(57) CLAIM
The ornamental design for an identification plate for network cabinet, as shown and described.

DESCRIPTION

FIG. 1 is a front view of an identification plate for a network cabinet according to the present invention;
FIG. 2 is a rear view of the identification plate of FIG. 1;
FIG. 3 is a top view of the identification plate of FIG. 1;
FIG. 4 is a bottom view of the identification plate of FIG. 1;
FIG. 5 is a left side view of the identification plate of FIG. 1;
FIG. 6 is a right side view of the identification plate of FIG. 1;
and,
FIG. 7 is a front view of the identification plate of FIG. 1, showing the identification plate installed on a door of the network cabinet.
The broken line showing of environmental structure is for illustrative purposes only and forms no part of the claimed design.
