(57) **CLAIM**

The ornamental design for a case for a portable media player with integral handles, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a case for portable media player with integral handles showing my new design, with an environmental portable media player shown in broken lines and visible through the opening on the front of the case;

FIG. 2 is a right side elevational view thereof showing the handles in a closed storage position flush with the surrounding surfaces;

FIG. 3 is a rear elevational view thereof, with the environmental portable media player shown in broken lines and visible through the openings on the upper rear and bottom of the case;

FIG. 4 is a left side elevational view thereof;

FIG. 5 is a bottom plan view thereof, with the environmental portable media player shown in broken lines and visible through the openings on the bottom of the case;

FIG. 6 is a top plan view thereof;

FIG. 7 is a front perspective view thereof, with the environmental portable media player shown in broken lines and visible through the front opening of the case;

FIG. 8 is a front perspective view thereof, shown without the environmental portable media player;

FIG. 9 is a rear perspective view thereof, with the environmental portable media player shown in broken lines and visible through the opening on the rear of the case, and showing the handles in the closed or storage position;

FIG. 10 is a rear perspective view, with the environmental portable media player shown in broken lines and visible through the opening on the rear of the case, and showing the handles in the open or operating position;

FIG. 11 is a bottom and rear perspective view thereof; with the environmental portable media player shown in broken lines and visible through the openings on the bottom of the case, and showing the handles in the open or operating position, in the environment of the fingers and hand of the user of the portable media player;

FIG. 12 is a left side elevational view, showing the handles in the open or operating position, in the environment of the fingers and hands of the user of the portable media player;

FIG. 13 is a rear elevation view thereof, with the environmental portable media player shown in broken lines and visible through the opening on the upper rear of the case, and showing the top handle in the closed storage position and the bottom handle in the open or operating position in the environment of the fingers and hand of the user of the portable media player; and,

FIG. 14 is a front perspective view thereof, with the environmental portable media player shown in broken lines and visible through the opening on the front of the case, and shown in the environment of the fingers and hands of the user of the portable media player.

In the drawings, the broken lines depict unclaimed environment.
