(57) **CLAIM**

The ornamental design for a shredder, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a shredder according to a first preferred embodiment of our new design;

FIG. 2 is a top plan view of the shredder of FIG. 1;

FIG. 3 is a front elevational view of the shredder of FIG. 1;

FIG. 4 is a left side elevational view of the shredder of FIG. 1;

FIG. 5 is a right side elevational view of the shredder of FIG. 1;

FIG. 6 is a rear elevational view of the shredder of FIG. 1;

FIG. 7 is a bottom plan view of the shredder of FIG. 1;

FIG. 8 is a perspective view of a shredder according to a second preferred embodiment of our new design;

FIG. 9 is a top plan view of the shredder of FIG. 8;

FIG. 10 is a front elevational view of the shredder of FIG. 8;

FIG. 11 is a left side elevational view of the shredder of FIG. 8;

FIG. 12 is a right side elevational view of the shredder of FIG. 8;

FIG. 13 is a rear elevational view of the shredder of FIG. 8;

and,

FIG. 14 is a bottom plan view of the shredder of FIG. 8.

The broken lines shown in FIGS. 8-14 that are immediately adjacent to the shaded areas and define unshaded regions, represent the bounds of the embodiment in which they are shown, while all other broken lines are directed to environment and are for illustrative purposes only; the broken lines form no part of the embodiment in which they are shown.

The broken lines shown in FIGS. 8-14 that are immediately adjacent to the shaded areas and define unshaded regions, represent the bounds of the embodiment in which they are shown, while all other broken lines are directed to environment and are for illustrative purposes only; the broken lines form no part of the embodiment in which they are shown.

The broken lines shown in FIGS. 8-14 that are immediately adjacent to the shaded areas and define unshaded regions, represent the bounds of the embodiment in which they are shown, while all other broken lines are directed to environment and are for illustrative purposes only; the broken lines form no part of the embodiment in which they are shown.

The broken lines shown in FIGS. 8-14 that are immediately adjacent to the shaded areas and define unshaded regions, represent the bounds of the embodiment in which they are shown, while all other broken lines are directed to environment and are for illustrative purposes only; the broken lines form no part of the embodiment in which they are shown.

The broken lines shown in FIGS. 8-14 that are immediately adjacent to the shaded areas and define unshaded regions, represent the bounds of the embodiment in which they are shown, while all other broken lines are directed to environment and are for illustrative purposes only; the broken lines form no part of the embodiment in which they are shown.

The broken lines shown in FIGS. 8-14 that are immediately adjacent to the shaded areas and define unshaded regions, represent the bounds of the embodiment in which they are shown, while all other broken lines are directed to environment and are for illustrative purposes only; the broken lines form no part of the embodiment in which they are shown.

The broken lines shown in FIGS. 8-14 that are immediately adjacent to the shaded areas and define unshaded regions, represent the bounds of the embodiment in which they are shown, while all other broken lines are directed to environment and are for illustrative purposes only; the broken lines form no part of the embodiment in which they are shown.

