protector cover facing upwardly;

FIG. 5 is a side elevational view of the dual protector cover with the bottom of the cover facing to the left and the top of the cover facing to the right;

FIG. 6 is a side elevational of the dual protector cover with the top of the cover facing to the left and the bottom of the cover facing to the right;

FIG. 7 is a top plan view thereof;

FIG. 8 is a bottom plan view thereof;

FIG. 9 is an end view when viewed from the right side of the interior soft rubber cover removed from the hard plastic cover for clarity of illustration with the bottom of the soft rubber cover facing upwardly;

FIG. 10 is an end view when viewed from the left side of the interior soft rubber cover removed from the hard plastic cover for clarity of illustration with the top of the cover facing upwardly;

FIG. 11 is a side elevational view of the soft rubber cover with the bottom facing to the left and the top facing to the right;

FIG. 12 is a side elevational view of the soft rubber cover with the top facing to the left and the bottom facing to the right;

FIG. 13 is a top plan view of the soft rubber cover;

FIG. 14 is a bottom plan view of the soft rubber cover;

FIG. 15 is an end view when viewed from the right side of the hard plastic cover shown separately for clarity of illustration with the bottom of the cover facing upwardly;

FIG. 16 is a left end view of the hard plastic cover with the top of the cover facing upwardly;

FIG. 17 is a side elevational view of the hard plastic cover with the bottom of the cover facing to the left and the top of the cover facing the right;

FIG. 18 is a side elevational view of the hard plastic cover with the top of the cover facing to the right and the bottom of the cover facing to the left;

FIG. 19 is a top plan view of the hard plastic cover;

FIG. 20 is a bottom plan view of the hard plastic cover; and,

FIG. 21 is a side elevational view showing the soft plastic cover to the left and the hard plastic cover to the right before they are combined into the final single product as illustrated in FIGS. 1-8.
