(57) **CLAIM**

The ornamental design for a CCM valve, substantially as shown and described.

DESCRIPTION

FIG. 1 is a front, top, left-hand side perspective view of a CCM valve comprising a first embodiment of a new, original and ornamental design;

FIG. 2 is a front view of a CCM valve comprising the first embodiment of the new, original and ornamental design;

FIG. 3 is a rear view of a CCM valve comprising the first embodiment of the new, original and ornamental design;

FIG. 4 is a right-hand side view of a CCM valve comprising the first embodiment of the new, original and ornamental design;

FIG. 5 is a left-hand side view of a CCM valve comprising the first embodiment of the new, original and ornamental design;

FIG. 6 is a top view of a CCM valve comprising the first embodiment of the new, original and ornamental design;

FIG. 7 is a bottom view of a CCM valve comprising the first embodiment of the new, original and ornamental design;

FIG. 8 is a front, top, left-hand side perspective view of a CCM valve comprising a second embodiment of a new, original and ornamental design;

FIG. 9 is a front view of a CCM valve comprising the second embodiment of the new, original and ornamental design;

FIG. 10 is a rear view of a CCM valve comprising the second embodiment of the new, original and ornamental design;

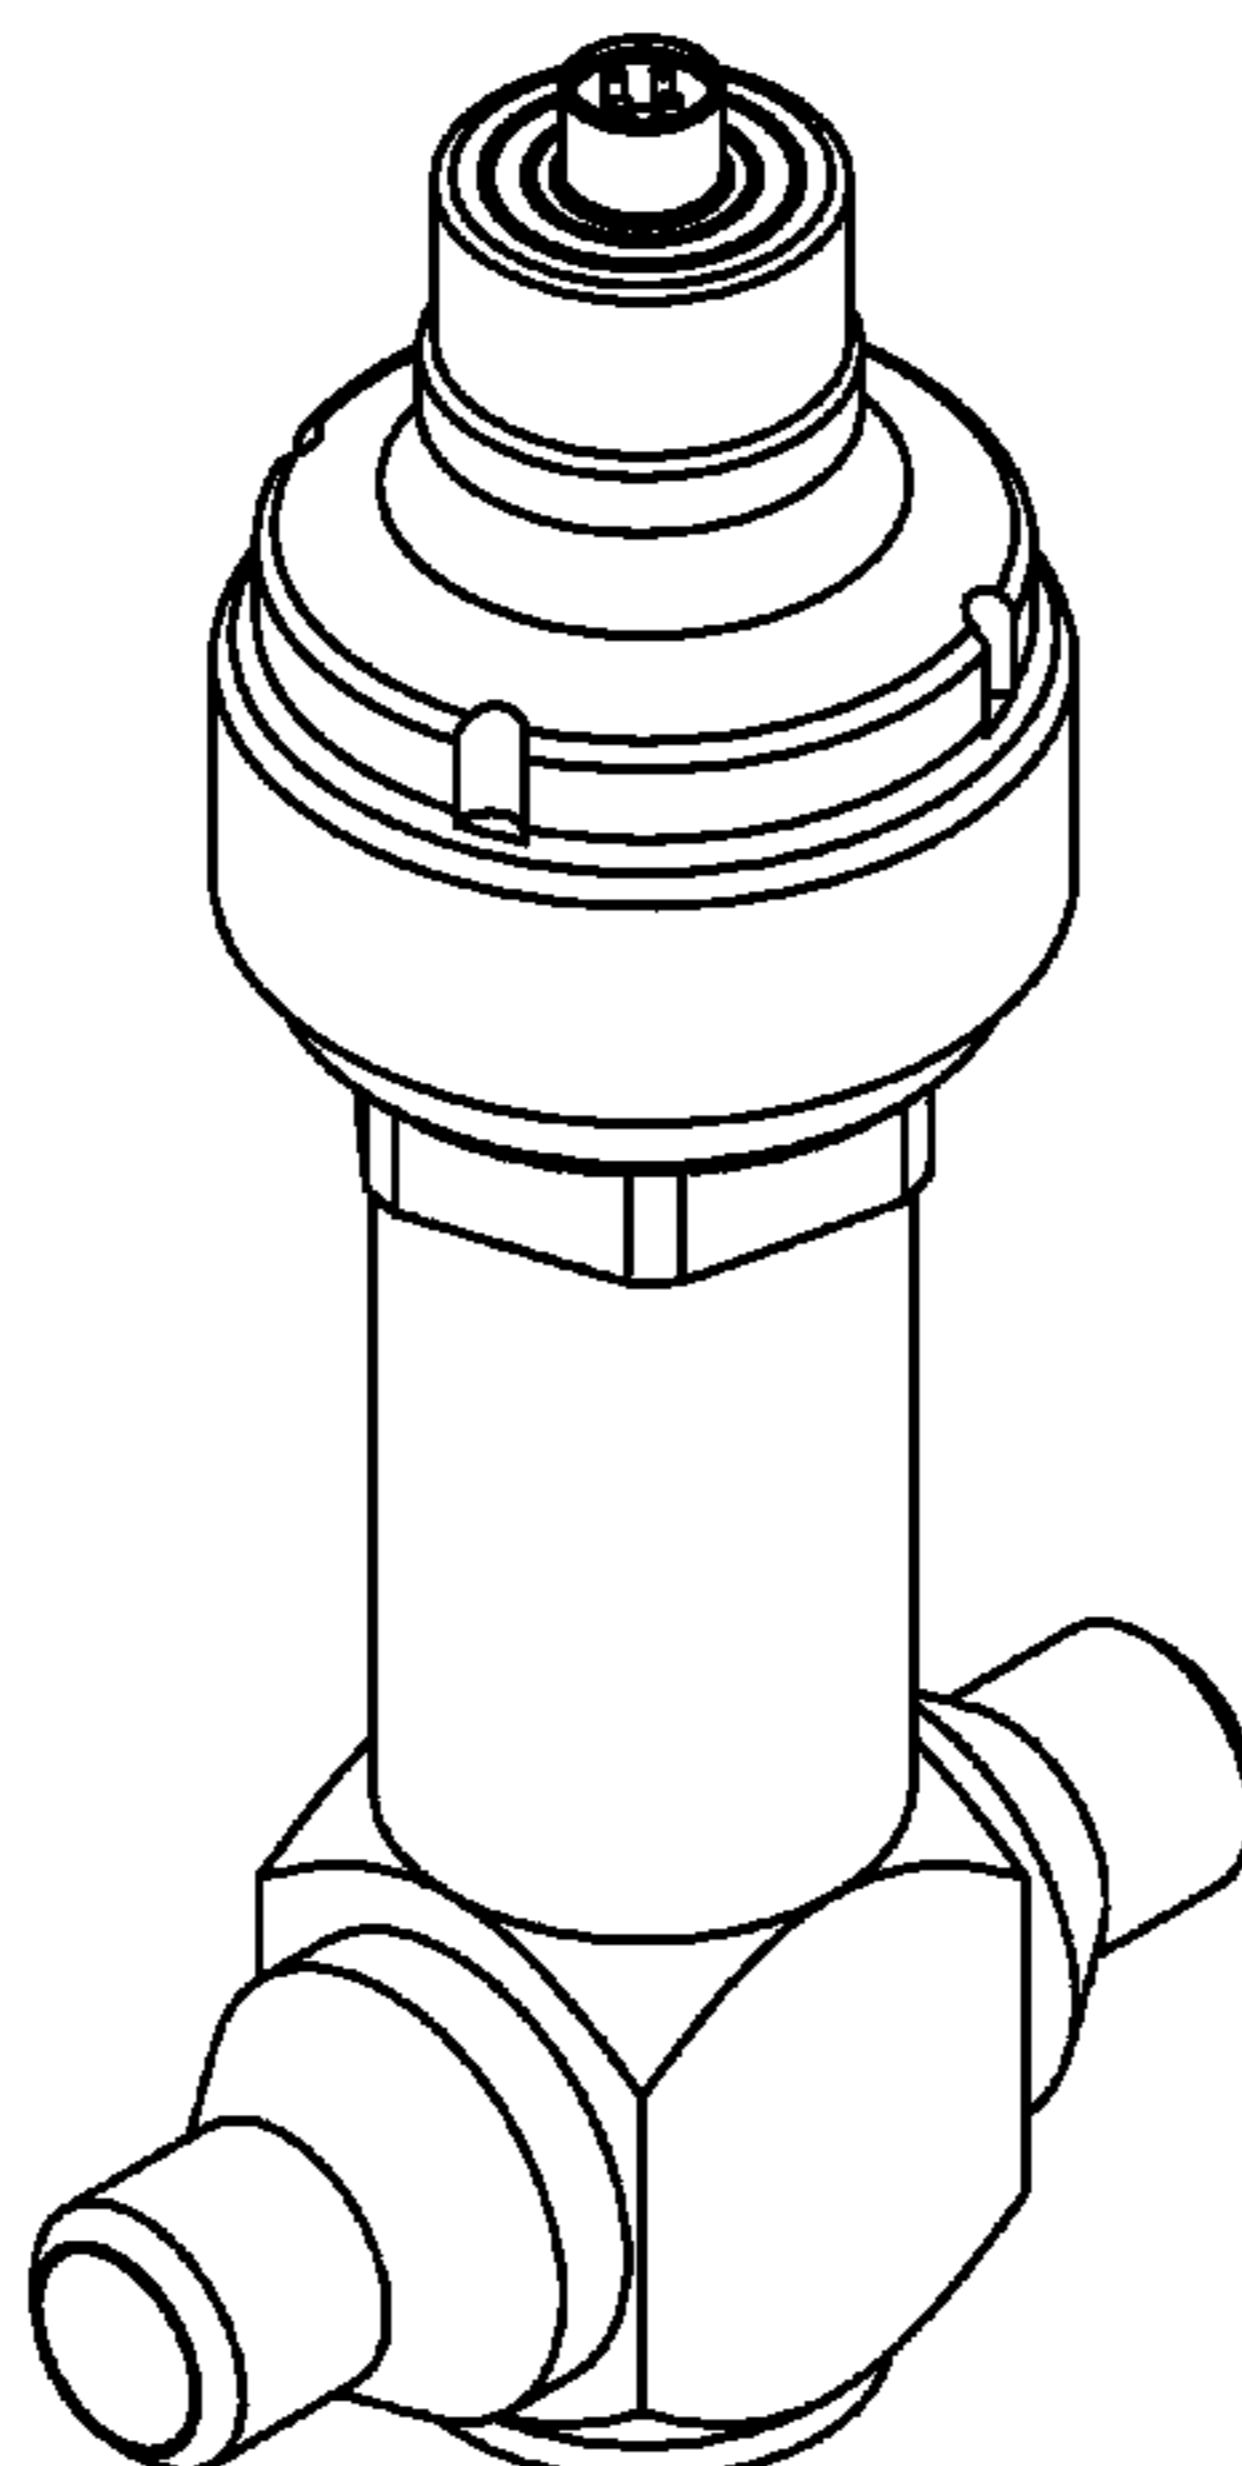

FIG. 11 is a right-hand side view of a CCM valve comprising the second embodiment of the new, original and ornamental design;

FIG. 12 is a left-hand side view of a CCM valve comprising the second embodiment of the new, original and ornamental design;

FIG. 13 is a top view of a CCM valve comprising the second embodiment of the new, original and ornamental design; and,

FIG. 14 is a bottom view of a CCM valve comprising the second embodiment of the new, original and ornamental design.