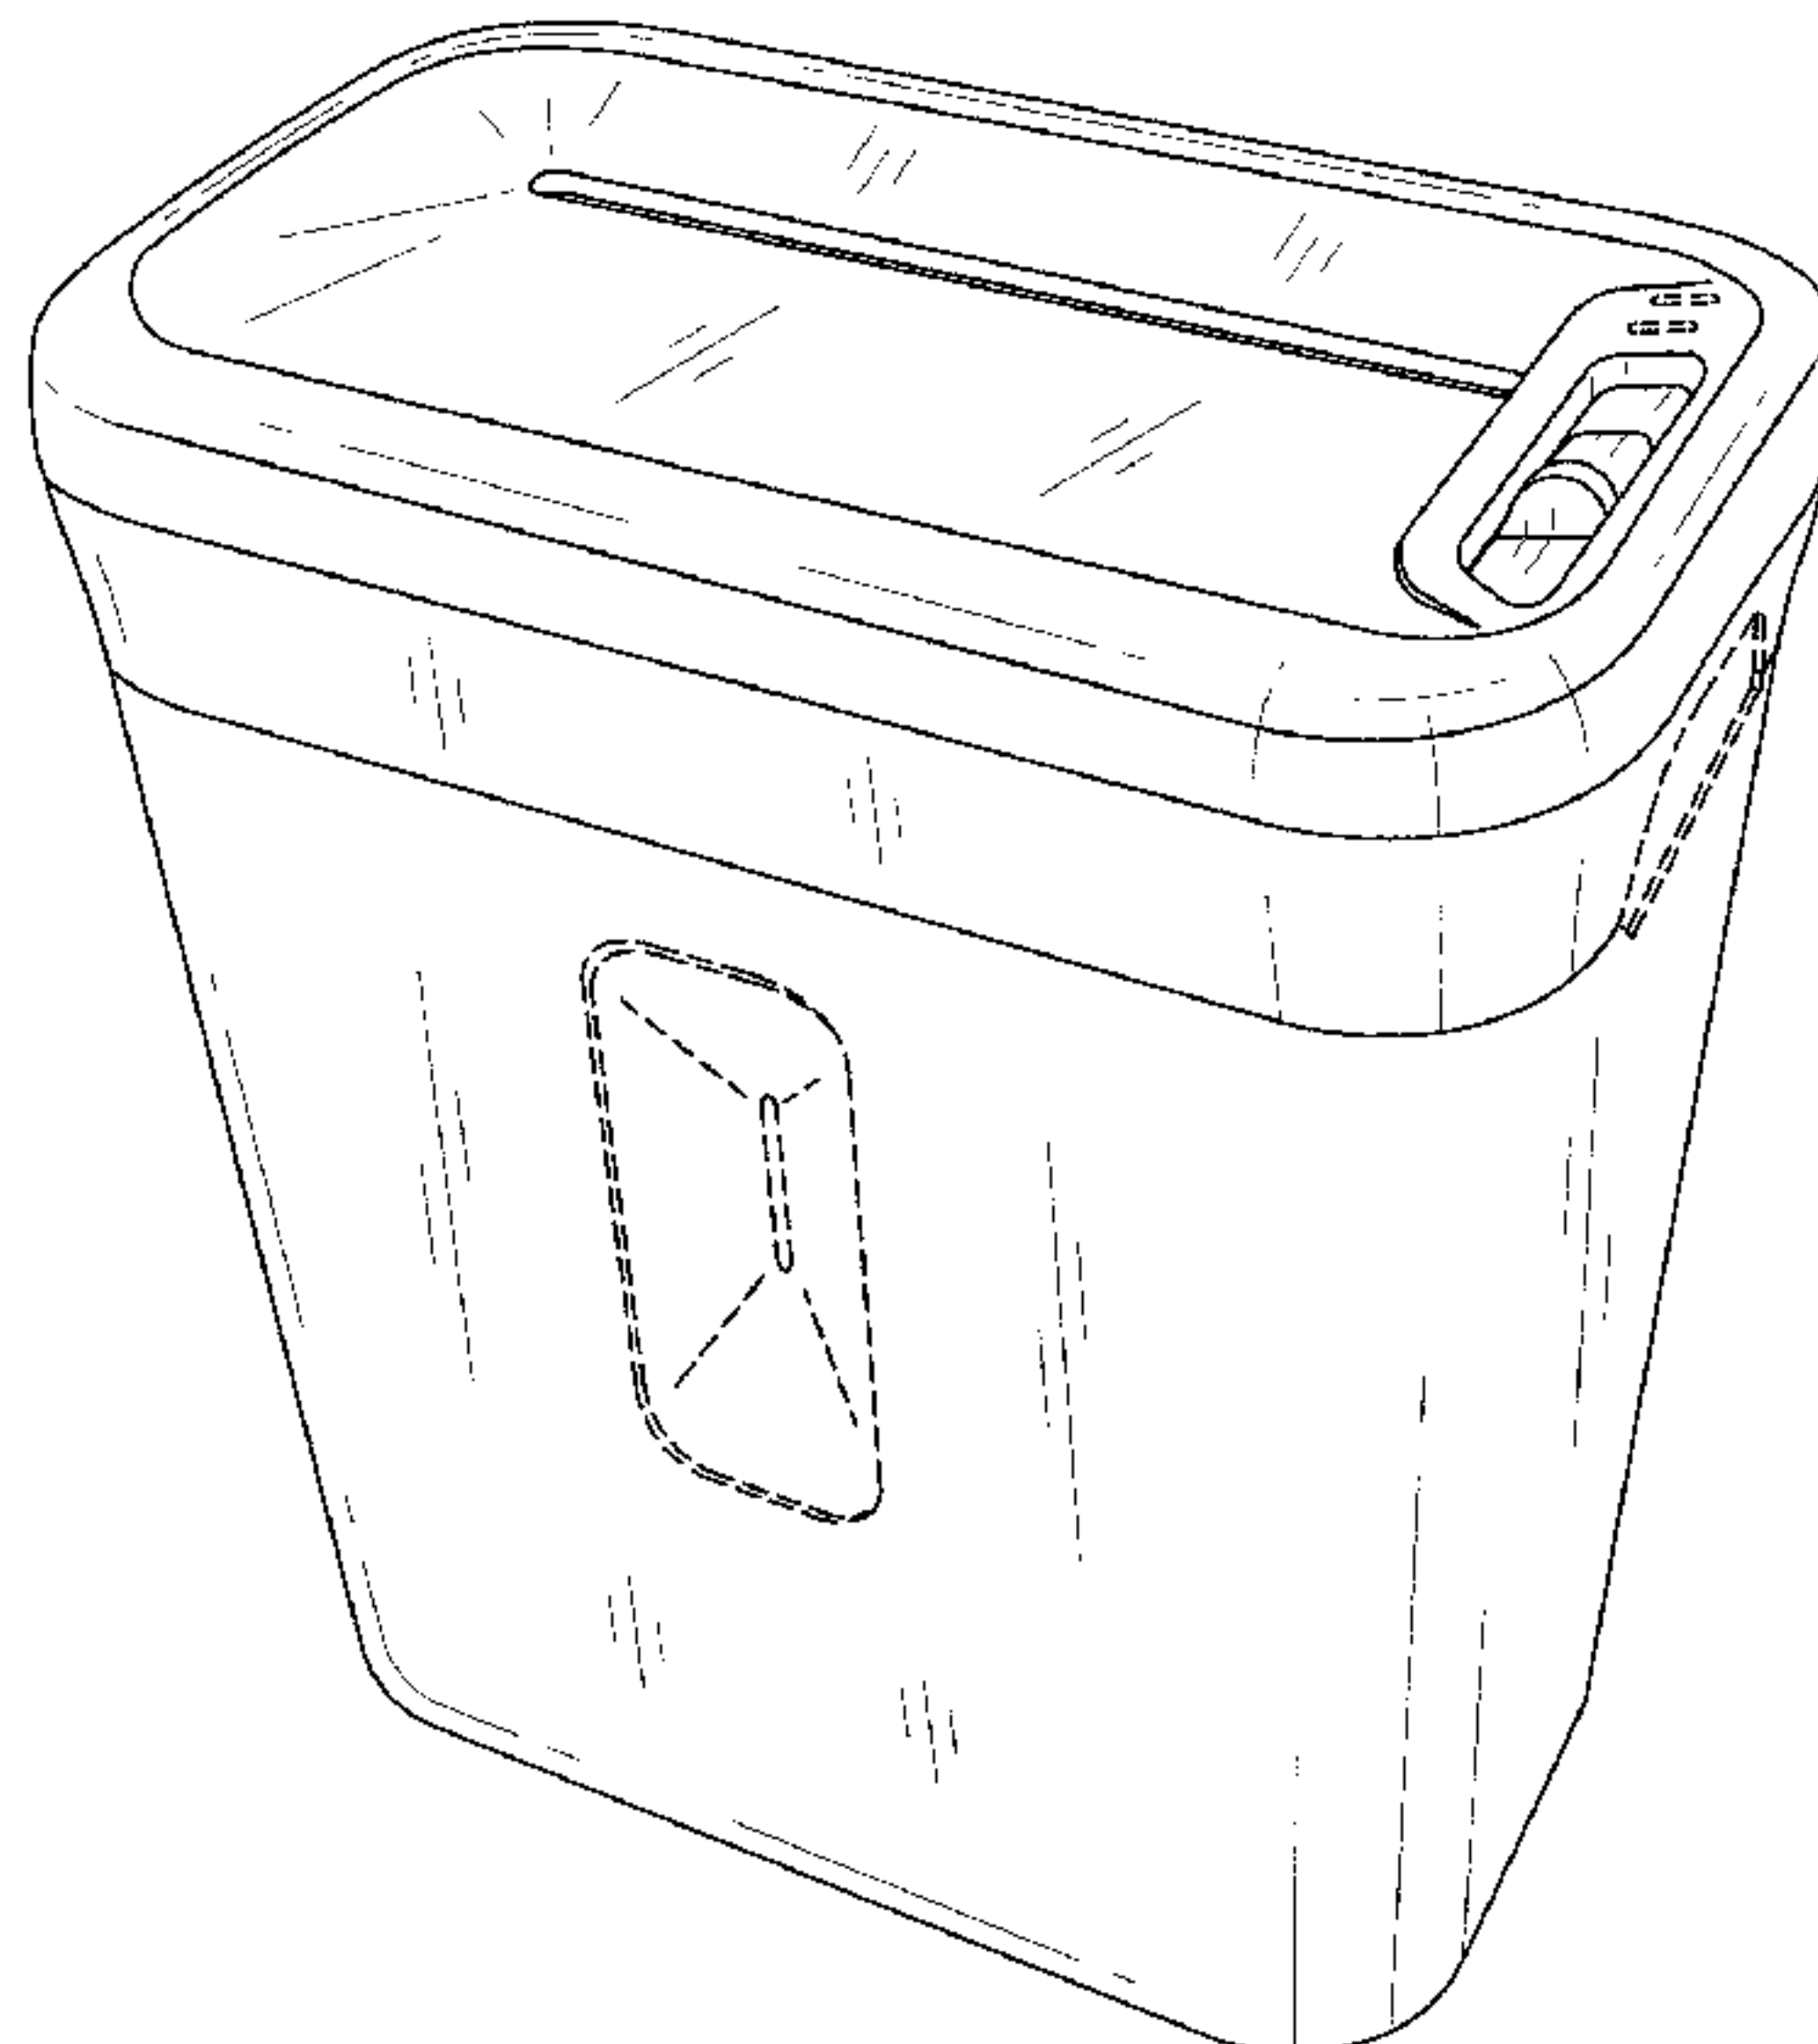

The broken lines shown in FIGS. 8-14 that are immediately adjacent to the shaded areas and define unshaded regions, represent the bounds of the embodiment in which they are shown, while all other broken lines are directed to environment and are for illustrative purposes only; the broken lines form no part of the embodiment in which they are shown.

The broken lines shown in FIGS. 8-14 that are immediately adjacent to the shaded areas and define unshaded regions, represent the bounds of the embodiment in which they are shown, while all other broken lines are directed to environment and are for illustrative purposes only; the broken lines form no part of the embodiment in which they are shown.

The broken lines shown in FIGS. 8-14 that are immediately adjacent to the shaded areas and define unshaded regions, represent the bounds of the embodiment in which they are shown, while all other broken lines are directed to environment and are for illustrative purposes only; the broken lines form no part of the embodiment in which they are shown.

The broken lines shown in FIGS. 8-14 that are immediately adjacent to the shaded areas and define unshaded regions, represent the bounds of the embodiment in which they are shown, while all other broken lines are directed to environment and are for illustrative purposes only; the broken lines form no part of the embodiment in which they are shown.
