(57) **CLAIM**

The ornamental design for a global navigation satellite system apparatus display screen with user interface for a level display, as shown and described.

DESCRIPTION

The file of this patent contains at least one drawing/photograph executed in color. Copies of this patent with color drawing(s)/photograph(s) will be provided by the Office upon request and payment of the necessary fee.

The FIGURE is a view of a global navigation satellite system apparatus display screen with user interface for a level display when the apparatus is not level, showing our new design.

The perimeters of the global navigation satellite system apparatus display screen and the user interface for a level display are understood to be flush.
