(57) **CLAIM**

The ornamental design for a reusable shopping bag handle grip, as shown and described.

DESCRIPTION

The invention is a new design for a reusable shopping bag handle grip as shown in the attached drawings, including FIGS. 1 to 6.

FIG. 1 is a front plan view of my reusable shopping bag handle grip, showing my new design;

FIG. 2 is a right side elevation view thereof; the left side elevation view is the same;

FIG. 3 is a right side elevation view showing my new design in an alternative embodiment from that shown in FIG. 2 in that the design is shown with an alternative lower inner surface contour via slightly thicker side walls and slightly thinner bottom wall;

FIG. 4 is a right side elevation view showing my new design in an alternative embodiment from that shown in FIG. 2 in that the design is shown with an alternative lower inner surface contour via slightly thicker side walls and slightly thinner bottom wall;

FIG. 5 is a bottom plan view of my reusable shopping bag handle grip, showing my new design;

FIG. 6 is a top plan view thereof;

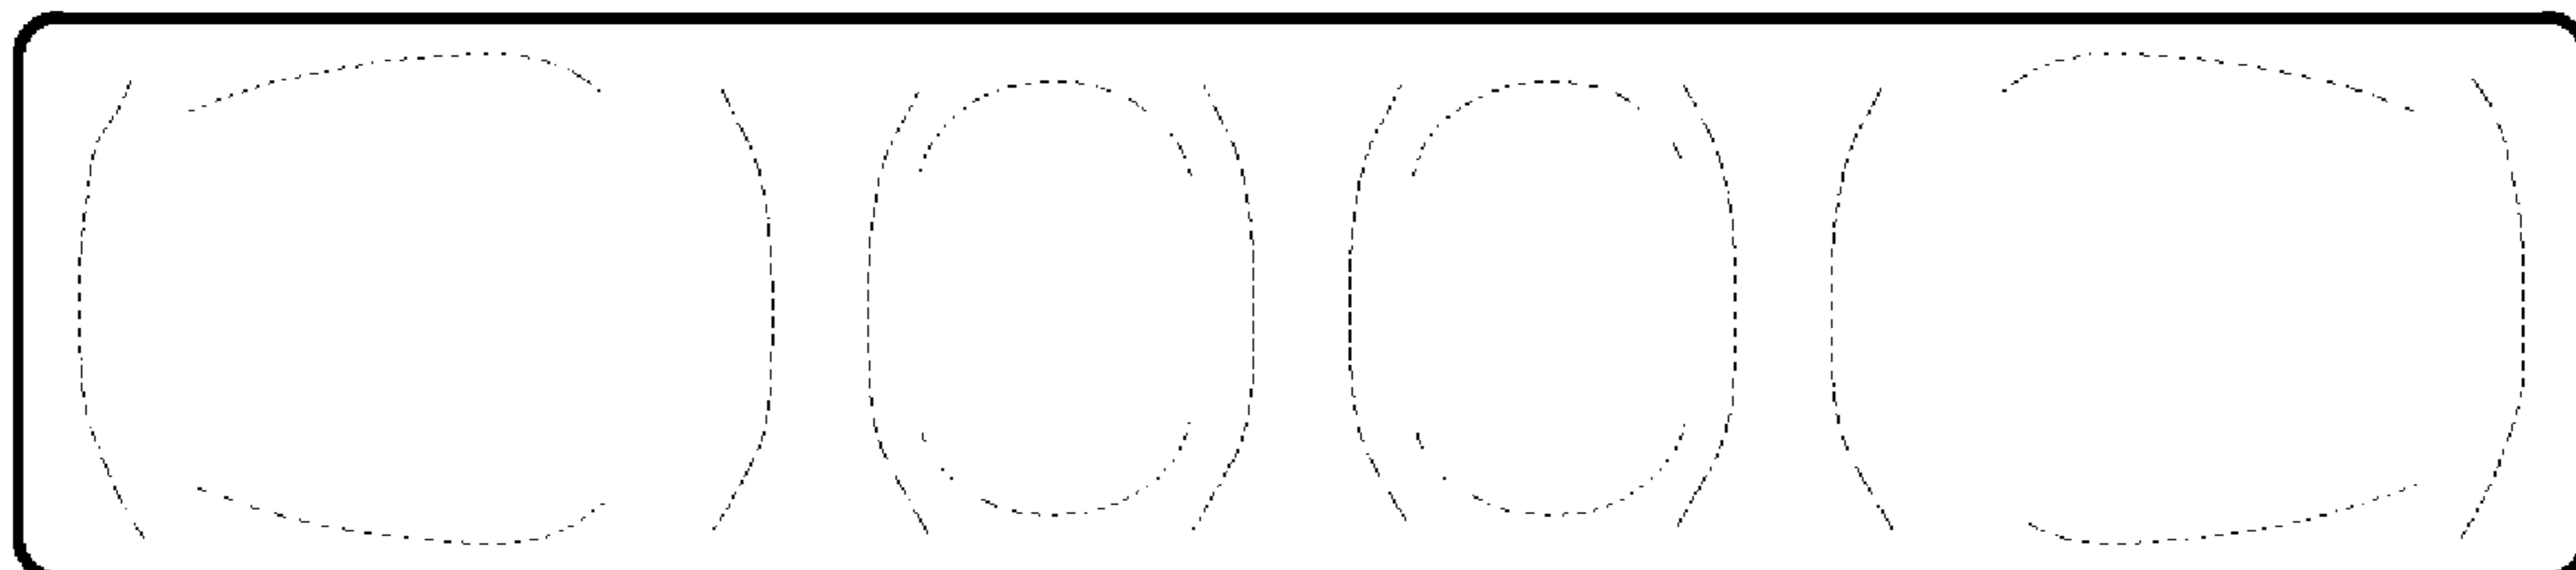

FIG. 7 is a top plan view showing my new design in an alternative environment from that shown in FIG. 2 in that the design is shown with an alternative form of ribs along the inner surfaces of the side walls in broken lines;

FIG. 8 is an upper perspective view of my reusable shopping bag handle grip, showing my new design; and,

FIG. 9 is a lower perspective view thereof.

Any broken line illustration of environmental structure in the drawings is not part of the claimed design.
